GRAY'S SPECIFIC MEDICINE

TRADE MARK. The Great English Remedy. An unfailing cure for Seminal Weakness, Spermatorrhea, Impotency, and all diseases that follow as a consequence of self-abuse; as loss of Memory, Universal Lassitude, Pain in the Back, Dimness of Vision, Premature Old Age, and many other Diseases that lead to Insanity or Consumption. Full particulars in our pamphlet, which we desire to send free by mail to every one. The Specific Medicine is sold by all druggists at \$1 per package, or six packages for \$5, or will be sent free, by mail, on receipt of the money, by addressing The Gray Medicine Co., Windsor, Ont., Canada.

Sold in Charlottetown by all Druggists, and by all wholesale and retail Druggists in the United States and Canada.
January 24, 1879.

DR. CREAMER, PHYSICIAN AND SURGEON,

Kent Street, Charlottetown.
(Three doors from Dr. Johnson's).
ENTRANCE BY SIDE DOOR.
Oct. 15-3m

H. W. Vinnicombe,

Resident Piano Tuner & Regulator,
HAS adopted the Dollar system of Tuning—six visits a year, at one dollar per visit. This system is much more economical and satisfactory than any other, as the cost is less, and the instrument is kept constantly in tune and repair.
A visit will be made to all parts of the Island once a year, or oftener if desired. Pianos tuned by Hamilton's system of even temperament.
Orders may be left at Mr. Fletcher's Music Store, or at Bremner Bros., Queen Street.
Jan. 6, 1879—

COMMERCIAL Union Assurance Company, OF LONDON, ENGLAND.

CAPITAL - - \$12,500,000.
INSURANCE effected against Fire on all descriptions of Property throughout the Island.
Low rates and prompt settlement of losses.
HORACE HASZARD,
Agent for P. E. Island.
Ch'town, Dec. 29, 1878—

QUEEN INSURANCE COY. OF ENGLAND.

CAPITAL . . TWO MILLIONS STERLING.
INSURANCE effected on all kinds of Buildings, Merchandise and Produce. Also, on Vessels on the stocks.
Special rates for isolated residences.
Losses settled promptly.
GEORGE MACLEOD (Union Bank),
Agent for Prince Edward Island
June, 1877—

E. C. HUNTER, Italian and American Marble,

Monuments, Tablets, Headstones,
MANTLES, CENTRE TABLE TOPS, BURIAL AND COMMODE TOPS, WASH BOWL SLABS, &c., &c.
Prices to suit, and satisfaction guaranteed.

PROVINCIAL LEGISLATURE.

LEGISLATIVE COUNCIL.
SUMMARY OF PROCEEDINGS.

FEB. 27.
The Legislature was opened with the usual formalities, but no business was transacted in the Council, on account of the absence of a number of the members, beyond the appointment of a Committee, consisting of Mr. McKenzie, Mr. Munn and Hon. Mr. Wightman, to prepare an address to His Honor the Lieutenant Governor, in reply to his Speech.

FEB. 28.
The House met at three o'clock and approved the usual standing committees.
Mr. MCKENZIE, from the Committee appointed to prepare an address to His Honor the Lieutenant Governor, in reply to his speech, presented the following draft thereof, which was read and made the order of the day for Monday next:—

To His Honor Sir Robert Hodgson, Knight, Lieutenant Governor of the Province of Prince Edward Island, &c., &c., &c.

MAY IT PLEASE YOUR HONOR,—We, the members of the Legislative Council, convened in General Assembly, offer Your Honor our thanks for the speech with which you opened the present session, and our congratulations on the measure of health and strength enjoyed by Your Honor.

We are pleased that your Honor has been enabled to call us together for the discharge of our Legislative duties at an earlier period than usual.

It is extremely gratifying to us to know that the arrival of His Excellency the Marquis of Lorne was hailed with acclamation, and we rejoice at the universal manifestations of welcome which greeted His Excellency and Her Royal Highness Princess Louise, showing incontrovertible evidence of the deep feeling of loyalty and attachment of the people of the Dominion to our most gracious Sovereign.

We heartily concur in the belief expressed by your Honor's Government with respect to the right of this Province to a portion of the amount awarded under the Fishery Articles of the Treaty of Washington, and trust that the claim so promptly brought to the notice of the General Government will be acknowledged.

We readily perceive that, with decreasing revenues, strict economy is absolutely necessary to keep the expenditure within the receipts. That important retrenchments have been made, is pleasing intelligence to us, and when measures providing for the reduction of salaries and other expenses are laid before us, they shall receive our earnest attention.

When the bill providing for an alteration in the Constitution by establishing one Legislative Chamber instead of the existing two branches of the Legislature will be submitted to us, it shall receive our most careful and earnest attention.

We hope the measure to be submitted to us having for its object the abolition of imprisonment for debt, will be of such a nature that we may be able to give it our approval.

We are glad to learn that a number of property-estates have been purchased during the year, and that nearly all the leased lands are now vested in the Commissioner of Public Lands, and that the occupiers are enabled to purchase at liberal prices.
We hail, with pleasure, the announcement of the satisfactory working of the Public Schools' Act, 1877, and consequent gratifying increase in the number of schools in operation and in the number of children attending the same. The sincere desire of the people in the country Districts for success in the cause of education has been amply proven by the improved accommodation provided, while the zeal and energy displayed by the School Board in Charlottetown, and Summerside in the matter of school buildings have conferred a boon on the inhabitants.

A proposition to amalgamate the Prince of Wales College and Normal School, which, while retaining the efficiency of those institutions, will reduce their annual cost, shall receive our favorable consideration.

