P. E. ISLAND AND LIVERPOOL The Service Discussed.

THE NEW STEAMER FOR THE WINTER SERVICE.
May Not be Ready for Work till Next Year.

[SPECIAL TO THE EXAMINER.]

OTTAWA, June 11.—In the House of Commons yesterday in discussion on the item for service between P. E. Island and Liverpool, Fisher explained that tenders had not been asked for, as the case was urgent.

Foster explained that the matter was before the Government over a year which seemed to be long enough.

On the item for \$180,000 for a steamship to take the place of the Stanley, Sir Louis said the ship would be much larger than the Stanley and built on the same plan.

It is hoped she may be ready by December, but if early delivery makes the price too high Capt McElhenney is instructed not to procure the ship for this year.

Macdonald, P. E. I., said trade was increasing so rapidly and especially in pork which was becoming such a great local industry that it was important to have an improved service.

In reply Sir Louis Davies said that both the Stanley and the new ship would be engaged in the service.

Sympathy With the States.

BOSTON, June 9.—Among the prominent speakers at the annual banquet of the Massachusetts Medical Society, held in this city last evening, was Hon. Sir William Ringston, of Montreal, who opened his address with a reference to the advantages of the country and city practitioners meeting in social intercourse and exchanging ideas. Touching upon the present war, he said: "Blood is thicker than water. When America suffers, England, Scotland, Ireland, all the English people suffer too. In the struggle in which you are now engaged, it is a matter of great satisfaction to read the expressions of good will for America, which are made in the of Great Britain. We wish you all success, and we all hope that the struggle may be as short as possible and that peace may soon return."

Fall of a Meteor.

CAPTOWN, June 9.—A meteor half the size of St. Paul's Cathedral has fallen at Port Alfred. It makes a hole in the ground 50 feet deep and 120 feet long and 60 feet wide.

The New York Court of Appeals has affirmed the conviction of murder in the first degree in the case of Martin Thorn, found guilty of the killing of William Galdensuppe, a bath rubber, in Woodside, L. I., in July last. Mrs. Augusta Nack, Thorn's confederate in the murder, and who turned State's evidence, is serving a sentence of fifteen years' imprisonment for her part in the crime.

TRANSPORTS STILL HELD UP. Afraid to Let Them Go.

NAVY DEPARTMENT FEARS THEY WILL BE ATTACKED, And They Will Not Leave Unless Strongly Convoyed.

[SPECIAL TO THE EXAMINER.]

WASHINGTON, June 11.—The war situation remains unchanged.

A serious hitch in the transportation of the army to Cuba has developed, and the transports loaded with men are now anchored in the Gulf off the port of Tampa.

It is understood that they will move on Monday.

The halt, which was called after they were under way, is not the fault of the War Department. The delay is to be charged to the Navy Department, which has visions of spectral Spanish warships, and has declined to attempt to convoy the troops over to Cuban waters until a strong fleet has been collected for this purpose.

To this end it is proposed to have a fleet of sixteen warships to convoy the troops.

It is believed that the navy will follow up the landing of troops by forcing the passage of the narrow channel leading to the harbor of Santiago de Cuba, fishing up sunken mines and compelling Admiral Cervera to make a stand.

If the destruction of the Spanish fleet is successfully carried out it will end the last vestige of Spanish dominion in eastern Cuba.

REV. R. J. GRANT KILLED

By an electric Car in Montreal While Bicycling.

[SPECIAL TO THE EXAMINER.]

HALIFAX, June 11.—Rev. R. J. Grant, of River John, Pictou County, N. S. who was attending the Presbyterian General Assembly at Montreal, was killed by an electric car there yesterday, while riding a bicycle.

W. L. HARVIE, Secretary.

THE PARLIAMENT OF CANADA. Franchise Bill Amended

AS FAR AS IT RELATES TO P. E. ISLAND As a Result of Conference Between Ministers and Senators.

[SPECIAL TO THE EXAMINER.]

OTTAWA, June 11.—Several conferences took place yesterday between the Ministers and Senators Bowell and Ferguson respecting the Franchise Bill and other matters.

As a result it is understood that the Government will accept several amendments, including those introduced by Senator Ferguson and relating to P. E. Island.

This smooths up affairs and should make it possible to reach an adjournment Saturday night.

In the Senate in the evening the Franchise Bill was taken up with the view of taking action on the amendments in which the Commons refused to concur.

The result was that of the six amendments in which the Commons did not concur, the Senate adheres to four and drops two.

The two dropped are those proposed by Senator Miller.

Those maintained are the Prince Edward Island amendments.

The Government accepts the whole of the P. E. Island's proposals though they are included in the first of these which are declared by Fitzpatrick amendment as a subversion of the principles of the bill, and as an unwarranted interference on the part of the Senate. The Senate also adopted as a part of the compromise agreement a resolution in which the Minister of Justice concurred, that the Senate had a perfect right to deal with such a question as this.

Mills said he would not guarantee the acceptance by the Commons of this affirmation.

THE GREAT CUBAN PROBLEM.

How to Control the Cubans After the Spaniards are Defeated.

WASHINGTON, June 9.—Not a few men in Congress and connected with the Administration are now beginning to be worried, it is said by the attitude of the Cuban insurgents, who are said to have grown indifferent towards the United States Government, now that they have it fairly involved in war.

This was one of the features of the situation anticipated, it is said, by the President before the war began, and it had much to do with shaping his apparently hesitating policy and the discovery of the weakness of the rebel army as a cooperative force. From various sources the Administration receives evidence that the warning before the war as to the need which might arise of suppressing the insurgents after expelling the Spaniards, may come true. It is alleged that the Government of the insurgents has in view a campaign of reprisal as soon as it can get the upper hand of the Spanish ruling class. If this were permitted we would then see the same prescriptive measure adopted in Cuba, which forced all the loyalists out of the South American Republic in the early twenties and it would be necessary for us to interfere with a strong hand and make the Cubans understand that we would no more tolerate oppression then exercised by them than when they were its victims. All this makes the Teller amendment disclaiming any disposition or intention to exercise sovereignty, jurisdiction or control over said island, a trifle embarrassing. Fortunately the amendment contains qualifying clauses which may be broad enough to admit our completing the work up which we have entered, even if we have to put some over-enthusiastic local patriots under discipline in order to do it.

It is a part of the President's program still, as it was at the outset, to let the people of Cuba decide for themselves by an untrammelled vote, under what form of government they desire to live, but he is beginning to have grave doubts, it is said whether he will be able to take a fair and liberal vote with the rebel leaders asserting their control as successors to the Spaniards.

Carter's for Wall Paper

We Make Your Buying Easy

Worthy goods at lowest prices—makes big business here. Study this lot of offerings for today and to-morrow:

A shirt waist that fits

Waists with some style about them—best waists for the town shows for the money.
