NEWS NOTES.

Cattle raisers of the western states are bending every effort to the perfection of an organization during the coming season to fight the dressed beef combine. The recent advance in the price of beef has increased instead of mollifying them. A despatch to the London Times from Malandra by way of Dargal states that the British treasury stores in Malandra Pass which was defended by 12,000 supporters of Umra Khan of Jandoo, the invader of Chitral. There was strong, sharp fighting for five hours when the enemy retreated. The enemy lost heavily. The members of the Scottish Borders who took part in the engagement, showed great dash. The enemy are now in full retreat. The first brigade of the British forces has crossed into Swat.

LATEST SUMMERSIDE NEWS.

Special Correspondence of The Examiner. An ex-temperance concert will be given by the B I S of Emerald on Monday, the 15th inst. An excellent programme has been selected consisting of songs, readings and recitations by some of our best talent. "The Initiative of a Candidate Into the Order of Humaniarians," a laughable burlesque made up of ten characters, will also be presented. A special train will leave Summerside at 6.30 to convey those who wish to attend. "Bobbie Shatto" is the title of a pleasing opera which is being rehearsed by a number of Sunday school scholars of St. Mark's church, and which is to be given in the guild room during the week after Easter. Mrs W B Mills is acting as musical director. The work of wiring the Holman building for electric lights was begun this morning. We understand that the hockey boys are to form an athletic club. Why not organize another baseball nine? Mr F W Hyndman, of Charlottetown, is in town. Dr McIntyre, who was burned out by the late fire, is fixing up a dental parlor over Messrs Godkin Bros store. The flat is to be remodelled and finished in first class order. The doctor has also ordered an elaborate outfit, and when work on the building is completed and things are in order, will have one of the best furnished suites of rooms in the province. "The gentle breath of spring" is fanning the brow of many an ash heap that lifts its grizzly head through the vanishing snow. They confront the pedestrian on crosswalks, sidewalks and everywhere, and every day. As the depth of snow diminishes new ash heaps spring forth like plants in springtime. Can't they be removed? Mr M Trainor, of Charlottetown, is in town. Mr A McWilliams, M.L.A. of West Point, was a passenger on the west bound train yesterday. Dr McIntyre leaves here the first of next week for New York, where he will attend a dental convention and take a special course in anaesthetic and prosthetic dentistry. He will return in about four weeks.

PHRENOLOGICAL EXAMINATION.—Professor W. K. Burr, Ph. D., graduate of the Phrenological Institution, N. Y., is now at the Hotel Davies. He is considered one of the ablest of living phrenologists. Charges from 25 cents to one dollar are dissatisfied as will do it for nothing.

TEACHERS' INSTITUTE.—The regular meeting of the Institute will be held this evening at 7.30 in Y. M. C. A. After the lessons in music and drawing, Mr. M. J. Macdonald, of the Guardian, will read a paper on "The Single Tax as a Remedy for Poverty."

Of the amount issued \$110,000 will be used to refund retiring six per cent. bonds about maturing, and probably the remainder will be required to float the Government along till another session.—Moncton Times.

BIG PROFITS IN SEALING.—The big profits of the Alaska company which has carried on the sealing business up there are revealed in a lawsuit now brought by a discontented stockholder. For 20 years the company paid dividends of from 20 to 115 per cent. on the capital stock invested. The banner year was 1890, in which there were three dividends, aggregating 115 per cent. One was 50 per cent., or \$2,000,000. Small wonder the sealers don't like to be disturbed.—Boston Herald.

LECTURE.—The lecture in the Y. M. C. A. last evening by Mr. J. Heber Haslam was certainly deserving of a larger attendance. Among those who were fortunate enough to be present, however, were His Honor the Lieutenant-Governor and Mrs. Howland and many prominent citizens. Mr. Haslam had for his subject "Canada, its resources, institutions, progress and future," illustrated by stereoscopic views. He reviewed the growth of Canada and many of the provinces, dwelling at length on the resources of Ontario, but more particularly on Manitoba and the great Northwest. At the close Mr. Percy Pope, on behalf of the audience and the Association, thanked the lecturer for his able and instructive address.

A BIG WIND STORY.—The cyclone of a week ago, which went diagonally across the midlands and the south of England, is said to have done more damage than any previous hurricane in the memory of living men. Some of its destruction is irreparable. All the magnificent Cedars of Lebanon at Warwick Castle, which were almost prehistoric, and had been familiar to tourists and writers for centuries, were blown down. Sandringham and the adjoining estate lost together 5,000 trees. The Marquis of Huntly's silver birch plantation in Huntingdon, incomparably the finest in England, and probably in the world, was wholly wiped out. The Peterborough Cathedral lost three unique spires, and the newspapers are filled with appeals from country rectors for subscriptions to rebuild ancient churches smashed by the gale.

Gospel Meeting.—Remember the Gospel Meeting in the Philharmonic Hall Sunday afternoon at 4 o'clock, conducted by the Railway Men. Strangers always welcome. Lesson—Phil 3:20, "Christian Citizenship."

