Premier Names Mover, Second

Premier Walter R. Shaw announced last night that Keith Harrington (PC-3rd Prince), and Frank Myers (PC-1st Queens) will be mover and seconder, respectively, of the reply to the Speech from the Throne, which will open the Legislature Thursday.

Following Lieutenant Governor F. Walter Hyndman's reading of the Speech from the Throne, the government, as is tradition, will introduce a pro forma bill. This motion is usually made by the premier and consists of an amendment to some existing act which is promptly forgotten. At one session, the pro forma bill, introduced by Premier Walter

R. Shaw was "an amendment to the Lighting Rod Act." It is expected that the House will adjourn after the opening until Monday afternoon, when Mr. Harrington and Mr. Myers will move and second the reply to the Throne Speech.

WEATHER

TEMPERATURES ISSUED BY THE WEATHER OFFICE:

Location	Min.	Max.

St. John's	27	34

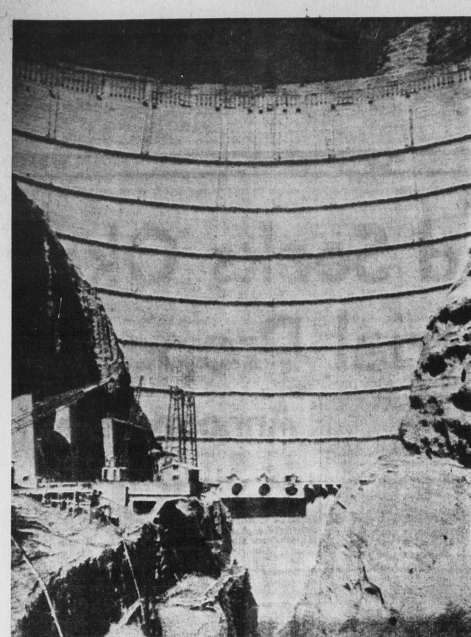

international Nickel Mining Company of Canada group, predicted that the mines now producing in the first 100 miles of Canada's exposed pre-cambrian shield, will be duplicated in the future in the second and third 100-mile belt. He rejected suggestions that the southern portion of Canada's pre-cambrian has better mining possibilities than more northern portions.

"Not many countries," Dr. Michener stated, "can look forward to the mineral growth expected in Canada."

HALIFAX (CP)—The weather office says a low pressure area is forecast to pass along the south coast of Nova Scotia and spread south into Prince

Edward Island and Cape Breton early this morning. Partial clearing will take place in all regions but a second disturbance near St. Louis late Tuesday evening is expected to spread snow to all regions again this evening.

Regional forecasts:
 Halifax and Vicinity: Eastern Shore: overcast, snow beginning this evening; mostly cloudy; little change in temperature; light winds. Low-high at Halifax 28 and 35, Goshen 28 and 33.
 South Shore: Snowfall; mostly cloudy with snow beginning in the evening; little change in temperature; light winds. Low-high at Yarmouth 28 and 35.
 Annapolis Valley: Northern Nova Scotia: Lower St. John River Valley: Clearing during morning but snow beginning again by evening; little change in temperature; light winds. Low-high at Kentville and Saint John 25 and 33, New Glasgow 23 and 33, Fredericton 23 and 33.
 Cape Breton: Snow, ending before noon; mostly cloudy; little change in temperature; light winds. Low-high at Sydney 25 and 33.
 Prince Edward Island, Eastern N.B. Counties: Upper St. John River Valley: Bay of Chaleur: Overcast with snow ending in the morning but beginning again in the evening; little change in temperature; light winds. Low-high at Charlottetown and Moncton 25 and 33, Edmundston and Campbellton 29 and 28.
 Bay of Fundy: Light winds snow mixed with rain ending during morning; visibility one-half to one mile in rain and snow improving to 10 miles during morning; temperatures near 30.
 High tide today at Charlottetown at 12:45 a.m. and 1:01 p.m. At Rustico at 8:08 a.m. and 8:42 p.m. Summerside tide eighteen minutes later than Charlottetown. Sun rises today at 6:17 and sets at 6:34.

CANADIANS HELP BUILD HIGHEST DAM

Dedicated today will be the Mohammed Reza Shah Pahlavi Dam, the highest dam in the Middle East. Named after

the Shah of Iran, the structure towers 677 feet above the Dez River, and cost \$65,000,000. Last summer, Ontario Hydro

sent a six-man operating team to run the project, and several Hydro maintenance personnel joined the team recently.

Alberton To Send Final Tax Notices

ALBERTON — Final tax notices are to be sent by registered mail to more than 100 delinquent Alberton tax payers in an effort to collect over \$5,000 in tax arrears.

The decision for the collection drive was taken at the regular council meeting Monday night in an effort to prevent a tax increase from the present \$1.18 per \$100.

A survey of street lights is to be carried out to determine if

more lights are needed. Following discussion the salary of the town clerk was raised from \$300 to \$1,000 per year which was designated as more in line with that paid to school secretaries in the area.

