PERSONALS

Mr. and Mrs. B. J. McGovern, St. John are visiting in the city, the guests of Mr. and Mrs. F. J. Casey.

Track Notes

Mr. Hammond Kelly, Southport, has sold his good trotter Jaunita Aubrey to Mr. Nicholson of Cape Breton for a good price. This mare trotted miles better than 2.20 last year and was a contender in many races. She should be a valuable addition to the racing coterie of Cape Breton.

On May 24th three horses formerly owned by the McKinnon Drug Company were winners on Maritime tracks: namely, Dick C., winner of the 2.17 class at Sydney; Commodore Cressus, winner of the 2.22 class at Sydney and White Sox, winner of third money in the free-for-all at Truro.

The Summerside Driving Park will be the scene of the best racing in years judging by the list of horses entered for the Dominion Day meet. The three classes which they have entered in their program are of excellent drawing qualities and they will no doubt bring together the best array of horses that this island can produce. The management are active and energetic and are taking pains to leave nothing to be desired to make Dominion Day the best sporting event for years in Summerside.

In connection with the big Scottish celebration which is expected to draw upwards of twenty thousand people to this province from the United States and Canada the Charlottetown Driving Club will co-operate in the second day's entertainment by placing a program of races, consisting of a match race between Zua Baughman, holder of the Maritime record for three heats on the ice, and Kentucky Marque, champion ice racer of 1922. A silver trophy will be competed for in this event. In addition there will be a Class A trot and a Class A pace and possibly another event.

Burned at the Stake

DAVISBORO, VA., May 28.—Charles Atkins, a negro, 15 years of age, one of the four taken into custody yesterday in connection with the killing of Mrs. Elizabeth Kitchens, 20 years of age, was burned at the stake last night. The lynching occurred at the scene of the murder and followed an alleged confession from the prisoner. He was tortured over a slow fire for fifteen minutes and then, shrieking with pain was questioned concerning his accomplices. Atkins was said to have implicated another negro boy, but to have exonerated his own brother, whose name had been connected with the crime in a statement soon after his arrest. Members of the mob, comprising nearly two thousand people, then raised the body again, fastened it to a pine tree with chains and extinguished the fire. More than 200 shots were fired into the charred body following the boy's death. Following the lynching of Atkins the mob started out on a search for the negro he had named as his accomplice. Mrs. Kitchens, who served as a rural mail carrier, was robbed and murdered early yesterday about four miles from here.

Secret Meeting Of Big Bankers

PARIS, May 28.—The international committee of bankers, having reached the conclusion that it was useless to proceed further with its investigations until the reply of the German government to the ultimatum of the reparations commission expiring May 31 is received, adjourned this afternoon until 4 p. m. May 29.

A mantle of secrecy had been drawn about the proceedings of the international committee of bankers, meeting here to solve the financial problems of Europe. Not a single French newspaperman got a hint of what they were doing yesterday, consequently they had vanished magically from the news columns when today's newspapers appeared. Even persons prominent in France's public life have not been allowed to know what was passing at the Hotel Astoria. The only thing that appeared certain today was that nothing decisive would be accomplished before the last day of this month, the date fixed by the reparations commission for fulfillment of its terms by the German government. This phase of the German difficulties is inextricably woven into the problems under consideration, but the bankers apparently do not feel it their business to find an expedient to tide over the difficult hour, whatever may be the feeling of the French government or the other allies in the matter.

Searching for Shoats, Finds Murdered Man

BLENNHEIM, Ont., May 26.—Egging the boards of the barn floor in search for lost little pigs a boy on the Knott farm, near Charing Cross, was horrified today to discover the badly mutilated remains of a man wedged in-between the beams. The man has not been identified on account of the advanced state of decomposition in which the body was found, but it is believed that he had been murdered and the body hidden in the barn about four months ago.

The world today not on tolerance, but where it has won its way and where God Himself has placed it. Everyone knows the work the Army has done and is doing. It reaches down as far as humanity can fall. Dignity, prosperity, polish, culture—these things in themselves are very good but they do not go far towards lifting the man in the ditch. I admire the Army for that. "That it can get hold of and so where I can't enter. If the churches had been doing this work the Army would not have been necessary. But we have been looking after the ninety and nine that were in the fold and not after the one that had gone astray. The vote of thanks was seconded by Mr. Chas. H. Black and supported by Hon. G. E. Hughes, Bell welcomed the government. He added a warm expression of appreciation for the good work done by the Salvation Army during the war.

The meeting closed with benediction by Commissioner Sowton. At the services in the Citadel yesterday morning and evening Commissioner Sowton preached powerful and inspiring sermons. At the morning service especially there was a splendid attendance and at the close of the service several seekers came forward. Commissioner Sowton, who leaves this afternoon for Summerside will be a very busy man for the next three weeks as he intends to cover practically all his district in Eastern Canada.

Take Thousands Of Mackerel

HALIFAX, May 28.—Mackerel by the thousands were taken along the shore this week when a heavy southwest wind set in and drove the fish off shore. Up to today the reports for the past twenty-four hours in Halifax totalled about 18,000 large mackerel, most of which were purchased by the National Fish Company. Their premises is a scene of activity with gangs of men icing and packing the fish for shipment to Boston and other markets. Small craft were engaged all day in bringing the fish from down shore.

The biggest catch reported is that of the Gloucester slooper Lois H. Corkum which put into Liverpool and transhipped to the Boston market a catch of 28,000 mackerel. This is the biggest single haul yet made off the south shore coast. Should the weather become more calm it is expected that further good hauls will be made by the shore fishermen. The mackerel schools have not struck in the Yarmouth coast in any great numbers, and it would appear that they are working eastward instead of going into the Bay of Fundy.

Up Goes Prices As Result of Changes In the Tariff

MONTREAL, May 26.—"The tariff has not been seriously interfered with," was the comment of C. Howard Smith, Provincial chairman of the Canadian Manufacturers' Association. He commented on the cheque duty of two cents on each additional fifty dollars, and said: "That is a stiff tax." "The one thing we know is that prices will go up," said W. J. Brennan of the Imperial Tobacco Company of Canada, in connection with the new rates on cigarettes. Beer took a sharp upward turn yesterday following the tax of fifteen cents imposed by the budget. The price was increased from fifteen cents to twenty cents a bottle.

One result of the tax on mineral waters and temperance beverages known as "soft drinks" will be the immediate disappearance of the five cent glass of ginger ale and the syrup flavored soda water which sells at the same price. It is said representations will be made to the Minister of Finance to reconsider his proposals to impose a tax of ten cents a gallon on these drinks and a delegation on these drinks and a delegation will go to Ottawa this week.

In a statement prepared by firms engaged in this industry it is asserted that the new tax is not fully understood and it is further declared that serious complications will follow the imposition of the new tax and the increase of the sales tax, as applied to such manufacturers.
