LETTERS TO THE EDITOR.

Notes From the Capital.

SIR,—The members of the Senate and House of Commons were dismissed yesterday at 4 p. m., amidst much display of shining helmets, cannonading and military grandeur. As usual, the red chamber was literally packed. Of the P. E. Island M. P.'s not even one was to be seen; all, even Mr. Welsh, had gone. It was remarked by many that the Island members were not present. Your Senators were present then, as at the opening.

The Newfoundland delegates, consisting of P. R. Bowers, Esq., Journalist, D. G. Greene, Q. C., M. L. A., and D. Morrison, Esq., have come and gone. Whilst here they had several interviews with Cabinet Ministers and statesmen of standing. They return full of hope and ever grateful for courtesy and kindness received. The delegates, while in Canada, addressed meetings in Toronto and Hamilton, where great sympathy was extended. The resolutions of sympathy passed by the Island Legislature were published everywhere and approved. The Hon. Sir John S. D. Thompson, Minister of Justice, intertained the delegates to luncheon ere they left at the Rideau Club, and with the delegates were seated the Right. Hon. Sir John A. Macdonald, Premier, the Right Hon. Sir H. Langevin, M. P. W., Sir A. P. Caron, M. M. & Defence, and Hon. Messrs. Dewdney and Haggart, proving the fact that the delegates have been very successful in their mission. Mr. Bowers being a prominent anti-Confederate, was kept on a level plane by his co-delegate, Mr. Morrison, who is a pronounced advocate of confederation, therefore the union of Newfoundland with Canada was kept in the background; but, no doubt, will be up soon for future consideration. From many facts gleaned, that colony will, ere long, see the certain ills of isolation. From the delegates much of the history of Newfoundland has been gleaned by enquiring minds in the capital, as in other cities, notably the undeveloped state of the colony, in the face of the fact that no such field exists elsewhere as in that colony at present, where vast undeveloped regions are unavailable, in fact almost entirely unknown to the majority of the colonists themselves. much good is predicted from the Commission with which the delegates were entrusted. For instance, there are but few who know the trade value between Canada and Newfoundland. After that of Great Britain and the United States, there is but one foreign country, viz: British West Indies, that consumes as much of our exports as does Newfoundland. Hence it is the fourth greatest market in the world for our exports. It might almost be classed the third best, as the difference in favor of British West Indies was but $355,509 last year.

Our season is somewhat late, weather cool. The leaves are just beginning to appear green. The seeding is well advanced throughout. Our provincial elections are near at hand. Politics are very quiet in the Capital. It is not really known if Mr. Bronson will be opposed. Many Conservatives in the Dominion Gov't are supporting Bronson, who in turn supports Mowatt, in the Provincial Government. Principle seems to guide the people here, and not party names. Meredith as yet has no man in the field. For the Capital, it is true, an Equal Righter (so-called) is spoken of, and also a labor candidate, both of which have been Conservatives, but none can be found to champion Meredith's anti-free school and anti-French platform.

Excursionists for Vancouver.

The St. John *Sun* says:—An excursion party from P. E. Island passed through here yesterday afternoon on the C. P. R. for Vancouver. The party were provided with a second-class sleeper, which met them at Point du Chene, and in which they will ride without change to Vancouver. The car is one of the Canadian Pacific's especially fitted up excursion sleepers. All the berths were supplied with good bedding, and the car contained several tables—in fact, everything enjoyed by the first-class passengers on the leading roads of America. The party numbered 32, and included John Harrington and family (five in number) of Summerside: the Woolner family (nine in number) of Rustico; the McNeill family (three in number) of Grand River, Lot 14; Thomas Brazil of Summerside, Mr. Sutherland of Clifton, and W. H. Fraser, contractor, of Charlottetown, and family. Charles S. Philps, traveling passenger agent of the Canadian Pacific for the maritime provinces, arranged this excursion for the Island party, and he accompanies them from Point du Chene to Montreal. Several gentlemen of the party expressed themselves delighted with the arrangements made for their comfort.

It is a curious fact that the giants rarely exceed the age of 40 or 45, and few of them ever show signs of much intellectual capacity. They are, as a rule, good-tempered indolent and placid; their opposite extremes, the dwarfs, being irritable, active, clever and ill-tempered.

In some experiments lately made in England to test the merit of electric welding, a 1½-inch iron bar was welded both by means of electricity and by hand. The former stood a strain of 81.6 per cent. of the strength of the metal itself, and the latter 89.3 per cent. The electric weld, however, showed cracks when bent cold at an angle of 66° whereas the hand made joint stood 136° of bend.

Fletcher Kirby, of Carroll County, Ark., is under arrest and confesses to the murder for robbery of an old man named Rogers. Kirby says the job was put up by another man, with whom he shared the spoils. The unique part of Kirby's statement is that after he shot the victim he thought of killing himself, but the dying man besought him to live and get forgiveness. Kirby then asked him to pray for him, which he did.

A St. Paul despatch of the 19th says: The prayers that ascended yesterday from every city, town and hamlet of the Northwest for rain and for the general welfare of the crops were anticipated by drenching showers, that fell, it is believed, upon every square acre of soil known to the spring wheat belt. Telegrams have poured into the chamber of commerce from every point from Minnesoto, and the stereotyped form is, "Drenching rains over every bit of territory, and the wheat crop saved."