The present town magistrate, Howard Clark, was re-appointed. Mayor M. Roy Leard presided and Councillors John Trofitt, Arthur McRae, Douglas Vernon Hudson and Wesley Hardy were present.

Legion Backs ARDA Meet For Tignish

TIGNISH — The Tignish Royal Canadian Legion Branch met in the club rooms last week with the president, Reginald Eldershaw conducting the meeting.

The minutes of the previous meeting and correspondence were read by the acting secretary, Frank Gaudet. Edward Tomblay was elected secretary on the resignation of the former secretary, Peter McPhee who has taken up new duties in another province.

E.C. Perry, chairman of the cadet committee and Hector Biute gave a report on the work carried out for the air force cadets.

A meeting of the entire community to organize a resources development group under ARDA was backed by the Legion members at the meeting.

A no parking sign is to be erected in front of Legion property.

Rev. C. J. Crowdis Dies In Halifax

KENSINGTON — Rev. L. M. and Mrs. Murray and family of Kensington, attended the funeral of Mrs. Murray's father, Rev. C. J. Crowdis, M.A., DD, at Halifax N.S.

The late Dr. Crowdis was well known here, having served the Malpeque United pastoral charge from 1939 to 1947. He was 86 years of age and had been ill for some time.

A native of North East Marsden, Cape Breton, he was a graduate of Dalhousie University and Pinehill Divinity Hall, and was honored by the latter a few years ago with the degree of Doctor of Divinity.

Surviving are his wife, the former Jean S. Kennedy of Loch Katrine, Angusish County, N.S.; two daughters and a son, Jean, Mrs. L.M. Murray, Kensington; Donald Crowdis, director of the Nova Scotia Museum of Science and Herbarium, and Herman Farwell, Montreal, also seven grandchildren.

Stock Exchange Head Stresses SC Threat

QUEBEC (CP)—Ernie Kierans, president of the Montreal Stock Exchange, says application of Social Credit theories to deal with public debt would result in financial and economic chaos in Canada.

In a statement issued at a press conference Tuesday, he said there are only three possible ways in which the Social Credit government could fulfill pledges to "rid the Canadian people of the ever increasing spiral of debt"—higher taxes, repudiation of debt, or printing more money.

His statement, which quoted from Social Credit literature on the question of dealing with public debt, said the first method—higher taxes to produce a surplus with which to retire debt—would be contrary to a Social Credit pledge not to raise taxes.

"We can conclude, therefore, that our debt will be reduced by the first alternative of taxation which would require so great an increase that a complete collapse and depression would follow."

He pled the national debt at \$3,680,000,000 in short-term bonds and Treasury bonds reaching maturity within two years, plus \$12,000,000,000 in long-term bonds, including \$4,600,000,000 in Canada Savings Bonds.

Mr. Kierans said it is not so impossible as it might appear that a Social Credit government would repudiate the national debt.

He said that in 1936 the Social Credit government of Alberta neglected to meet payments on its debt and later reduced to two from four per cent the interest on outstanding bonds.

The result, he said, was that the value of the Alberta government bonds dropped by 50 per cent, forcing many to sell their provincial bonds at a loss. The bonds' original value was restored in 1945.

"The real victims of this repudiation were the families, insurance companies, firms, banks and co-operatives which had invested in the integrity and honesty of the province."

Mr. Kierans said that assuming the first two possibilities of eliminating the debt would not be used, the third way Social Credit could use would be to print more money. He said Social Crediters are unhappy when they are accused of printing money because "they know that this artificial money will do nothing but devalue in the end the value of the goods and savings of the voters."

WESTERN BREEFS

IS PATIENT — Arthur Clark, Alberton, is a patient in the Westera Hospital.

IN HOSPITAL — Philip Kinch, Alberton South, is a patient in the Westera Hospital.

WRIGHT FUNERAL — Funeral services for Mrs. Ernest Wright were held Tuesday afternoon at the Bowen's Funeral Home. Rev. Keith Hobson was the officiating clergyman. Burial was in "Nearer My God to Thee" and "Abide With Me". John Leaty was organist. Pallbearers were Reginald Bradshaw, Wilfred Craig, Walter Craig, Eddie Wright, Melbourne Wright and Eldon Wright. Interment took place in Floral Hills Memorial Gardens.

Mine-Making Opportunities In Other Countries Noted

By FORBES RHUDE
 Canadian Press Business Editor

TORONTO (CP)— Mine making opportunities in many countries of the world, some of them with quite a bit of dazzle, were held out to Canadian investors Tuesday at the annual meeting of the Prospectors and Developers Association.

In a symposium on "world-wide prospecting," the key speaker was Shortland, a Canadian company spend their exploration money in Canada or are there better chances elsewhere?

