

Political Kisses.

In other days the candidate, As old election tales relate, Of our staid English nation, Kissed all the women; babies too Got many a 'buss,' 'as was their due; Folks won by osculation.

But now w'at's come to colder times, And ne'er can our election rhymes Recount such pleasant stories; The kissing of the days gone by Is o'er, like wine and bribery, And old election glories.

No more fine ladies give a kts, To help a husband up to this The height of his ambition, To represent a town or shire, 'Twould set committee rooms on fire, Such aid to requisition.

And yet when ladies vow that they Should go to Parliament to-day, Most useful they would find it; Who could refuse to give a vote, When asked for in a delicate note, And with a kiss behind it?

That women are advanced, no doubt Exists, but 'fanz' would find point out To these ambitious Misses,— They'd find the path to Parliament Much easier, if time were spent In bribing men with kisses!

Some Curious Marriage Vows.

A graduate of the University of Matrimony has lately published in England a hand-book of marriage, in which he tells some amusing stories of marriage vows. He tells of a nervous bridegroom who, confusing the baptismal and marriage ceremonies, replied, when asked if he consented to take the bride for his wife: "I renounce them all"; of a Hampshire rustic, who, when given the ring, said solemnly to the bride, "With my body I thee wash up, and with all my hurldo good I thee and thou"; of another who, when asked whether he would take his partner to be his wedded wife, replied, with shameful indecision, "Yes, I'm willin'; but I'd a much sight rather have her sister"; and of a Scotch lady who, on one occasion of her daughter's wedding, was asked by an old friend whether she might congratulate her on the event, and answered: "Yes, yes, upon the whole it is very satisfactory; it is true Jeanie hates her good man; but then there's always a something!"

The Draft Horses of France.

While some people in America call all horses imported from France Normans, it is a fact that there is no breed in France called by that name by the French people; the name, Norman, therefore, is purely American. The principal breeds of France are known as Percherons and Boulonais. The Percherons are the most highly prized of all French races, and all departments of France go to the Perche for stallions to improve their local breeds. The Percheron stud book of France, published under the authority of the French government, is the only stud book of draft horses that is or ever has been published in France, and now contains the pedigree of about 5,000 animals. But some importers are offering certificates from France of Norman draft horses that may mislead people who do not understand the French language into believing these records of origin. Not one of them issued contains a pedigree. They are furnished at the request of American buyers by the secretary of one of the French agricultural societies, who say there is no intention of publishing them in stud book form, as they have no pedigrees and are of no value whatever. It is a well known fact that what a man gives for a horse over from \$500 to \$300—the price of a good grade—is paid for purity of blood; and where the seller is not able to give the recorded pedigree of the animal sold as evidence of additional value, he has no right to ask it. With these facts before him, no intelligent man will buy a horse imported from France unless he is recorded with his pedigree in full in the "Percheron Stud Book" of France.

Nowhere can a man go that temptation cannot find him. Temptation possesses a free pass on all the railroads, a free berth on all the boats, a free entrance to all the school rooms, and business offices, and play-grounds, and even to the churches.

KING'S EVIL

Was the name formerly given to Scrofula because of a superstition that it could be cured by a king's touch. The world is wiser now, and knows that

SCROFULA

can only be cured by a thorough purification of the blood. If this is neglected, the disease perpetuates its taint through generation after generation. Among its earlier symptomatic developments are Eczema, Cutaneous Eruptions, Tumors, Bolls, Carbuncles, Erysipelas, Purulent Ulcers, Nervous and Physical Collapse, etc. If allowed to continue, Rheumatism, Scrofulous Catarrh, Kidney and Liver Diseases, Tubercular Consumption, and various other dangerous or fatal maladies, are produced by it.

Ayer's Sarsaparilla

Is the only powerful and always reliable blood-purifying medicine. It is so effective an alterative that it eradicates from the system Hereditary Scrofula, and the kindred poisons of contagious diseases and mercury. At the same time it enriches and vitalizes the blood, restoring healthful action to the vital organs and rejuvenating the entire system. This great

Regenerative Medicine

is composed of the genuine Honduras Sarsaparilla, with Yellow Dock, Sida Lingia, the Iodides of Potassium and Iron, and other ingredients of great potency, carefully and scientifically compounded. Its formula is generally known to the medical profession, and the best physicians constantly prescribe AYER'S SARSAPARILLA as an

Absolute Cure

For all diseases caused by the vitiation of the blood. It is concentrated to the highest practicable degree, far beyond any other preparation for which like effects are claimed, and is therefore the cheapest, as well as the best blood purifying medicine, in the world.
