

Mr. Owen's defeat is attributable to no such cause, but to the superior energy and perseverance displayed by his opponent in canvassing, as well as to the hatred which a majority of the people entertain for Mr. Owen's violent Tory principles.

THE SCRUTINY FOR GEORGETOWN.

Up to ten o'clock on Saturday, the Scrutiny between Messrs McAulay and McDonald was still proceeding. At that hour fifteen votes polled in favour of A. A. McDonald had been questioned by McAulay, and three polled in favour of Messrs. McAulay and Haviland were questioned by Mr. McDonald.

The following are the names of the Electors whose votes formed the subject of the general Scrutiny, with a summary of the evidence in each case.

Richard Thornton—The evidence in this case was, that Richard Thornton, in partnership with Malcolm Campbell, had some two years ago leased a house and premises from Colin McDonald, Esq., for the purpose of carrying on business together, which they did for some time; and that Mr. Thornton subsequently gave up his share in the business, but still remains a joint tenant of the premises at a rent of sixteen pounds per annum.

Louis Nicholas—Is a MicMac Indian; has resided in Georgetown or Royalty constantly for the last two years, and was born in Prince Edward Island.

Donald Campbell—The evidence on the part of McAulay in this case was, that McAvoy had formerly held a Lot in Georgetown under Donald Campbell, and that after being fined for trespass by Capt. Angus McDonald, he had ever since held it under Capt. Angus, but as Campbell was not questioned as to his qualification, it would be very difficult to prove that he held no other property in Georgetown.

John Morrison—The evidence in this case was, that John Morrison had purchased a portion of a Lot from Michael McAulay, and paid about £20 for it, and had, in partnership with his brother, erected and rough-boarded a valuable frame thereon at a cost of over fifty-one pounds.

Timothy Donovan—Owns a Lot in Georgetown which he rents to the Rev. F. J. McDonald at the yearly rent of £3 10s., and receives the money; but had some time ago executed a deed of conveyance of the Lot to his children, who were then and still are minors.

Angus McDonald—Resides on Lot 55; owns eight acres of land on Cardigan Point; has a grant of it from Government; his brother holds the land as a tenant at will under Angus McDonald, which possession he has held for the past twenty-four years, always paying the taxes, being the stipulated rent, in his brother Angus McDonald's name.

Deniel McDonald—Has been hired in Georgetown for the last two years, with the exception of a few months that he stayed in his father's house at Launching; but a considerable portion of his time has been spent at sea, sailing for Capt. John McDonald of Georgetown; about half of the past winter has been spent at Launching Place, where he holds some property.

Michael Campion—The property on which Michael Campion was supposed to qualify formerly belonged to the late John Campion, his father, who made a will in which no devise to Michael Campion appeared, and there is no record of a conveyance to him; but subsequently to the death of John Campion, Michael Campion purchased two pasture lots from him, and put Thomas Byrne, of Georgetown, in possession of them, who has ever since held them under Michael Campion.

Joseph Ball—Purchased a pasture lot some two years ago; paid the instalments according to agreement; and has subsequently got a deed of it.

John Ball—The evidence in this case is precisely the same as in the preceding one.

Augustine McDonald—Purchased a Lot from Government some two years ago, paid the instalments, and has made some improvements on it.

Mr. Augustine McDonald includes in his qualification a share in the property of A. A. McDonald, Esq., which Mr. McDonald was going to prove he had, when Mr. McAulay objected to receiving any evidence on that part of his qualification, thereby in conformity with the seventieth section of the Election Law, Mr. McDonald's vote remains unimpugned on that part of his qualification.

John Sanfey, James Sanfey, and Edmund Kane—The evidence on each of these votes was nearly the same—that the parties had purchased each a Lot at Government sale—paid the first instalments—and had given the Lots to John B. Howlett in charge for the purchasers, who has made some improvements thereon.

Donald A. McPhee—The evidence in this case proved that Donald A. McPhee is the actual and undisputed owner of the Lot on which he voted, and has been so for two or three years past. This is one of those voters against whom the Grand Jury made a presentment for perjury last summer.

Daniel Johnston—The evidence in this case clearly proved that Daniel Johnston was born in January, 1839, and was therefore only twenty years and three months of age last March.

Alexander Robertson—The father and mother of this boy positively swore that he was born on the 1st of September, 1838, and produced a record to show the entry of his birth, which was proved to have been made on the day on which he was born.

