

RURAL BASEBALL CHAMPIONS

Here are the members of the Peakes Bombers who recently won the rural championship of Prince Edward Island. The Bombers copped the King's County crown, then disposed of the Prince County winners, Grand River in straight games. **FRONT ROW**—L to R M. Devine, G. Coffin, A. Smith, G. Smith Kelly, T. Dunphy, T. Grant E. Smith. **BACK ROW**—L to R A. Hughes, B. Dunphy, B. Connolly.

Col. Weatherbie Is Laid to Rest

The funeral of the late Lt. Col. S. S. Weatherbie was held yesterday afternoon from the MacLean Funeral Home to Valleyfield United Church where service was conducted by Rev. F. MacKinnon. Last Post and Reveille were sounded by G. Boudreau. Honorary pall bearers were: D. E. MacLeod, J. A. MacPherson, J. S. MacPhee, D. H. MacPherson, J. A. MacBeath, R. C. MacDonald. The active pall bearers were: Edward McKenna, Michael McTague, Alexander MacPherson, Albert Matheson, John K. MacDonald and James Stewart. The funeral was very largely attended.

Miss Martha Townshend, 91, Dies At Kings County Hospital

MONTAGUE—The death of Miss Martha Townshend, well known and loved twin sister of Mrs. Frances Thompson occurred yesterday at the Kings County Hospital in her 91st year. The late Miss Townshend was the daughter of Charles Warrel and Harriet Townshend of Rollo Bay. She resided in Montague with her twin sister for 47 years, many of which she spent in the ladies wear business. Although not always enjoying the best of health, Miss Townshend was very active in church work, orphanage work and was keenly interested in young people. Along with her sister, Mrs. Thompson, Miss Townshend enjoyed a very wide circle of friends which can be attributed to their many varied interests in life and which was always made evident by the many callers, messages from many countries, gifts, flowers and cards which were received on each birthday anniversary.

THE LATE MISS TOWNSHEND
Funeral service will be held from Trinity United Church.

Nursing Club Begins Meetings

MONTAGUE—On Friday evening, Mrs. D. M. MacDonald, Montague, was hostess to the members of the Kings County Hospital Nursing Club when activities were resumed for the fall season. Mrs. MacDonald, vice-president, presided over the meeting. It was decided to hold regular meetings on the first and third Monday of each month. Several money-raising projects will be formulated later. Since the last meeting in June, the club suffered a great loss in the recent death of the president, Mrs. Roland Diamond. Also greatly missed is Mrs. John Trodenick, who with her family has taken up residence in Charlottetown.

FAMED EXPLORER
Capt. Raouid Amundsen, the Norwegian explorer, was the first to navigate the Northwest Passage in 1906.

Island Honey Crop Tops

Prince Edward Island's honey crop will likely be the best in Canada in 1958 according to figures released by the Federal Department of Agriculture. While other Provinces are reporting a decline of 25-30 per cent in production, a harvest of 85 pounds per colony is likely for P. E. I. This compares to 70 pounds per colony for Nova Scotia. Last year production of honey across Canada averaged 98 pounds per colony.

Christmas Tree Trade Is Told To Lift Standards

OTTAWA (CP)—Canadian Christmas tree producers, who last year supplied about one-quarter of the United States demand, are being warned to lift their standards to meet growing competition from cultivated trees. Sales now being made as far away as Mexico and the Caribbean have made the Canadian Christmas tree trade one of the more important minor facets of the bountiful forest products industry. More than \$9,000,000 was earned last year on the spot, new U.S. grading standards and plantation-grown trees mean that Canadian exporters will have to lift their standards to keep their foothold in the U. S. However, no great market change in the U. S. is expected in 1958. The standards were established last year at the insistence of American tree growers. They are applied to shipments on request and so far are little used. But it is expected U.S. buyers will come to demand their application to the Canadian product as a means of measuring quality against a standard. **USE "BACK 40"**
The Canadian tree industry features mainly hundreds of small producers who turn the "back 40" to use every fall. Nova Scotia supplies about 30 per cent of

Kremlin Has Plans To Put School Children To Work

By THOMAS P. WHITNEY
AP Foreign News Analyst
One of Nikita Khrushchev's unadmitted purposes in proposing a radical reform of the Soviet school system is to liquidate Soviet universities as centres of intellectual ferment among Russian youths. He proposes to do this by turning them for the most part into night and correspondence schools. The Moscow press has announced that the presidium of the central committee has approved Khrushchev's "work-while-you-study" scheme, to be put into effect in the next three or four years. One reason for the proposed change is economic. The change will make it possible for the Kremlin to mobilize for manual labor millions of boys and girls from 14 to 17 years of age. This will help make up for an impending acute shortage of young men and women due to the drop in the birth rate during the war. **HARD WORK FOR MOST**
Under the Khrushchev plan, after the seventh or eighth grade almost all children, except those exceptionally gifted and intended to become scientists, will be put to work at manual labor on farms and in factories. They will be forced to continue schooling, if at all, at night classes and by correspondence. The political motives behind the plan are probably stronger. During 1956, under the re-Stalinization program advanced that year by Khrushchev, there was a letup in repression. As a result, much discontent with the Communist dictatorship came to light among Soviet university students. The Kremlin's answer to the problem is to abolish universities as places where large numbers of
