

100% PROFIT is what many of our clients realized upon their investments during 1899.

The Iron Monitor Gold Mining Co

will prove no exception

The company own the "IRON MONITOR" claim almost adjoining (less than 300 ft) the famous "REPUBLIC" that last year paid in dividends over

\$500,000.00 DOLLARS.

The Superintendent's report is flattering, showing two veins upon which over 430 ft. of development work has been done, which yields good values.

The officers ARE NOTED MINING MEN.

The President, Mr. V. D. Williamson, financed the sale of the "REPUBLIC" to Montreal Capitalists for

\$3,500,000.00

We believe with the same amount of development work the "IRON MONITOR" will equal the "Republic"

REMEMBER IN 1897 shares of the "Republic" sold for less than TEN CENTS are to-day worth ONE DOLLAR and SHAREHOLDERS HAVE RECEIVED MANY TIMES THEIR ORIGINAL INVESTMENT IN DIVIDENDS.

We have a limited number of shares for sale at

FIVE CENTS

\$50.00 for 1000 Shares

which within two years we predict will be worth \$500.00.

This is an opportunity you cannot afford to miss. The share is bound to advance quickly absolutely upon its merits, therefore it will be necessary for you to act promptly in order to secure shares at the above figure.

THE DAILY EXAMINER

A PROTEST

We notice in the Patriot certain advertisements of the Provincial Government calling for tenders and inviting the tenderers to enter into contracts with the Government. Yet the Farquharson Administration has evidently lost the confidence of the country. The districts of Tignish, Summerside, New London, Belfast and Murray Harbor all bear eloquent testimony to the fact. Moreover, the Farquharson Administration does not command a majority of the Legislature. According to the principles of responsible government, it cannot, therefore, be justified in performing any public business other than that which is absolutely essential while compelled to remain in office. Indeed, it ought, if acting upon Liberal principles, to have resigned as soon as the results of the Belfast and Murray Harbor elections were made known. But it is clinging to office, and doing business in its own mean way, just as if it possessed the fullest confidence of the electors and a large majority in the Legislature. Take for example the advertisement calling for tenders for coal. A supply of coal for the public buildings will not be needed until next fall. Yet the advertisement calls for tenders to be sent in before the 13th March next; and more than that it shuts out of the competition all kinds of coal except that of the Acadian mine. We beg to call the attention of His Honor the Lieutenant Governor to the high-handed and ill-liberal manner in which his government is conducting public affairs. The representative of the Crown is bound to take cognizance of the results of elections and the balance of parties; and he ought not to permit his irresponsible advisers to do unnecessary business for the purpose of favoring their friends at the expense of the Province.

—Sir Wilfrid Laurier has lately had impressed upon him the fact that "the unity of the British Empire is a real and living fact;" and Mr. Joseph Chamberlain, referring to recent events, said a few days ago in the House of Commons that "Never before in the history of the Empire has it so realized its strength and its unity."

—It is said that Dr. Leyds is not worried at the new turn of events. He will probably save enough out of his war salary to live in retirement after the war is over.

OPINION IN THE STATES.

SOME persons are inclined to lay stress upon the fact that sundry pro-Boer meetings have been held in various parts of the United States. To these we have to say that men living in a free country will necessarily hold opposing opinions. There is no proposition too ridiculous, no party to a dispute so utterly wrong, that it will not have some supporters and sympathizers. Even here, it has been said, there have been some persons inclined to agree with the Boers,—in the wrong, from every point of view, as they evidently and undoubtedly are. Can we, then, wonder that the Boers find sympathizers in the neighboring Republic? But if there are some persons in the States who have taken the Boer side, there are also many more who strongly hold with the British. As a proof of this we clip from the Boston Globe the following copy of a resolution passed unanimously at a big meeting held in that city:

"Whereas, the war between the British and Boers in South Africa is a conflict between barbarism and civilization, a struggle between those who are trying to uphold civilization and those who are trying to carry us back to the barbarism of the middle ages; those that sympathize with the Boers are arrayed against the best type of civilization the world has ever seen.

"Whereas, in the late war with Spain all the great powers were opposed to the United States with the exception of Great Britain; she remained our true and faithful friend in our hour of need, and prevented other nations from interfering and humiliating our country; therefore, be it

"Resolved, That our sympathy is with Great Britain in her war with the Boers in South Africa, and that her success will not mean oppression to the Boers, and not even the kind of oppression that they have incurred against all foreigners; but that it will mean liberty, education, enlightenment and progress to all, whether they be British or Boers.

"Resolved, That meditation or intervention on the part of the United States would be an act of the basest ingratitude, and would certainly react against this country if it were to be guilty of so great a crime against its only and best friend in the world.

"Resolved, That England and America are one at heart, one in religion, one in interest, one in ideas, one in hopes, and must be one in either defeat or triumph."

This resolution is, we believe, a much truer expression of the ruling opinion of the United States than that of the meetings addressed by Mr. Bryan.

NOTES AND COMMENTS.

—The wonderful Liberal surplus in Quebec has been shown to be non est.

—Premier Marchand has given notice that he will introduce a bill to abolish the Legislative Council of Quebec. But it doesn't follow that the Legislative Council will be abolished!

—Lord Methuen reports from Kimberley that "supplies of food and forage are being pushed on as fast as possible. There will be enough coal to start the DeBeer's mines in ten days. By this means, great misery will be alleviated."

—The Parliament of the Island of Jersey has adopted English along with French, as its official language. This may be taken as a concession to those philologists who maintain that English is to be the language of the future.

—The Montreal Gazette remarks that in connection with the rumors of Mr. Tarte's resignation, some of the papers are recalling Sir Wilfrid Laurier's remark, "When Mr. Tarte goes I go." There may have been more truth in the saying than the speaker suspected.

—A Boston correspondent in the course of a private letter to THE EXAMINER says: "We all look forward to the appearance here next month of Sir Charles Tupper. Without question he will speak to one of the largest assemblages of people ever seen within four walls in old Boston."

—The Ontario judges who lately tried the election cases, have refused to remit the fines imposed; and in default of payment, the Liberal machine will be extensively represented in the jails of the Province. Pity that the leading manipulators of the machine were not also to be incarcerated!

—The British Minister, Sir Henry Mortimer Durand, had an audience with the Shah of Persia on the 21st inst., and formally invited him to visit England. This fact is interesting in view of the concessions said to have been given by Persia to Russia, which it has been thought might possibly lead to international complications.

—Mr. S. D. Scott, writing from Ottawa says that "Notwithstanding all the contradiction, it is a fact that Mr. Tarte is going away. His departure will take place too soon for him to explain any of the matters in his department concerning which there is public curiosity. Doubtless he will cut a pretty wide swath at the Exposition, and France will be charmed with his compliments and his magnificence. But it would be convenient to have him here during supply so that the public could have him explain certain contracts and expenditures."

—It is said in England that the most striking address of last week was that of the Bishop of Durham, at St. Ann's Church, Bishop Auckland. He had, he said, cherished the hope that a peaceful solution of the South African problem

would be possible. It had become clear to him that the steady endeavors of the Boers to secure supremacy in South Africa made war inevitable. "When once the situation was realized, we awoke with a sense of our duty. Our unpreparedness showed the sincerity of our desire for peace. We are face to face with a great crisis. It is not only our paramount authority in South Africa which is at stake, but, as involved in that, our dominion in India and our fitness to inspire and guide the life of Greater Britain."

Dr. Keeley, of "Gold Cure" fame is dead.