Dougald McLeod—This person came to Georgetown about ten months before the last election, and has since lived in Georgetown as an apprentice; he voted on the Statute Labour qualification.

The first fifteen were polled for A. A. McDonald, Esq., and the last three for Messrs. Haviland and McAulay. It is, therefore, evident that if Mr. McDonald meets with any thing approaching to justice, the result of the Scrutiny will be to leave Mr. McDonald as far, if not farther ahead of McAulay than when returned by the Sheriff.

The Scrutiny was supposed to have terminated on Mr. McAulay's part on Friday evening.

Since writing the above, we have heard that the Scrutiny at Georgetown has not yet terminated, and that the vote of Mr. Wellington Nelson, in favour of Haviland and McAulay, having been taken up on Saturday, it was proved that the property on which he qualified still remains in the hands of the Government.

We understand that Mr. Owen, either through bad advice or bad motives, has served the Sheriff of King's County with a writ for certain wrongs alleged to have been done by that officer to the said Thomas Owen, because he could not be induced to violate his oath, and return a member as duly elected who had not the majority of votes. We have no doubt but Mr. Owen would be very willing to transfer two hundred pounds from the Sheriff's pocket to his own, but

we think that he will be too wise to take a case into Court which he must be well aware would only result in the acquittal of the Sheriff, and the loss to Mr. Owen of about twenty-five pounds in the shape of Court expenses. Mr. Underhay has been about forty years in this Island; and we believe during that time, although continually giving and receiving credit, has never been into either the Supreme Court or a Small Debt Court, as a plaintiff or defendant; and Mr. Owen, no doubt aware of this fact, thought to intimidate him with the prospect of a prosecution, and thereby induce him not to return Mr. Walker on his writ.

ELECTION IN THE THIRD DISTRICT OF KING'S COUNTY.

We are glad to be able to inform our readers at a distance, that the investigation in the Third District of King's County resulted in the return of Ronald Walker, Esq. Some of the circumstances connected with Mr. Owen's demand for a general scrutiny, which he afterwards abandoned, are clearly and ably set forth by a correspondent in this day's paper, who witnessed the whole proceedings, and whose testimony is of the most reliable character. Never did a set of men place themselves in a more unenviable position by their blunders, their obstinacy, and their intense partizanship, than those who appeared as Mr. Owen's friends at the Sheriff's Court.

GOOD NEWS FOR THE TORIES.

It will be a source of intense gratification to the anxious expectants of Office in the Tory ranks to learn that the members of Government tendered to His Excellency this afternoon (Monday) their resignations of their seats in Council and their several offices. It will be amusing to witness the scrambling for office that will take place for the next week or two. Liberals, we presume, will be treated with the negative respect of no longer being stigmatized as Snatchers.

THE WEATHER, &c.

The harbour is now nearly clear of ice, and there is every indication of an early summer. It was only reasonable to expect this favourable change, as the winter last fall commenced a month earlier than the usual time. A correspondent in the Monitor affects to think that our climate has undergone a change for the better since the Tory party have got a bare majority of two over the Government, because, he says, the robins are singing in the bush, and the fields are bare: so, according to this theory, in whatever country we shall find a soft and genial climate, we may expect to see the Government conducted on Tory principles, and to the infinite joy of the people; such, for instance as the republics of South America, where the fields are without a covering of snow all the year round; or the Italian States, papal as well as non-papal—not excepting the Two Sicilies, where King Bomba exercises his mild sway.—or France, where Napoleon demonstrates the beauties of Imperial rule by shooting down the Parisians whenever he wants to accomplish a coup d'etat; or sunny Spain, where the denizens of a happy clime can improvise a revolution every twenty-four hours. We shall be promised, no doubt, as a consequence of the accession of the Tories, that there will be no weevil in the wheat the ensuing summer—not rot in the potatoes, and abundant crops of everything. Friday last was the day on which the Tories expected to get the Government of this Island. The fields were all covered with snow on that day, and not a robin was to be seen or heard for hundreds of miles. Of course we shall be told that if the Tories had not been humbugged, and made April fools, the day would have been a mild and pleasant one.

Having lately, at the request of a gentleman from the country, who was desirous of procuring a Tombstone, accompanied him to the establishment of Mr. John Cairns, Marble-worker, we were surprised and pleased at observing the superior nature of the workmanship, and the excellent quality of the materials used by Mr. Cairns. The marble and other stones are unsurpassed by any we have ever seen, and it is but justice to the proprietor to state that the workmanship was in every respect worthy of the articles on which it was bestowed. All the work is performed by Mr. Cairns himself, and we confidently recommend him to the patronage of the public, who will find his charges very moderate, as he is at no expense for agents or assistants in carrying on his business. His advertisement appears in another column.

