VOL 38

CHARLOTTETOWN P. E. ISLAND; WEDNESDAY, APRIL 13, 1898.

NO 86

RESOLVED TO INTERVENE.

Committee of Foreign Affairs

WILL BACK THEIR DEMAND

By the Army and Navy Forces of the United States.

[SPECIAL TO THE EXAMINER.]

WASHINGTON, April 13.—Steering a representative of the committee of the Republican sympathisers, appeared before the House Committee on Foreign Affairs, in request, yesterday afternoon. They were in conference for half an hour. The Republican members of the Committee finally agreed upon a resolution for immediate intervention in Cuba, to be backed up by the full army and navy forces, to secure the formation of a free and independent form of government for that island. The Democrats of the House Foreign Affairs Committee also agreed on the resolution for independence and armed intervention.

ARMISTICE IN CUBA.

Attitude of the Insurgents.

THEY HAVE NOT ACCEPTED.

[SPECIAL TO THE EXAMINER.]

WASHINGTON, April 14.—The armistice has gone into effect in Cuba, but up to this hour last night no word had come as to the attitude of the insurgents with respect to it. If they accept the armistice the solution of the Cuban question appears to be simple. If they do not accept it the expectation of the Spanish Government will be made manifest within the next few days by the commencement of hostilities by the forces of Gomez and other Cuban leaders.

REBELLION.

A Philippine Island Taken by Rebels.

HONG KONG, China, April 12.—Rebellion has broken out in Zebu, one of the Philippine islands, and an important business centre of the hemp and sugar trade. The cable has been cut, the news being sent by foreigners through a sailing craft. Foreigners are safe.

The whole island has been taken by the rebels, and the governor and other Spanish employes killed or taken prisoner. Three steamers have taken troops to the scene of action. It is expected that Iloilo and other southern islands will follow. The whole country is agitated.

The Spanish provincial governor at Ilayabas has been severely wounded. His adjutant has been killed in the Ilocos provinces, and a priest and captain of the civil guard mortally wounded.

The riots in Palgasal continue. Precautions are taken in Manila, but trouble is expected.

Show day on Friday at Paton & Co's.

Another great show of millinery and dress goods on at Paton & Co's Friday and Saturday. 86 2i

PERILS OF THE SEA.

Windsor Ship Wrecked.

CAPTAIN DIES FROM EXPOSURE.

All the Crew Thought to be Lost.

[SPECIAL TO THE EXAMINER.]

NEW YORK, April 13.—The steamer Saale, which arrived here yesterday from Genoa reports that on Sunday last she picked up a life-boat containing two men of the crew of the ship Marlborough, of Windsor, who probably are all that survive of the ship's crew of fourteen. The Marlborough sailed from St. John on March 16th for Sharpshoot with deals. The ship went to pieces in a gale on April 4th. One boat was dashed to pieces and all the hands left the ship in the remaining boat and a raft. On April 7th Capt. Cochrane died from exposure and on Easter morning another of the crew died.

BLOOD THICKER THAN WATER.

Consul-General Lee Cheered by British Ships.

[SPECIAL TO THE EXAMINER.]

HAVANA, April 13.—As the steamer Fern on board of which was Consul-General Lee with his party, was leaving the harbor they passed several British ships, from all of which they received rousing cheers. The sailors on board the Fern returned the compliment with vigor.

A NEW GRIEVANCE.

Halifax Merchants on the Warpath Against Discriminating Rates of Freight.

HALIFAX, April 12.—Halifax merchants have discovered a new grievance which General Traffic Manager Harris will have to remedy. It is the tariff he has fixed on goods from points west of Montreal for export. There are two export schedules, one for goods to be sent to Europe, the West Indies or South America, the other for goods to be sent to outports of Nova Scotia, P. E. Island, Newfoundland, and to the Magdalen Islands. The charge for one is called the through export rate, for the other the local export rate. Mr. Harris told us that this export rate as between Montreal and St. John and Montreal and Halifax, would be identical, but from points west of Montreal coming east to the seaboard there would be one cent difference in favor of St. John. The merchants naturally thought this would be on both through and the local export traffic. But it seems that Mr. Harris has made a discrimination of two cents per hundred pounds in favor of St. John as against Halifax on local export business over the I. C. R. A merchant who made this discovery today thus informed The Herald and it is his intention to see that the grievance is removed if it is possible to secure this. A meeting of the transportation committee of the board of trade is called to take up the question.

Millinery opening Friday and Saturday. Moore & McLeod.

SAGASTA HOPEFUL

Of a Peaceful Situation.

NOT HOSTILE TO SPAIN.

So He Speaks of the President's Message.

[SPECIAL TO THE EXAMINER.]

MADRID, April 13.—Sagasta, the Spanish Premier yesterday informed a newspaper representative that his Government was waiting for the full text of President McKinley's message before acting on its contents. He said also that he considered the message, so far as it was known to him, not hostile in tone towards Spain and that he would continue to be desirous of peace, for obtaining which the armistice now declared in Cuba afforded the means.

