

To save yourself money — here's what you should know about MASONITE* BRAND PRODUCTS!

MASONITE HARDBOARDS have all the advantages of natural wood... without the disadvantages!

Through the exclusive MASONITE process, clean wood chips are actually exploded under steam pressure... then the resulting wood fibres are refined, felted, and pressed into panels. Ligno-cellulose, the same natural binding that holds wood fibres together in trees, welds the fibres of MASONITE PREDWOODS into stronger, more practical hardboards.

Result: a range of grainless Presdwoods that won't split, won't check, have no knots... Presdwoods you can saw and nail with no trouble at all! The surfaces of all MASONITE PREDWOODS resist scratches and scrapes... yet take any finish beautifully!

There's a money-saving MASONITE HARDBOARD for every purpose...

MASONITE PREDWOOD—The most popular and best-known hardboard. Recommended for walls, ceilings, doors and built-in furniture — and for general interior finishing. Available in thicknesses of 3/8" to 5/16"... panel sizes: 4' wide and up to 16' long — natural brown color.

MASONITE TEMPERED PREDWOOD — A harder, stronger, moisture-resistant board. Ideal for use as exterior siding — wherever board is to be exposed to weather. Panel sizes and thicknesses same as MASONITE PREDWOOD. Colors: dark brown or black.

MASONITE QUARTRBOARD—Economic QUARTRBOARD may be nailed directly to studding as a sturdy wall-board — or used as an underlay beneath any type of flooring. Thickness: 3/4". Panel sizes: 4' wide and up to 16' long. In light brown tone.

MASONITE TEMPTILE — A MASONITE TEMPERED PREDWOOD with score lines impressed to give a 4-inch square tile effect. Ideal for use on bathroom or kitchen walls or wherever moisture is present. Thickness: 3/8" and 3/16". Panel sizes: 4' wide and up to 16' long. The dark brown finish may be enamelled easily.

AND-NOW-BRAND-NEW MASONITE LEATHERWOOD — A MASONITE TEMPERED PREDWOOD with a highly distinctive surface that closely resembles a fine grain leather. Most attractive on walls, as displays or counter-fronts. 3/4" thick, 4' x 8' panels. In Morocco Red, Forest Green or Antique Beige.

BUNBURY, W. M. S.

The April meeting of the Bunbury W.M.S. met at the home of Mrs. Willard Kelly on Wednesday afternoon, April 4th.

The devotional service was led by Mrs. Scranton, the theme being "Love". A reading entitled, "A Japanese Boy Teaches the Meaning of Love", was given by Mrs. Tait. Two of the members, who came to this country a few years ago from Holland, did the honor of repeating together the Lord's Prayer, in their native language.

The study period followed, and was led by Mrs. Tait, of which the subject was "Which Way Japan". A very interesting review of a book by this same name was given by Mrs. Weir. This part of the meeting was closed by a prayer for the missionaries, led by Mrs. Leslie MacDonald.

The business period was presided over by the president. A letter regarding the W.M.S. allocation was read by Mrs. Hope Mutch, and it was decided that the allocation of \$200 be accepted. The Community Friendship secretary reported having made several calls. Mrs. Harold Annear, the Citizenship Secretary, read an interesting article on temperance.

Great interest is taken in reading and many books were read during the past month. These books were brought to the meeting and exchanged for others, as Mrs. Tait always has on hand a good variety of suitable reading material.

Previous to the close of the meeting, Mrs. Brink, who has been a member of this society for the past two years, and who is moving to another community, was presented with a nice gift as a souvenir of her many friends of the Bunbury W.M.S.

A short address was given by Mrs. Weir and the presentation was made by Mrs. George Mason. Mrs. Brink thanked the members and asked them all to come and visit in her new home.

The Mispah Benediction brought the meeting to a close, after which a lovely lunch was served by Mrs. Kelly assisted by several of the ladies.

MASS ATTACK

PORT ERIE, Ont. —(CP)—Local officials wondering how to get rid of the thousands of starlings which frequent both sides of the Niagara River heard with interest of experiments in Buffalo. There it was planned to asphyxiate thousands roosting in an old boiler house by carrying carbon monoxide from big trucks in hoses.

Address and Presentation Nineteen Plays Register For W. I. Drama Festival

On the evening of April 14th friends and neighbours from Newport, De Gros Marsh and Woodville were at home to the hospitality of Mr. and Mrs. Leo Fay of Newport, when about twenty-five guests gathered at their home for an evening of entertainment in honour of Miss Celia Whalen, retiring clerk of Jas. Fay & Son, General Merchants, Newport.