ARRIVAL OF THE ENGLISH MAIL.

The English Mail, with dates to the 12th inst., arrived here this day (Monday) at about 11 o'clock. Much of the intelligence received has been anticipated by telegrams previously published, but the following extracts will nevertheless be found interesting.

THE BOMBAY MAIL.

CLOSE OF THE CAMPAIGN—SUPPRESSION OF THE REBELLION—SUBMISSION OF THE NAWAB OF BARRUCKABAD—ILLNESS OF LORD CLYDE.

A general order from the Governor-General contains these words:—"Lord Clyde announces that the campaign in which the troops under his immediate command have been engaged is closed, and that rebellion no longer exists in Oude."

Sir Jung Bahadur is stated to have issued a proclamation to the effect that he will surrender to the British Government all insurgents found within his territory. The Begum and several other chiefs have escaped into Nepal.

Sir Hugh Rose is making active preparations for finally subduing the Rohillas.

The Nawab of Barruckabad arrived at Futtyghur on the 28th ultimo, as a prisoner, having given himself up to Major Bruce, of the Oude police.

INDIA OFFICE TELEGRAM.

A private telegram from Lucknow states that the Nepaulese have applied for British troops to enter Nepal, and that Hursford's brigade has accordingly been pushed across the Riptee. Lord Clyde is indisposed, and proceeds to Simla for the season.

Tantia Topce's rear guard was overtaken by the force under Brigadier Holmes, at Seekur, on the 21st of January. The rebel loss was 100 killed, besides a number of horses and 500 stand of arms. Tantia Topce was making for Beekaner or Jundhpore on the 26th of January. Intelligence, however, from Ludore of the 6th inst. states that he has turned again north in the direction of Munglowe, in the Shekawtee country. The following were the dispositions of the forces in pursuit on the 1st inst.:—Brigadier Honner, at Amjeer; Brigadier Parke, at Nusserabad; Brigadier Holmes, at Beeiwara; Brigadier Showers, at Seekur; and General Michel, moving on Nusserabad. The Delhi columns have also taken the field.

PRUSSIA ON THE THREATENED CRISIS.

In the sitting of the Chamber of Deputies, at Berlin, on Wednesday, the Minister of Finance stated that the law prohibiting the exportation of horses over the Zollverein frontiers would come in force the next day.

The Minister for Foreign Affairs gave a description of the present state of political affairs. The following is an abstract of his speech:—The Prussian Government does not for one moment doubt that it will be able in concert with England to procure due respect to existing treaties. England and Prussia are in this favourable position, that they are able to place themselves with impartiality between the two antagonistic Powers, Austria and France. Up to the present time there has been only moderate hope of success; but the grounds for hope have increased within the last few days.

The Ministerial speech lays peculiar stress upon Prussia's mission in Germany, and says that the future will prove Prussia still to be the Prussia of former times. The President, M. de Scherwin, announced the full assent of the Chamber to the sentiments which had been expressed, and especially pointed out the national importance of the Ministerial policy. The Chamber gave expression to its approval by loud and continued applause.

WARLIKE PREPARATIONS.

It is currently reported (states the Malta Times) that orders have been received from England to place the island in a state of defence. It is said that this will involve the immediate removal of the Lower Barracca, where it has been temporarily located.

The Independence Belge mentions the continued arrival from France of a number of details, proving that preparations for a campaign are being pursued with extreme care and activity. The most important (continues that journal), if confirmed, would be the conclusion of a contract between the French Government and the Victor-Emmanuel Railway Company, for the conveyance of troops into Italy by Mont Cenis. We do not guarantee the existence of this convention, but the report is current, and appears to have gained sufficient credit to have occupied the attention of the Swiss Federal Council.

Military preparations are incessantly pushed forward in the Lombardo-Venetian Kingdom. There is great activity on the fortified enceinte of Verona, and on the fortifications of Venice and the Adriatic coast. The mouths of the Po are also being fortified. Towards the end of last week, convoys of artillery and ammunition were despatched to Trieste and Venice by the Southern Railway. The new fortifications at the latter port are entirely armed with cannon of the largest calibre, so as to render approach impossible to an enemy's vessels, as they would have to pass through a terrific cross fire that would infallibly annihilate them. It is reported in military circles that the Emperor is expected almost immediately at Treste and Verona. Lieut-Field Marshal de Schiittel has announced this probability to Count Glay.