It is a matter of regret that the small-pox appeared in Alberton last autumn, and that the measures adopted by the local Board of Health to prevent the spread of the disease have proved ineffectual. The isolation of the patients and the appointment of a medical gentleman for their special care at the public expense will, we trust, be successful. The establishment of Boards of Health and the appointment of Superintendents of Vaccination in the principal villages of Prince County were proper precautions for preventing the further spread of the disease.

We cordially unite with your Honor in the earnest hope that our deliberations will, under Divine Providence, tend to the prosperity of the people of this Province.
Adjourned until Monday next.

Earl Dufferin.

The London correspondent of the Scotsman writes:—"The appointment of Lord Dufferin as British Ambassador at St. Petersburg has disappointed some anticipations. In political circles the expectation was that Lord Dufferin would go to Constantinople, that Sir Augustus Page would succeed Lord A. Loftus at St. Petersburg, and that Sir Henry Layard would be transferred to Rome. It is well known that Sir H. Layard desires the Italian mission. It appears, however, that he has not quite finished Lord Beaconsfield's work at Constantinople."

A Constantinople dispatch says the Greek Archbishop of Adrianople has been beaten to death by some Bulgarians, and 3,000 of them have requested of the Patriarch permission to attend the funeral.

Public Works Report.

THE POSITION OF THE PACIFIC RAILWAY FROM END TO END.

The most important paragraph of the report of the Minister of Public Works is that which deals with the Pacific railway, and it is as follows:—
"The Canadian Pacific Railway is projected to commence from a point at or near the south-eastern angle of Lake Nipissing. Construction has commenced at the River Kamistiquia, Lake Superior, about three miles from its mouth. Running in a northwesterly direction the line passes to the north of Lac des Mille Lacs, whence it proceeds to the north of Lakes Wabigoon and Vermilion. The line then passed to the River Winnipeg, which it crosses at Rat Portage, the point of discharge of the Lake of the Woods. Thence the line proceeds to Selkirk on the Red River. Beyond this point construction has not yet commenced. The Pembina branch extends southward from the main line at Selkirk, to Emerson at the boundary line, where it connects with the St. Paul and St. Vincent Railway in the State of Minnesota, 84 1/2 miles. The works on the section between Fort William and English River, 113 miles, are so far advanced that rails have been laid to the 102nd mile, and the line ballasted to the 69th mile—December, 1878. The line between English River and Keewatin, 185 miles, has been re-examined and its location amended. This work is now being placed under contract. From Keewatin to Cross Lake is 36 miles. This section is under construction. Half of the rock excavation and a large quantity of earth-work has been executed. On the section from Cross Lake to Selkirk, 76 miles, the grading and bridging are completed. At the eastern end a heavy embankment remains unfinished. It is anticipated that it will shortly be completed. The rails have been laid for 75 miles. A contract has been given out for the engine house at Selkirk. On the Pembina branch 22 miles is completed, viz., from Selkirk to St. Boniface. On the remaining distance, 63 miles, to Emerson the rails are laid, but the river crossings have been effected by temporary structure ultimately to be made permanent. In the ensuing summer the line will be ballasted.

On the Canada Central extension, 120 miles, 37 miles have been located. Of this extent 25 miles are under construction and much of the work performed; the remaining distance has yet to be located. This line extending from Pembroke to Lake Nipissing, is being constructed under a subsidy not to exceed \$1,440,000. The Georgian Bay Branch, 50 miles, extends from South River, Lake Nipissing, to Canby's Bay, French River. The contract for grading, bridging, track-laying and ballasting was signed on the 2nd August, 1878. The contractors have done little beyond delivering supplies.

In British Columbia, in the summer of 1878, the location between Emory's Bar, 56 miles below Yale, and Savona's ferry at the foot of Kamloops Lake, a distance of 125 miles, was revised and improved. These examinations have established that the River Fraser can be best crossed six miles below Linton. A considerable reduction of cost in the estimates has been effected between Spencer Bridge and Kamloops Lake. The location survey has been carried north of Kamloops Lake, by which the line has been shortened 3 1/2 miles, the curvature reduced, and the work lightened.

A habitual drunkard's bill has been introduced in the British Parliament. It gives to local authorities power to license retreats for habitual drunkards, in which dipsomanics may be forcibly retained. But the remarkable condition of detention is that the applicant shall himself have ordered and approved his own imprisonment. He must go before a justice of the peace, prove that he is a habitual drunkard, establish that he knows exactly what he is doing, and sign the command for his own detention, in the presence of the magistrate. He must even fix for himself the term of his punishment. In fact, he must use his liberty in order to resign it. But, once in, he is caged until his time is up, as effectually as if he had been sentenced to gaol by a magistrate. When the fit of repentance passes off, and the old thirst returns, he will desire to leave again. But then he will be told that stone walls do make a prison. In this way experts believe that the almost uncontrollable spirit of the dipsomaniac can be brought under subjection; but as yet no statistics are obtainable on the subject.

The Death-rate of

Our country is getting to be fearfully alarming, the average of life being lessened every year, without any reasonable cause, death resulting generally from the most insignificant origin. At this season of the year, especially, a cold is such a common thing that in the hurry of every day life we are apt to overlook the dangers attending it and often find, too late, that a Fever or Lung trouble has already set in. Thousands lose their lives in this way every winter, while had Boschee's German Syrup been taken, a cure would have resulted, and a large bill from a doctor been avoided. For all diseases of the Throat and Lungs, Boschee's German Syrup has proven itself to be the greatest discovery of its kind in medicine. Every Druggist in this country will tell you of its wonderful effect. Over 950,000 bottles sold last year without a single failure known.

A heartless Montreal landlord was recently fined \$25 and costs for removing windows of tenements and exposing five young children to the inclemency of the weather, because the rent was not paid.

The heirs are wanted of Thomas Armstrong, who died recently in Oregon, leaving an estate of the value of about \$25,000.
