Give Them a Chance!

That is to say, your lungs. Also all your breathing machinery. Very wonderful machinery it is. Not only the larger air passages, but the thousands of little tubes and cavities leading from them.

When these are clogged and choked with matter which ought not to be there, your lungs cannot half do their work. And what they do they cannot do well.

Call it cold, cough, croup, pneumonia, catarrh, consumption or any of the family of throat and nose and head and lung obstructions, all are bad. All ought to be got rid of. There is just one sure way to get rid of them. That is to take Boschee's German Syrup, which any druggist will sell at 75 cents a bottle. Even if everything else has failed you, you may depend upon this for certain.

Why the Columbus Watch is the Best

THE Main Spring barrel is completely covered, making the watch perfectly dust proof.

There can be no interference between the Balance and the Barrel.

The Regulator is nearly double the length of others, rendering accurate regulation a very simple matter.

To replace a broken Main Spring, the Barrel can be removed without disturbing the Balance or interfering with the regulation.

The pins of the Regulator are so formed and located that two or more coils of the Hair Spring cannot catch between the Pins and cause the Watch to stop or gain time at an unusual rate.

The Balance comes under the round, or edge, the strongest part of the case, not as with all others, under the center and weakest part.

The Main Spring Power is the lightest used in American Watches.

The calculation of the Train is such that this Watch runs 8 to 10 hours longer than others, with one winding, giving more uniform power and rate.

These are improvements that cannot be claimed by any other manufacturers, and once seen, all must agree with us in saying that this is the strongest and best Watch made; and with all the above improvements, the Columbus Watches cost no more than others.