At the convening of the Florida Legislature Tuesday Governor Mitchell in his message recommended that "prize fights or glove contests be made felonious by statute, with such penalties attached as will cause things to respect the law, and to respect the law-abiding, God-fearing people of this state in the pursuit of all their rights as citizens; also, that persons who may be present at such contests in anywise aiding or abetting the same, by betting thereon or being present thereat, shall be deemed guilty of felony and upon conviction be punished as principals."

A recent issue of Truth, Mr. Labouchere's weekly, contains the following remarkable statement: "Another dismal week has ended. There is illness in every house and influenza in every household. Prescriptions, bulletins and obituaries are the literature of the moment. Undertakers declare there is not a sufficient supply of learners to meet the demand. They have distributed notices advising intending clients to order their funerals beforehand, so as to avoid disappointment. Retaining fees to undertakers are certainly unusual, and it is gratifying to learn that they are no longer necessary, the agile microbes appetite having been fairly well satisfied."

A novel scheme for the assistance of the unemployed is proposed by the New York association for improving the condition of the poor. The vacant lots in the city are to be turned into potato patches. Every man who is recommended by a church or a prominent man will be allowed one-quarter of an acre. These will be collected and sold by the society. The men must pay \$14.50 an acre for expenses. Whatever is left after the sale will be given to the amateur farmer. The society has reserved a large tract of land for itself, and will pay 50 cents a day to men to work it. A practical farmer has been engaged to superintend matters.

It is rumored that the Pennsylvania oil fields are becoming exhausted. The Standard Oil Company and others have realized, with Mr. Gilbert P. Beck, of "The Golden Butterfly," that "For a steady flow there is nothing like oil," but if this rumor should prove true they will also realize how that very real man felt when the "steady flow" ceased, that is provided they are gifted with Gilbert's genial philosophy, which is very doubtful. This rumor may have very little to support it, but if it should be to some extent true the fact would not tend to lessen the value of Canadian oil lands. On the other hand, if the reports about the new illuminant, acetylene, are true, oil, coal gas, and even electricity, as illuminants, will soon be things of the past.

PERSONAL. Mr. Brennan, of the Summerside Journal is in the city. He is registered at the Hotel Davies. Mr. A. Bartlett, Lieutenant No 1 Co G, and Lieutenant Peake, of No 2 Co, arrived home to day from the Royal School of Artillery, Quebec.

Sir Patrick Grant, who died in honored old age lately, was a soldier of the old guard, and won his honors in India, when British victories were achieved by sheer British pluck in the face often of tremendous odds. Gujarat, Sobraon and Chillianwalla, where he fought in his youth, were as hardly contested fields as Indian history tells of. The enemies of the British of those days were among the best and bravest of the people of India. The conquest added a new empire to the British dominion in the East, and the ranks of the native army of India contains no braver or more loyal soldiers than the sons of the men who, in those fights, more than once almost won victory from the white men. The merit of carrying further work for Sir Patrick Grant, and won for him further honors. With him a peaceful old age succeeded a manhood of arduous campaigning, and his name will be remembered as one of the most deserving on the long list of British soldiers that North Britain has given to the Empire.

A 70-year-old lady, supposed to be poor, died suddenly at Montreal on Thursday. When her room was searched upwards of a thousand dollars was found hidden in various places.

CONCERT AT LITTLE RIVER. The concert at Little River on Monday, the 1st inst, by the Dundas Amateur Dramatic Club was, considering the almost impassable condition of the roads, very well patronized. J C Underhay, ex-V P P, occupied the chair and introduced the club in one of his characteristically pleasing addresses. The performance throughout was of a very high order. The dialogue, "How to catch the new minister," by three lads was well performed. The closing scene in "Advertising for a Servant" was thrilling, the heroine who wielded the mallet being a veritable tragedy queen. The fair soloists received merited applause, while the male quartettes succeeded in bringing down the house." The programme was concluded with a sermon by Bro. Bones with chant "Three Little Kittens," by a colored quartette. We trust that the Dramatic Club will see fit to respond to our invitation and again visit Little River in the near future, when I trust the writer will be once more an AMUSED HEARER.

AMUSED HEARER. Little River, April 2, 1895.

—Montreal Gazette: It has been discovered by some Western newspapers that Sir Charles Herbert Tupper is not a favorite at Washington. Perhaps, however, this will not be counted to his discredit. Come Canadian public men who are favorites at Washington are not much thought of at home. For instance, there is Mr. John Charlton, who in Canada's Parliament looks after the interest of Michigan's lumber millionaires.

If not satisfactory, money returned and Silver Filling, a specialty. The following letter from Dr. Robertson of Cranford respects the PAINLESS EXTRACTION of Teeth, speaks for itself.— To J E McDonald, D D S, Summerside, P. E. I. Dear Doctor.—I am so well pleased with the work you have done for me, that I will take it as a special favor if you will give publicity to this letter. I positively assert that after an experience extending over twenty-two years under the hands of many dentists, you are the only one who ever extracted a tooth for me without the slightest pain. The next tooth ABSOLUTELY WITHOUT PAIN. The next tooth removed for me after sitting did not hurt a particle, as Mr James Dawson Trow, who was present at the operation, heard me testify. The man who invented your method, was a white man. I am, yours, gratefully, E. W. ROBERTSON M. D. Cranford, Jan. 10, 1895. J. E. McDonald, D. E. S., Summerside. ap1-ly
