For the information of our readers we are listing the key people in the Provincial Federation of Agriculture: President, Colin B. BUTTER OIL

A new problem has recently appeared on the Canadian dairy scene with the importation of butter oil from Europe. Butter oil is concentrated butterfat and can be used in the making of butter with the new continuous process churns. The butter oil has been imported at butterfat prices from 16 to 12, cents a pound under the prevailing Canadian prices and has, of course, had some effect on the demand for cream. The Federation of Agriculture and the Dairy Farmers of Canada have already discussed these importations with the Minister of Agriculture pointing out the threat to the floor price structure in Canada and returns for producers.

FARM FORUM RALLIES

Good attendance and lively interest greeted the National Secretary of Farm Forum, Floyd F. Griesbach, at the three rallies held at Heatherdale, O'Leary and New Glasgow. The programs of these meetings was made up of a good balance of entertainment and the bringing out of pertinent information on the Farm Forum program. Particularly encouraging was the fact that at each meeting representatives from a dozen districts were present and arrangements made for naming a contact person in each one. Of recent years there has been quite a marked change in the type of gathering to which farm people are invited.

As Dr. Waldo Walsh, Deputy Minister of Agriculture in Nova Scotia pointed out the pattern years ago was for two speakers to occupy perhaps two hours or more and when this was over everyone went home. Today a well conducted meeting makes every effort to have all attendance participate in discussion by small groups and with provision being made for recreation.

Generally there is evidence of encouraging interest in Farm Forum at the present time and it is planned that similar gatherings will be held at as many points as possible. Farm Forum does a number of things but basically provides a reason for farm people to get together for study, and recreation and it is generally agreed by many that the need for united action was never more pressing.

PRICE SUPPORTS

At the Port Arthur semi-annual meeting of the Canadian Federation of Agriculture held last July it was decided to set up "A National Price Support and Price Review Committee." Named to this committee were six persons including the secretary of the Prince Edward Island Federation of Agriculture. It is now proposed that this national committee will meet in Ottawa on be fourth of December for organizational purposes and to consider action on any questins relating to prices and price support that may have been submitted by member bodies.

In considering the setting up of this committee it was recognized that the Canadian Federation of Agriculture was handicapped in the application of its Price Support Policies by the lack of more formal and systematic procedure of bringing the price support requests and problems of commodity groups to the C.F.A. for consideration, and for the making of representations - to the Prices Support Board and to the Government.

It was, therefore, recommended that a Price Review and Price Support Committee of the C.F.A. be established as a standing committee. It should consist