The meeting was called to order by Mrs. D. M. MacLean in a few opening remarks, and called on Mrs. Dolph MacPhee who read an appropriate address to Miss Whalen, at the conclusion of which Mrs. MacLean presented Miss Whalen with a tuffed chenille type bedspread and butter dish in gleaming silver plate, also a personal gift was presented by Mrs. Edward Goff consisting of artistically painted landscape view of beautiful Cardigan River.

Miss Whalen, completely surprised by the occasion, fittingly replied to the presentation and honor extended her.

The balance of the evening was spent in games thoroughly enjoyed by all, following which a delicious lunch was served to all present. At the close all wished Miss Whalen every success for the future and expressed their regrets at her departure in the near future.

Following is a copy of the address.

Newport, P. E. Island April 14th, 1951:

Miss Celia Whalen Newport, P. E. I.

Dear Celia:—

As we gather here this evening, we take this opportunity to convey to you in a special manner our feelings and devotion towards you as one of our valued members.

Eight years have passed since you have come to this community as a business employee, made our acquaintance and shared and contributed to our way of life. Recently we learned with a feeling of regret in losing your valued companionship and assistance, that you have decided to relinquish your present position for other occupations and duties more dear and inviting to you. Since coming among us, dear Celia, you have by your capability, devotion to duty, your interest and assistance in our parish activities and true friendly companionship, endeared in our hearts a real love and devotion for you which we feel time cannot erase.

Whatever your future plans and duties may be, we hope that the star of success and happiness will shine across your path always and that ere long you will return to us with a more real and enduring interest in the development and welfare of our community.

In conclusion, dear friend, we ask you to please accept these gifts, not for their intrinsic value, but as a token of our companionship and esteem for you and in appreciation of your services and assistance at all times, and may they carry with them our sincerest wish for all good things of life and Heaven's blessing down through the years.

Signed on behalf of your friends of Newport, De Gros Marsh and Woodville.

er Ring", directed by Charles Bentley.

Junior entries are as follows:—

Lorne Valley: "Tommy Says Hello", directed by Mrs. M. MacLeod.

York: "The Adventure", directed by Melba Richards.

York W. I.: "The High Window", directed by Arthur Vesey.

Lorne Valley: "How the Story Spread", directed by Mrs. M. MacLeod.

St. Peter's A. Y. P. A.: "The Red Key", directed by Stuart Dickson.

Little Theatre Guild: "The Spider".

IN MEMORIAM

LOUIS GALLANT

—The community of Piusville and surrounding districts were deeply saddened on Good Friday morning when it became known that the Grim Reaper had hovered over and claimed for its own the soul of Louis, beloved son of Mr. and Mrs. Maxim J. Gallant, in his 25th year.

In poor health during the past year, Louis had been to several doctors in Halifax and Charlottetown, besides his local doctor who it seems did all that medical aid could possibly do, besides being so tenderly cared for by his loving parents and others. But God in His wisdom ruled otherwise and called him on the above mentioned date, there where there are no more sorrows and cares.

Besides his grief-stricken parents he also leaves to cherish fond memories of him, two sisters, Eva, Mrs. Jack Jones; Lena, Mrs. Anthony Blanchard; and one brother, Aubin, all of Piusville.

His well attended funeral was held on Easter Sunday morning at St. Anthony's Roman Catholic Church, of which he had ever been a very devoted member. Rev. Fr. M. J. Rooney, who had often visited him during his illness, also was celebrant at his funeral Mass and burial, which was in the adjoining cemetery, there to await a glorious resurrection.

May his soul rest in peace.

The Saskatchewan River was discovered in 1739 by Francois La Verendrye, son of the famous explorer Sieur de la Verendrye.

Car details as shown are subject to change without notice

"Are all automatic drives alike?"

That's a question we often hear—and we believe the answer to it has a big bearing on your choice of a new car. The answer is...

NOT in snow, sand, or mud! If ever you've bogged down and couldn't "rock" your car because of the gear-shift lag in a self-shifting transmission... you'll appreciate this Packard Ultramatic advantage: You can change instantly—without clashing—from Forward to Reverse!

NOT on slippery streets! If a sudden "down-shift" has ever thrown your car into a dangerous skid, you'll know why Packard owners are so enthusiastic about the safety of Ultramatic Drive. Its smooth, gradual engine braking power gives you complete control all the time!

NOT on the long haul! If you're familiar with the cost of gas-wasting slippage at cruising speeds—or if you've paid the maintenance bills on a complicated, self-shifting transmission—you'll welcome the thrifty, lasting efficiency of Packard Ultramatic Drive. No gas-wasting slippage when cruising. And no maintenance complications.

You owe it to yourself to be fully informed on automatic drives before you buy any new car today. The best way to make comparisons, of course, is to start with the most advanced drive of them all—Packard's exclusive Ultramatic Drive!

It's more than a car—it's a **PACKARD** Ask the man who owns one
