ONE of the latest attractions at the Diamond Bookstore is a self-winding clock. Its movement automatically winds itself for one year without attention by means of an electric motor and battery. The clock is fitted in a handsome case, and is well worth seeing, as it adds another to the many annuals at this popular store.

MRS. ROGERS has painted an admirable sketch of Charlottetown, as viewed from near the late residence of Benj. Hearty, Esq. All the principal buildings of the city are shown, and the sketch besides being an accurate likeness forms a very pretty picture. THE Blair ministry seems to hold its own in the sister provinces. An election for the provincial house took place in Kent county, on Wednesday last week. There were two members to be elected and the candidates were Messrs. Phinney, LeBlanc, Sayre and Johnson. The two first named candidates were elected by large majorities. Both are supporters of the New Brunswick Government.—Patriot. Steamship Burned AT SEA.

TRIALS OF THE RESCUED.

QUEENSTOWN, Aug. 19. The steamship City of Montreal was burned on the night of the 10th inst, latitude 43. Among the cargo was 2,000 cotton bales. Many of the passengers were nearly suffocated before reaching the deck. Nine lengths of hose were turned on the fire. The course of the ship was turned for Newfoundland, 400 miles away. The flames soon burst through the deck, and a panic ensued. The boats were lowered and the ship abandoned at 6 o'clock next morning. One boat containing six passengers and seven of the crew left the ship before receiving its full complement against the captain's orders, and was the only boat lost. All the others were picked up by the German bark Trabant and transferred to the steamer York City, from Baltimore for London, which was attracted to the spot by the flames.

The Montreal had a crew of 80 men, and there were 73 passengers. The rescued spent one night aboard the German bark Trabant. All were then transferred to the York City, which stayed by through the night, and vainly searched for the missing boat. Capt. Land, of the Montreal, is sanguine that the people in the missing boat were saved, as the accident occurred in the track of steamers bound east and west. The passengers and crew lost everything. Capt. Brown, of the York City, shared provisions, clothes, etc., with the rescued passengers, and gave them every comfort he could. The smoke and heat of the burning steamer almost ruined the sight of the Captain, chief officer and others. All were purblind for some time. The chief officer had to be led to the boat. The rescued passengers and crew when landed at Queenstown were in a pitiable condition.

It is understood that an arrangement for taking over between it and the Bank of Toronto was not consummated, and the directors last night decided to close the Bank. Weather Bulletin.

TORONTO, Aug. 20—10 a.m.

Moderate winds, mostly west and north west, fine weather, stationary or a little lower temperature.

The visit of Sir John to several parts of New Brunswick, has the same effect on the average Grit as a red flag has upon a bull. Especially does the Moncton Transcript man show a very sore head. But his attempt to Hawk a political phlegm not only exhausts himself, it is nauseous even to his friends.

LETTERS TO THE EDITOR.

An Enquiry.

Sir,—It is reported that a dissolute person from Nova Scotia was lately sentenced to Queen's County Jail for thirty days for vagrancy, and that after spending some eight or nine days there, was released by an order from the Stipendiary Magistrate. If this report is true, two very important questions arise—the one affecting the citizens of Charlottetown, the other affecting the privileges of the Governor-General and the Executive authority of Canada.

The prisoner, one Smith, was either legally arrested and committed for vagrancy or he was not. It is too much to assume that the Magistrate convicted John Smith without satisfactory evidence of his guilt. This would be sufficient to justify Mr. Fitzgerald in committing Smith to jail.

Then the man being guilty, and Mr. Fitzgerald having legally committed him to jail, his duty ended, and he had no more power than the man in the moon to discharge him, and Sheriff Curtis and his jailer, when they obeyed the order, were as much in the wrong as Mr. Fitzgerald himself. It has heretofore been admitted that the power to pardon criminals is vested solely in the Governor-General, and the attempt to usurp that power is—well, it is difficult to say what such conduct amounts to, not only in those who may attempt to exercise it, but in those who carry the illegal orders into effect.

If, however, Mr. Fitzgerald is a partner in the Royal Prerogatives, it is a matter that should be generally known so that in future in urgent cases prompt application can be made to him.

HOT WATER.

THIS IS THE DAISY.

The Cheapest and Best Hot Water Boiler in the market. Only one year since it was patented, and one hundred (100) already in use, giving perfect satisfaction. It can't help it, because the principle upon which it is constructed is as nearly perfect as possible.

Since taking up this branch of business, we have completed several very important contracts, notably our new Dominion Building here, and also the one at Summerside, as well as a number of private residences.

As it is inconvenient to publish many Testimonials in a newspaper advertisement, we have selected two, which we feel will convince our friends that we are the right parties to do this kind of work.

In a very short time we will again be visited by Jack Frost, and those who contemplate making their homes comfortable, with less labor and less cost than by any other means, would do well to send for us to give them estimates at once.

MCKINNON & McLEAN.

TESTIMONIALS.

MESSRS. MCKINNON & McLEAN.—

GENTLEMEN,—With reference to the Heating Apparatus put into my house by you last fall, I would respectfully state that it has given very great satisfaction.

My house, as you are aware, stands in an isolated and exposed situation, yet during the coldest weather the heat could be regulated to any desirable temperature. My experience leads me to believe that the hot water system of heating, as put in by you, is superior to all other forms of heating I have seen, in its saving of fuel and labor, simplicity of working, cleanliness, and safety from fire, and I hereby recommend it as being the most healthful, comfortable, safe and economical in use. I further wish to express my satisfaction with the manner in which the work was done by you.

Yours truly, SAMUEL PROWSE. House of Assembly, P. E. I., April 21st, 1887.

MESSRS. MCKINNON & McLEAN.—

DEAR SIRS,—The Hot Water Apparatus which you put into our store and offices last fall has given perfect satisfaction.

Yours truly, CARVELL BROS. Charlottetown, P. E. I., 21st April, 1887.
