SUNNYSIDE

FOR THE WOMEN

Mrs. Brown's Way.

The woman who puts to wise and diligent use her eyes and ears will find many a fragment which may prove a key to unlock here and there a door which opens an escape from perplexity and worry to the best means and ways of meeting every-day problems.

Mrs. Brown is my next door neighbor. She is the most practical housekeeper that it has been my fortune to know. My own success in household economies I owe to her ready, helpful, unfeeling experience. So much do I value the information I receive from her, that I have a blank book in which I record her valuable suggestions. On the outside broad cover, I have in bold lettering, which I have cut from periodicals, this title: "Mrs. Brown's Way"

It occurred to me the other day that the notes from my note book were worth repeating. I trust that the following practical experimental household hints, by their very simplicity, may prove as valuable to young eager housekeepers, as they have to me.

One morning I was lamenting the difficulty of cutting hot bread.

"Oh, I must initiate you to my secret," Mrs. Brown replied cheerily. "Dip your knife into boiling water, and then the hot bread will yield gracefully." How simple. I found it even so.

"Your cookies never have the hard bake mine so often do," I said with a tinge of discouragement, as I ate one of her delicious soft ones.

"Yes, indeed they do," with emphasis, "but I always keep a few crusts of bread in my cookie jar, and that keeps them soft. I never have hard cookies since."

I watched her one morning take her layers from the oven for chocolate cake. Previously she had prepared a wet towel spread upon her table and upon this she laid her tins.

"Do you know," she inquired, "that laying a tin of cake upon a dampened cloth when taken out of the oven, will prevent the cake from sticking to the pan?" No, I did not, I have found it since an unerring success.

"Another thing to know," she added, "is to place a pan of water in the oven when baking, and danger of burn is obliterated."—M. Frances Rankin, in N. Y. Observer.

The Pansy.

The pansy is a lover of cool weather. It gives its largest, finest flowers, and its most profuse crop of them, in the spring and during early summer, and, if the plants have been properly treated, again in the fall. It would no doubt continue to bloom as freely during the summer as in spring or fall if the weather conditions were the same. But as soon as the intense heat of midsummer comes on the vitality of the plant begins to be affected, and this accounts for the indications of "dwindling," mentioned by one correspondent. Its flowers become smaller and smaller, until they are wholly unlike, in all respects, the magnificent specimens of May and June. And as the heat of the season, generally accompanied with more or less drouth, increases, the plants seem to die off by inches. The red spider, encouraged by dry weather, which he delights in, adds his efforts to the work of the heat and the luxuriant plants of spring are hardly recognizable in July and August.—Harper's Bazar.

HOUSEKEEPING POINTERS

By Mrs. Rorer in June Ladies Home Journal.

TIRED FEELING. I do not realize the necessity of any one's having a tired feeling in the spring. If a weary and tired feeling is felt one is not in a good condition. I am quite confident that in our winter diet we do not pay

enough attention to the green vegetables containing the proper amount of salts or mineral matter. Consequently the tired feeling.

CRUMBLY BREAD. Bread is usually coarse-grained and crumbly when it contains too much flour. A good spring wheat flour, of the sort from which you should make white bread, requires a great deal of moisture and careful handling and kneading to remove the stickiness, rather than too much flour. The large holes near the top come from the crust being baked too quickly, forming a non-conductor, thus retaining the gas underneath which causes the large holes.

CAKES. I certainly consider cakes injurious; icing or frosting on the top makes them even worse than when plain. While I fully realize that many people still eat cakes and think cake-making a necessity I am quite sure the next generation will look at this from a different standpoint. Let us learn to live simply, and eat to live rather than to gratify an artificial palate. In this way we will become high thinkers, having our mental, moral and physical strength more fully developed. Looking at it from still a different standpoint, it must be remembered that many women in this country are obliged to do their own housework, take care of the family, be their own seamstresses, and perhaps do their own laundry work. Let us teach the coming generation that such a life is not worth the living, where artificial fancy foods are constantly asked for. Let us take our eggs carefully boiled or poached, flour malle into good bread, and butter spread on it, thereby saving the life and strength of the housewife and giving ourselves better food. Gradually drop all fancy things, and in their place select slightly, appetizing, wholesome dishes which satisfy a natural, rather than create an unnatural appetite.

At Last!

A Remedy has been Discovered that will Permanently Cure Catarrh.

JAPANESE CATARRH CURE CURES.
This is not merely the words of the makers of this remedy, but the assertion is backed up by leading physicians and the honorable testimonials of hundreds of cured ones. And more, there is an absolute guarantee to cure in every package, or money will be refunded. We will also send a two weeks' trial quantity free to any person suffering from this dangerous disease. Japanese Catarrh Cure is a new discovery, being a prescription perfected by one of America's most successful specialists in treating this disease. It is a soothing, penetrating and healing pomade, prepared from stainless compounds of Iodine and Essential oils, to be inserted up the nostrils. The heat of the body melts it, and the very act of breathing carries it to the diseased parts. It reaches, soothes and heals every part of the mucous membrane, curing invariably all forms of catarrh of the nose and throat, and all forms of catarrhal deafness. Mr. Joseph Little, the well-known mill owner of Port Essington, B.C., writes: "Japanese Catarrh Cure completely cured me of catarrh, which had troubled me for 25 years, during which time I had spent over \$1,000 on remedies and specialists in Toronto and San Francisco. About two years ago I procured six boxes of Japanese Catarrh Cure, and since completing this treatment have not felt the slightest symptoms of my former trouble. I can highly recommend it. Relief came from the first application. We always keep a supply in the mill for cuts and burns, and consider it superior to any other remedy for healing."

WOODSTOCK WONDER.

A Crippled Rheumatic Restored by

Dodd's Kidney Pills

Woodstock, Ont., May 22 —Never, in the social history of this town since the Birchall trial, has such great interest been shown as the "Cutmore Case" has caused. Mr. C. J. Cutmore, 91 Main Street, was crippled by Rheumatism and Lumbago during five years. He couldn't stand straight, and had to be helped from his room.

Today he is straight and strong; sound in every limb, thanks to Dodd's Kidney Pills. Other remedies were used, but did no good. Dodd's Kidney Pills cured him, and Dodd's Kidney Pills ALWAYS cure Rheumatism and Lumbago.
