

McKenzie's New Esso Service Station Opens In Souris

Completely modernized and equipped to perform the most efficient service for the automotive trade, the remodelled Imperial Esso Service Station operated by Keith McKenzie will be officially opened Friday and Saturday, Sept 7 and 8, of this week.

The Service Station is located in its familiar place at the intersection of Main and Church Streets where Keith McKenzie and his staff have served the needs of motorists since November, 1954. Fast, courteous and efficient service has always been the password at McKenzie's and this has resulted in ever expanding business over the years. The increased trade and the recognized need for a more modern service station prompted the present expansion. The new station has one new jounce hydraulic lift, a grease pit and a large wash bay, as well as attractive shelves for the display of lubricating oils, tires and accessories. It also has two very modern rest rooms. The floors of the Service Department are finished in grey colored concrete and will be maintained in a clean orderly manner at all times.

The are just some of the features which will appeal to the lady motorist. McKenzie's Esso Station makes it a point of catering to lady drivers and their expert servicemen are always courteous and willing to assist all motorists in their automotive needs. The construction work was done by Paton and Dingwell. Cement and building materials were supplied by Matthew and McLean Ltd. Electrical work was done by Albert

STONE U.S. BUILDING
DACCA, East Pakistan (AP)—Crowds of sullen demonstrators swarmed through the otherwise deserted streets of this East Pakistan capital Wednesday, hurling stones and mud and shattering windows at the U.S. information service centre. Three people were killed and 12 wounded Tuesday in a clash between police and demonstrators who carried banners demanding 'give us more food.'