CONSUL-GENERAL LEE

Is of the Opinion that the Maine Was Blown Up.

[SPECIAL TO THE EXAMINER.]

WASHINGTON, April 13.—Consul-General Lee has been examined before a special Senate committee regarding the destruction of the Maine. The ex-Consul stated to the Committee that it is his opinion that the battle ship was blown up by Spanish agency.

DOWN ON ZOLA.

Another Action to be taken Against Him.

PARIS, April 10.—The officers composing the court martial which acquitted Count Esterhazy, yesterday decided to commence civil actions for libel against M. Emile Zola and M. Perreux, publisher of the Aurore, who were recently sentenced to imprisonment, and who were also fined, for making charges, which were not sustained, against the conduct of the court martial. The officers also expressed the wish that the Minister for War would ask that M. Zola be expelled from the Legion of Honor.

SOUTH AFRICA.

Cecil Rhodes in London—His Presence Eodes Ill for Oom Paul.

NEW YORK, April 11.—The presence of Cecil Rhodes in London has given rise to much comment regarding to South African affairs. The opinion seems to be general among the London correspondents of the leading New York papers that Mr. Rhodes visit to England bodes ill for President Kruger and the Transvaal republic. The Sun has the following from its London correspondent on the subject:—"The report that Portugal was coquetting with Germany in connection with Delagoa Bay has been denied, but there was sufficient truth in it to induce England to make inquiries at Lisbon.

The most popular wheel in the city today is the Progress. Only \$10 for a first class wheel which equals most \$60 wheels of any other make.—Fred P. Newson, agent, 86 2i.

PARLIAMENT

OF CANADA.

Budget Debate Resumed.

MR. FOSTER MAKES A MAGNIFICENT SPEECH.

[SPECIAL TO THE EXAMINER.]

OTTAWA, April 13.—On resuming the budget debate yesterday, Mr. Foster agreed with Mr. Fielding as to the prosperity of the country, but could not join in commending the government for the share the ministers had in it.

Mr. Foster made a magnificent and unanswerable speech. Sir Charles Tupper and Sir. Richard Cartwright followed.

CARDINAL TASCHEREAU DEAD.

[SPECIAL TO THE EXAMINER.]

OTTAWA, April 13.—Cardinal Taschereau, Archbishop of Quebec, is dead. [He was the son of Hon. Jean Thos. Taschereau, Judge of the King's Bench, of Lower Canada. He was born at Ste. Marie de la Beauce, P. Q., in 1820, and was educated at the Quebec Seminary. In 1854 he went to Rome and took his degree of D. D. He was consecrated Bishop in the Basilica of Quebec on March 1871. On June 7, 1886, he was created a Cardinal Priest of the Holy Roman Church with the title of Sainte Marie de la Victorie. One of his latest acts was to sign a petition, with the other Archbishops and Bishops of his Church in Canada praying Parliament to disallow the Public School Act of Manitoba.]

THE AUSTRIAN CABINET.

Rumored Intervention on Their Part

[SPECIAL TO THE EXAMINER.]

LONDON, April 13.—The Vienna correspondent of the London Chronicle says: "The Cabinet has commenced official negotiations with Spain, suggesting that the future relations between Cuba and the Spanish Government be based upon the model of Canada and England.

BALLOON TO THE KLONDIKE.

A Party of Frenchmen to Undertake The Trip.

Mr. Antoine Varicle, of the French Geographical Society, arrived at New York on the steamship La Bretagne a few days ago with a balloon, with which he intends to make the trip from Juneau to the Klondike. There are about a dozen persons in the party, and they are at the Hotel Marten. Arthur Tervagne, L. L. D., is the secretary of the expedition, and is also correspondent of the Figaro.

Mr. Varicle, the head of the expedition, is a man of about 45 years of age, and a well known engineer and inventor in France. He invented a new method to direct a balloon with the aid of a rope and a steering sail, and this method he has succeeded with in two trips, the one from Paris to Theneuil, in the south of France, and the other from Paris to Hamburg.

The balloon is cylinder-shaped, has a rail beneath it, and is equipped with electric lights and a searchlight. The expedition carries with them all the modern instruments of geographical and topographical science. Carrier pigeons will be employed to send back news of the progress of the expedition.

The balloon will carry about 73,000 pounds. The members of the expedition are stopping here only until news comes from Juneau that the apparatus is ready for generating the hydrogen with which the balloon is to be inflated. When that is ready the party will go directly to Juneau, and if the wind is favorable the trip to Klondike will be made at once.

The cost of the expedition is borne partly by the French geographical society, and partly by the members of the party.

How to Get Rich.

We refer to the richness of the blood. If you are pale and thin, you are poor in strength and nerve power. Scott's Emulsion drives away thinness and pallor, and brings rich blood and nerve power.

Carter's for Wall Paper
