

PM Denies Gerda Report Is Received

OTTAWA (CP) — Prime Minister Pearson has denied heated suggestions that the government has received unofficially a copy of the report on the Gerda Munsinger case.

"I want to make it quite clear that I have not seen that report," the prime minister told a press conference after the issue was raised in the Commons.

He also said his departure for London today for the 10-day Commonwealth prime ministers conference will have no bearing on release of the report.

The matter was brought up in the Commons earlier.

Gordon Churchill (PC—Winnipeg South Centre) said he understands the government has had a copy unofficially for some time. He asked that the report be tabled in the Commons.

Transport Minister Pickersgill, senior cabinet minister in the chamber at the time, replied that to the best of his knowledge the report hasn't been delivered to the government, so it can't be tabled.

Mr. Churchill repeated that a copy may have reached the government unofficially and Mr. Pickersgill retorted that he doesn't believe it.

The justice is investigating charges that there were a risk to security in the relationship between the German blonde and members of the former Conservative cabinet.

Tidal Project Office Site Is Explained

OTTAWA (CP) — The offices of the new federal-provincial board studying the Bay of Fundy tidal power project was located in Halifax for reasons of convenience and communications, Mines Minister Pepin told the Commons.

Thomas M. Bell (PC—Saint John-Albert) said his city is more interested in the project than Halifax and asked why the office was not opened in Saint John.

Mr. Pepin said Halifax was chosen because of "better communications" and because his department already had offices and computers in the Nova Scotia capital. He added that he had received many representations about the location of the new office.

The board, set up last month, will study the feasibility of tidal power developments at the head of Fundy Bay, near Moncton.

Junior Players To Be Protected

SYDNEY (CP) — President Steve MacDonald of the Maritime Amateur Hockey Association said here junior hockey teams in the area this season will be permitted to protect players developed in or near the community operating the team.

MacDonald said in a statement "It is important that any area planning a junior club this coming season is fully entitled to protection of players developed in the area concerned. This protection will be given this year to such clubs."

He said junior teams should make certain any players signed have full releases from any other club that might have a later claim on players.

MacDonald said the new agreement between the Canadian Amateur Hockey Association and the National Hockey League "will greatly assist the Maritime area." Under the agreement, he said assistance will be given to players in isolated areas.

FOLLOW CANOE ROUTE
PENETANGUISHENE, Ont. (CP) — The Centennial Good Will Traders are five teen-age girls canoeing from Big Chute on the Trent Canal to the Fort Penetanguishene museum in September. They will visit cottagers along the way, giving out centennial promotional items such as pins and windshield stickers.

DIDN'T NEED A ROD
KENORA, Ont. (CP) — A 12-year-old girl from Los Angeles caught a 12-pound northern pike while fishing with her family but didn't use a rod or reel. She was bailing out their boat when the reflection of the can caused the fish to leap into the boat.
