

Local and Other Items.

J. S. CARVELL, Esq., is registered at the Park Hotel, St. John.

JUDGE COURSOI, M. P., was robbed of his gold watch on the 19th inst.

THE Methodist General Conference at Montreal concluded its labors, and adjourned on the 23rd inst.

MR. LANGEVIN.—The Canadian, Mr. Langevin's organ, says:—We learn that several deputies of the district of Quebec have offered to resign their seats to make place for the Hon. Mr. Langevin, who will certainly be called to form part of the new administration.

STEAMSHIP "Prince Edward," Robert Fraser, of Peake Bros. & Co., with a cargo of general merchandise from Liverpool, arrived here on the 26th inst., 13 1/2 days. Captain Fraser reports having experienced very heavy weather, with strong head winds, during the whole passage.

A complimentary dinner to Mr. Thomas White, M. P. was given at the Windsor Hotel, Montreal, on the 23rd inst. It was conducted on temperance principles. Mr. White's speech, it is said, was a masterly exposition of the principles and policy upon which the elections were won.

Now it is the St. John Telegraph which says "Mr. Pope, of P. E. Island, will doubtless be a member of the new Administration." The Moncton Times, too, says: "We think that Pope, of P. E. Island, will have a seat in the new Cabinet." Mr. Pope's ability and the Island's right seem to be generally recognized.

It is stated that Judge Wilkins has resigned his seat on the Nova Scotia Bench, and that Hon. P. C. Hill and Robert L. Wetherbee are applying for the vacancy. The appointment of either of them would be most offensive to the great majority of the people of Nova Scotia. The Governor General will probably refuse to assent.

I. O. O. F.—A number of the Oddfellows of this city and Portland are making arrangements for paying a visit to Summerside and Charlottetown on the occasion of the opening of the Provincial Exhibition in Summerside, on the 4th of October. The fare from St. John to Summerside and return being only \$2.50, a great many will, no doubt avail themselves of the opportunity to visit the Island.—St. John Tel.

EXCURSION TO SUMMERSIDE.—The people of Hillsboro have arranged an excursion from Hopewell, A. C., and St. John, to Summerside, P. E. I., to take place on Wednesday, the 2nd October, at which time the Provincial Exhibition of P. E. Island will be held. It is understood that the Odd Fellows are considering the matter of joining in the excursion from St. John on that occasion. The fare from St. John and return is only \$2.50, and excursionists may return either Thursday or Friday.—St. John News.

CRICKET.—The match between the Garrison Club of Halifax and the Phoenix Cricket Club of this city, is now going on. The Garrison went in first and scored rapidly—only four wickets falling for 94. The remainder fell as quickly, and the total score at 12.30 came to 115, of which only 4 were extras. The highest scores on Garrison side were: Capt. Boughey, 39, and Mr. Cummings, 31. The Phoenix sent Disney and Yeo to the wickets, but the former was bowled shortly for one run, and at 2.30, 3 wickets were down for 20. McLeod and Yeo are in at the time of writing.

Here in Canada, where labor has hitherto been scarce, we have heard very little of the co-operative principle, the association of laborers and mechanics together, in order to carry out great works, but in Europe, where the principle has been successfully embodied in action, it has a prominent place in the possible dynamics which shall control the future. "Stronger than the sword," says a writer in the Nineteenth Century, "and loftier than charity, co-operation gives to labor an abiding grasp of its fruits, and supersedes benevolence by rendering the industrious independent of it. It seeks that organization of labor and intelligence in which it shall be impossible for the industrious to be deprived, or mean, or poor, except by their own choice or their own act, which can bring no scandal and no remorse to society, which provides that neither baseness nor misery shall be any longer the necessity of their condition."

OBITUARY.—It is with sincere sorrow that we have to record the death of our true friend, Alexander McLean, Esquire, of Portage, Belfast, which occurred on the 19th inst. He was born in Snizort Parish, Isle of Skye, Scotland. Thence to this Island he emigrated in August, 1829. From 1843 onward for eight or nine years he represented Belfast in the House of Assembly. For a number of years he also, with ability, filled the positions of Magistrate, Custom-house officer and Coroner. His remains were followed to their last resting-place by a large number of friends on foot and in 150 carriages. A large-hearted and talented man, he was a kind and affectionate husband and father, a good neighbor and a useful member of society. The poor will miss and long remember a charitable friend and kind benefactor. He was for many years up till his decease a member of the Presbyterian Church. He leaves a sorrowing widow and eleven children to mourn their loss, "but not as those without hope."

We are very sorry to hear of the death by diphtheria of another of the sons of David McClure, Esq., Murray Harbor North. The two young men of high promise were cut down by the fell destroyer within two weeks. The sorrowing parents and bereaved family have our heartfelt sympathy in their sad and sore trial. May the Lord grant them comfort.—Pres.

NEWS BY TELEGRAPH.

OTTAWA, Sept. 24.

All the Ministers are in town except Coffin and Mills. At a meeting of the Cabinet yesterday, it was decided to continue on until all the elections are over, and to wind up unfinished departmental business and resign as soon as possible. The Cabinet will therefore continue to meet from day to day until matters are placed in a position to hand over to the incoming Government. The almost continued absence of all the Ministers for so many weeks during electioneering time has thrown much work behind.

The cable announces that the ironclad "Northumberland" is being got ready to convey the Marquis of Lorne to Canada. He will land at Halifax instead of Quebec as first contemplated.

QUEBEC, Sept. 23.

The greatest triumph in the Quebec district was Caron's reception, which took place to-day. He was escorted through all the county by at least two thousand five hundred vehicles. Caron's reception in all the parishes was a series of ovations.