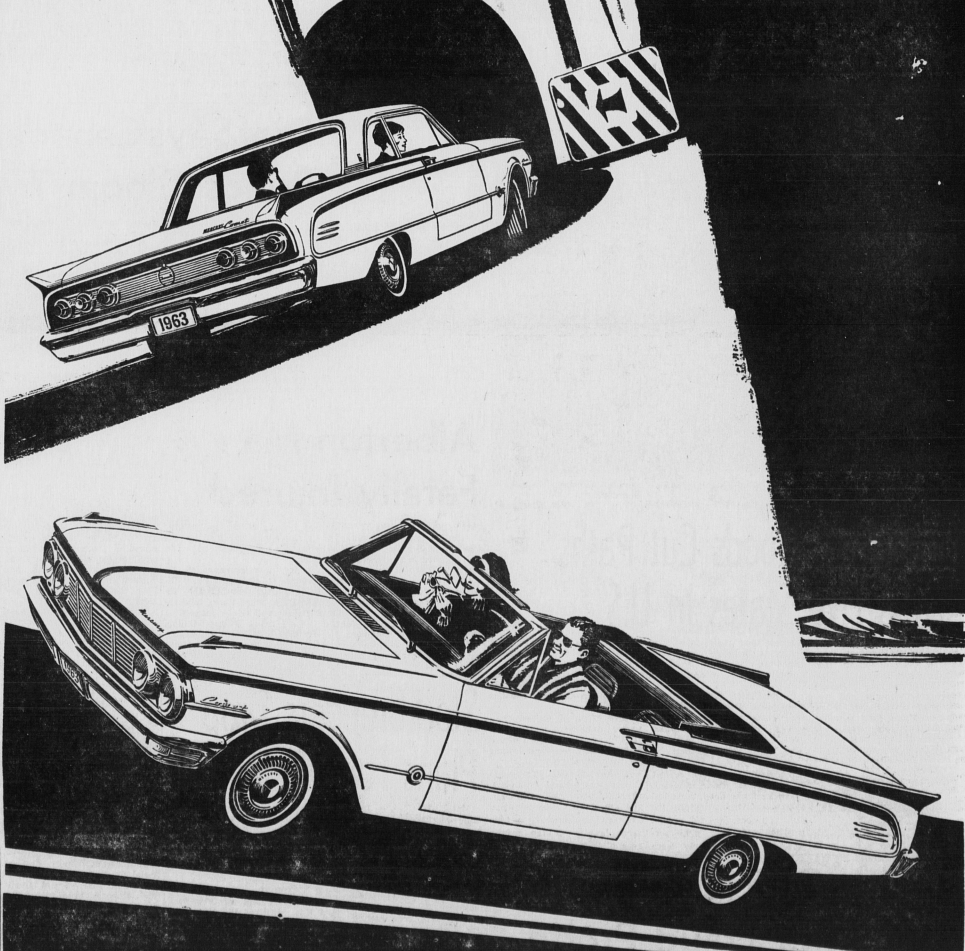

The consensus of a dozen panelists was that there are vast resources waiting to be tapped in South America, Mexico, the United States, Europe, South Africa and Australia, with varying opportunities for Canada, and with South America sending out the most siren call.

The symposium wound up, however, with a rousing exhortation that Canada, for the mining man, holds the most substance and glitter of all.

Hold on to your bucket seats—now COMET has a Mercury V-8

Rarin' to really travel? Comet's ready for you with sizzling V-8 power lubrication interval. Visit your Mercury dealer and learn more about the '63 Comet, including its 24,000-mile or 24-month warranty. See what modestly-priced quality looks like on wheels! P.S. If you don't have sizzling taste, remember Comet has two 6-cylinder engines. Both Sixes and V-8 thrive on regular gas.

—164 horses' worth. Now you'll really wonder what the big ones have that Comet hasn't! Want more thrills? Team up this V-8 with Comet's 4-speed floor-mounted stick shift. And, for a sporty touch, add bucket seats in either convertible or sedan models. With your choice goes Comet's zestful styling flair and an interior that suggests the luxury of costlier cars. Plus Comet's

soothingly quiet, ultra-smooth ride. (That 114-inch wheelbase makes a difference! So does the lavishly applied sound insulation.) Plus service-saving features like the 36,000-mile major lubrication interval. Visit your Mercury dealer and learn more about the '63 Comet, including its 24,000-mile or 24-month warranty. See what modestly-priced quality looks like on wheels! P.S. If you don't have sizzling taste, remember Comet has two 6-cylinder engines. Both Sixes and V-8 thrive on regular gas.

Model S-22 2-door sedan and Comet S-22 convertible—two of the Ford Family of Fine Products, made in Canada.

Certain features mentioned or illustrated are optional at extra cost. Mileage figures quoted are based on normal driving.

TIROS PICTURES SOVIET LAUNCH AREA

This photo by Tiros weather observation satellite released in Washington yesterday by the U.S. Weather Bureau is described as showing the area of the Soviet space launch center near the Aral sea (dark spot, upper left). The television view was made on Sept. 26, 1962, when Tiros V was over a point 150 miles east of

Tashkent, capital of Uzbekistan, USSR, and is looking toward the west (left of photo). Weather bureau says photo shows snow on rugged terrain, cloudless desert areas between the Caspian (at left horizon) and the Tien Shan range, north of the Hirulayan mountains.
