A herring reduction and fish meal plant, "Canapro" will have a capacity output of 5,000 barrels of processed green herring per day.

Farewell Party At Montague The Misses Edith MacDonald and Vonda Munn, Murray River, who has been employed in Montague for the past year, were tendered a surprise farewell party recently, when a number of their friends gathered at the home of Mrs. Nan Nicholson to express their warm friendship and their good wishes for success in their future work.

Bristol and Vicinity Miss Norma Sinnott, teacher at the Brae, spent her Easter holidays with her parents here.

Mr. Ephraim Malone and son Gerard were business visitors to the city last week. Mr. Malone is one of our big farmers.

Miss Bertha MacDonald is spending a few weeks in the city, where she has taken a position.

Mr. Laurence Gauthier, of the staff of Canada Packers, city, spent the week-end with his mother here.

Mr. Joe MacDonald and J. J. Perry were Bristol representatives at the big hockey game the other night.

Mr. Ned Ranahan arrived from Boston to attend the funeral of his brother Will last week. He is retired from the Standard Oil Company of New York.

Mrs. Peter McLellan, Indian River, who was visiting her parents here, Mr. and Mrs. P. R. Sinnott, has returned to her home again. She was Mabel Sinnott, and taught school several years before her marriage.

Friends of Mrs. W. A. O'Brien will be pleased to see her out again after undergoing a serious operation in the hospital at Charlottetown last week.

"Mr. Frank Ranahan and his brother Aeneas and sister Mary left on Monday morning to return to Toronto after a sad mission home. They had rushed home in answer to a telegram that their father had died suddenly on Sunday.

Miss Hattie Gauthier, who went to the city last December to be with her two young brothers who were rushed to the hospital after a severe burning in the Railway Station here, is still in the city and her youngest brother is still a patient in the hospital where he has been for more than three months. The other boy, not so severely burned, is home again.

Pte. and Mrs. George DAVEAUX, who moved to the city last fall to reside, were visitors to their home here last week for a short time. They will not return to this vicinity this summer, they inform us, unless Pte. Daveaux is transferred to another depot. Two of their daughters, Marjorie and Kay, have taken positions in the city.

Speaking of early springs-our oldest resident here, Mr. J. T. O'Brien says he saw men plowing in the fields one spring more than fifty years ago on April 2nd. This fine old gentleman also saw the train stuck here for thirty days at one time and engine men burning wood to keep up steam. "Life was not all sunshine when I was a boy seventy-five years ago," he says. We guess it was not, Mr. O'Brien!

The funeral of Mr. Will Ranahan from his home in Morell East on Wednesday was the largest seen here since the late William Aylward was buried many years ago. Seventy-eight wagons followed the hearse out the clay road to the paved highway through mud knee deep. Fifteen cars waiting at the highway joined the long process-

ion to the Church of the Little Flower where other waiting crowds stood with bowed heads as the church bell tolled for the man who ushered them for so many years. His kind pastor waited in black robes to receive the casket of his friend. Following high mass he was laid to rest in the little cemetery close by.

THE NEW 1951 OLDSMOBILE SUPER "88" now in production by General Motors of Canada is highlighted by a new, wider and roomier body which features clear vision wrap-around windows with consequent greater visibility. The new series is readily identified by the distinctive bright ash moulding which extends diagonally down the rear fender to the gravel shield and also by the high crown rear fenders. The Super "88" is powered by the eight-cylinder "Rocket" engine which develops 135 horsepower. Hydra-Matic Drive is available as an option at extra cost. Shown here is the 1951 Oldsmobile Super "88" deluxe two-door sedan.

1951 Oldsmobile Has Many New Features

A new, redesigned Oldsmobile series for 1951-the Super "88"-powered by the famed eight-cylinder "Rocket" engine with increased compression has been announced by General Motors.

The Super "88" features a new, wider and roomier body with more window area and consequent greater visibility. It offers improved Hydra-Matic Drive as an option at extra cost.

The new series, now coming off the General Motors assembly lines at Oshawa, is readily identified by the distinctive bright ash moulding that extends from the shoulder of the rear fender diagonally down the fender to the gravel shield.

Clear vision wrap-around windows provide the distinctive keynote of Oldsmobile Holiday styling apparent in the Super "88". Further distinction is added by the high crown rear fender that terminates in a tall light assembly having a bullet-shaped red lens.

Available in three distinctive deluxe body styles-four-door sedan, two-door sedan and Holiday Coupe-the Super "88" is mounted on a 120-inch wheelbase chassis. The new interiors are luxuriously designed for greater room, comfort and visibility.

Upholstery in the two and four-door sedans is presented in dark gray striped nylon pile in a two-tone surrey weave with a light gray bolster. The Holiday Coupe is finished in gray striped nylon pile cord with black or green leather. There has been a regrouping on the instrument panel with the added convenience of a concealed ash receiver in the grille right beside the driver.

Front and rear of the Super "88" have been smartly designed. The familiar wide horizontal bars are retained in the front grille, with the second bar extending through the two bumper guards. The Oldsmobile global emblem is prominent on the front of the hood, with the word Oldsmobile in a semi-circle over it.

The front fender down lines extend along the body to the shoulder of the rear fender at the point where the diagonal ash begins. There the body line slopes upward and then the rear fender crown flows gently downward until it blends into the tall light assembly. The bright metal "88" is in the V where ash and gravel shield meet. The rear deck lid has an Oldsmobile global emblem for a handle and there is a metal "88" superimposed on a rocket on the left side.

And whereas the abutments to said bridge can be used and strengthened, also extended in such a way as to cause a very short span, which will not cost a large amount of money.

Therefore resolved that the Government close the bridge to all heavy traffic the first day of May or sooner if necessary, and place a man in charge of said bridge to direct and control the traffic and have it detoured to the head of the river.

The resolution was presented to Tuesday by Montague Mayor B. H. Yeo, Mr. S. S. Hessian from the Town Council, Mr. R. K. Clements, president of the King's County Board of Trade and Mr. Harry Johnston, a member of the board of trade.

Montague bridge several years ago was banned to traffic beyond a certain weight but since then the general traffic over the bridge has become even greater. It was reported the abutments of the one-span structure were becoming displaced and the steelwork itself was unable to withstand the heavy traffic passing over it.

The following is the resolution: Whereas the bridge spanning the river in the Town of Montague has been condemned for years, And whereas the upkeep of the

ST. PETER'S LAKE W. I.

On Wednesday evening, March 7 the regular meeting of the St. Peter's Lake Women's Institute was held at the home of Mrs. John Laybott, with twenty members in attendance. The President in the chair, the meeting, opened by singing "The Institute Ode," followed by "Collect For Club Women" read in unison.

Roll call was answered by each member with an Irish Joke. Two new members were added to the roll. A collection was taken amounting to one dollar and sixty cents with two new members paying membership fees.

Meeting was then opened for business. The Secretary gave a report of purchasing six window blinds for the school. It was moved and seconded that the Institute purchase a text book for Social Studies for the primary school room.

Correspondence was read. Report of sick committee was given, and a bill of two dollars and twenty cents paid for fruit for sick. The School Committee also gave a report. New committees were appointed for the following month.

Stick-Mrs. Ruthven MacDonald and Mrs. James Conohan. School -Mrs. Harold Douglas and Mrs. Ruthven MacDonald. Program-Miss Isabelle Conohan and Mrs. Harold Douglas.