In Stochs, the chateau fort of the ranges, an immense and enthusiastic meeting on the return of Mr. Caron's friends was held. Speeches were delivered by M. M. Caron, Blancher, Vall and Valin, the Conservative elect member for the county of Montmorency.

The Elections and the United States.

UNITED STATES papers generally regard the result of the Canadian Elections as a misfortune to their country. Their ideas respecting it are briefly summed up in the following paragraph clipped from the Boston Advertiser:—

"Americans are somewhat interested in the result. So far as it is a mere question of interest and not of principle, we stand to Canada in something like the relation England bears to us. No doubt the present Canadian tariff is to a certain extent in our favor. That is, it is in favor of all countries trading with Canada, and in our favor especially as her nearest neighbor. We have largely increased our sales in the Provinces, particularly in recent years, and as prices now stand we can gain largely upon Great Britain in the contest for that market. The Conservative papers term the present scale of customs duties 'the pro-American tariff.' It would be for our advantage, in some respects, that it should be reduced still lower. Yet, it has worked injury to Canada. It has shut up many factories already established, and has prevented the establishment of others. Trade has languished. A part of the depression has been due to sympathy with our own markets, but even that has arisen partly out of the working of the tariff. As a new country, needing to build itself up without the injurious competition of near or distant neighbors, Canada will be compelled to revise her tariff, or to press, as she has often done before, for trade treaties, which will be still more favorable to her."

A Horrible Death.

A more horrifying accident than that which happened at the Intercolonial Railway Station, St. John, recently, has seldom occurred. Shortly before the Moncton special train left, the conductor, as usual, called out "all aboard," and a number got on the train. Just after this the engine bell rang, and at this time Samuel Pine, of Moncton, was sitting on the rail of the first-class car, next the van. Immediately after the sounding of the gong the engine started, and the usual rapid movement of each car occurred. By the sudden motion Pine, who was sitting on the rail of the car, was precipitated between the cars, falling with his back on the rail. His fall was observed by several persons in the depot who rushed frantically towards the engine shouting "stop." One person on the train perceiving the cause of the commotion, pulled the rope and the train came to a stand-still, but not until the last car had passed over Pine's body. When Pine fell he was thrown on his back and the wheels passed from about the knee of the left leg across the right leg and abdomen. As each wheel of the cars passed over the unfortunate man's remains, the sound of cracking bones was heard with painful distinctness, and many of the horrified spectators were rooted to where they stood. When lanterns were brought to the scene of the accident a most shocking and horrifying sight was presented to the view of all. Stretched across the rails lay Pine mangled remains nearly severed in two, his legs being in the position in which he had fallen, while the body, from the thighs upwards, was turned over, face downwards. Between the rails ran a large pool of blood, which was also plentiful on the outside of the rails. Large pieces of human flesh were scattered along the track in a horrible manner. The spectacle was one that will never be forgotten by any who were present.

Enjoy Life.

What a truly beautiful world we live in. Nature gives us grandeur of mountains, glens and oceans, and thousands of means for enjoyment. We can desire no better when in perfect health; but how often do the majority of people feel like giving it up disheartened, discouraged and worried out with disease, when there is no occasion for this feeling, as every sufferer can easily obtain satisfactory proof that Green's August Flower will make them as free from disease as when born. Dyspepsia and Liver Complaint are the direct cause of seventy-five per cent. of such maladies as Bilioousness, Indigestion, Sick Headache, Costiveness, Nervous Prostration, Dizziness of the Head, Palpitation of the Heart, and other distressing symptoms. Three doses of August Flower will prove its wonderful effect. Sample bottles, 10 cents.—Try it

THE supposition that an understanding exists between Russia and Afghanistan is declared in well-informed quarters purely imaginary.

SYDNEY COAL.

REDUCTION IN PRICE!

NOTICE TO THE PUBLIC!

THE GENERAL MINING ASSOCIATION (Limited) beg to intimate to the Public that the price of SYDNEY COAL has been

Reduced to \$2 per ton of 2240 lbs., a price which it is hoped will place it within the reach of all consumers.

The opening of the new winning at "THE SYDNEY MINES" and the fact that the SYDNEY COAL now being shipped is all from the DEEP taken in connection with recent improvements in the process of screening, affords purchasers a positive guarantee of the very superior quality and condition of the SYDNEY COAL now offered for sale.

It is a well-known fact that for many years past the prices of other Cape Breton coals have been regulated by the rates fixed for SYDNEY COAL; but while it is true that other coals, to get a sale at all, have been pressed on the market at various prices under the current rate of SYDNEY COAL, it is no less true that, taking into account the superior lasting qualities of SYDNEY COAL when compared with other Cape Breton coals, the advantage, both as to economy and convenience, is in favor of SYDNEY COAL, even at a much higher price.

The General Mining Association (Limited) regret that they should again have to caution the Public against the attempts being made from time to time to induce them to buy inferior coals purporting to be "EQUAL TO SYDNEY," "SUPERIOR TO SYDNEY," etc., etc., while some yet more unscrupulous vendors have not hesitated to advertise their coals as SYDNEY COAL (from some designated locality). All these efforts to sell coal by such means are only so many admissions on the part of those who make them of the STANDARD character of SYDNEY COAL.

It has come to the knowledge of the Association that in frequent instances parties giving orders to truckmen and others for SYDNEY COAL have been furnished with other and inferior coal. The Public are cautioned against permitting themselves to be imposed upon in this way.

Every vessel loaded at THE SYDNEY MINES is furnished with a certificate of the cargo being Sydney Coal. Parties purchasing should satisfy themselves by demanding the production of this certificate.

The "Sydney Coal" is registered under the laws of the Dominion, and unauthorized parties using the Trade Mark "SYDNEY COAL" are liable to prosecution.