The Brussels Nord states that the Papal Government has already taken measures for organising an army of 20,000 Swiss. The Paris correspondent of the Independence Belge reports on the same subject:—It is affirmed that a negotiation is on the eve of being brought to a successful conclusion between Queen Christina and the Pope, for Spain to place at his disposal two regiments of infantry and one of artillery, to be paid by him. It is also stated that a regiment of Swiss Catholics is to be raised for the Pope. But before these plans can be realised, the evacuation of the Papal States by Austria and France must be effected. The native Roman army consists of about 15,000 men.

AUSTRIAN ITALY.

At Milan arrests continue to take place; discontent is general; and complete stagnation prevails in business of every kind. At Pavia a daily-increasing activity is exhibited in fortifying the place.—Between the 10th and 15th of this month the batteries will be finished. They will be mounted with guns of the heaviest calibre, which are being brought up from Milan, Mantua, and Verona. The Opinions of Turin states that Pavia is destined to be the centre of a large portion of the army of operation.

Davis's Pain Killer.—From the reports of dealers in this city, we think no proprietary medicine has had a larger sale. Its valuable properties, as a speedy cure for pain, cannot fail to be generally appreciated, and no family should be without it in case of accident, or sudden attack of dysentery, diarrhoea, cholera morbus, or Asiatic cholera.—Montreal Transcript.

SERVED HIM RIGHT.—Simonds, of St. Louis, who made and sold a counterfeit of Ayer's Cherry Pectoral, has been placed within the narrow limits that should catch all scoundrels. Imprisonment, though it be for years, can scarcely punish enough the heartless villain who could execute such an imposition upon the sick. The wicked rascal who for paltry gain could thus trifle with the health and life of his fellow man—take from his lips the cup of hope while sinking, and substitute an utter delusion and cheat, would falter at no crime, and should be spared no punishment. Some of his trash is still extant in the West, and purchasers should be wary of whom they buy.—Gazette, Utica, N. Y.

CATHOLIC YOUNG MEN'S LITERARY INSTITUTE. On Thursday evening next, Mr. Thomas Hynes will lecture.—Subject, "Mary Queen of Scots."

MECHANICS' INSTITUTE. This (Tuesday) evening Thomas Leeming, Esq., will lecture on "The Chemical Properties of the Atmosphere," illustrated with a number of experiments. The public are respectfully invited to attend.

Married, On the 29th ult., by the Rev. Herbert Read, at the residence of the Bride's father, Mr. Harold Craswell, Deputy Sheriff of Prince County, to Margaret Hetherington, third daughter of Mr. Robert Walker, of New Annap.

Widow, At St. John's, Nfld., on the 23d Feb. last, Susanah, the beloved wife of J. C. Withers, Esq., Queen's Printer, in the 42d year of her age, leaving a disconsolate husband and affectionate family to lament their irreparable loss. Mr. Withers is a brother-in-law to W. Underhay, Esq., the present Sheriff of King's County.

At Covehead, on the 30th ult., Jane Parrin, widow of the late Mr. William Cass, aged 73 years.

Holloway's Ointment and Pills.—Wonderful cures of scalds, stiff joints, paralysis of the limbs, and other crippling diseases of the bones, sinews and muscles, have been accomplished by a brisk and regular use of Holloway's Ointment. It is the only laxative which produces any impression on these fearful complaints. The Pills also do wonders. Why should any human being suffer from these maladies, when the means of immediate relief are to be found in every city and town in the universe.

FROM THE PRESS. Mr. John Jackson, publisher of the Galois Advertiser, writes: I know it to be all it is recommended; having used it in my family for six or seven years.

Every mother and housekeeper must often act as a family physician in the numerous illnesses and accidents that occur among children and servants. For many of these cases, Davis's Pain Killer is an indispensable article. In diarrhea it has been used and effected cures. For cuts and bruises it is invaluable.—N. Y. Examiner.

Perry Davis's Pain Killer.—This medicine has become an article of commerce—a thing no medicine ever became before. Pain Killer is as much an item in every table of goods sent to country merchants as Tea, Coffee, or Sugar. This fact speaks volumes in its favor.—Glens Falls Messenger.

Davis's Vegetable Pain Killer.—Notwithstanding the many imitations of this article, and many other medicines in the market, pretending to answer the same purpose, yet the sale of Perry Davis's Vegetable Pain Killer is more than the whole of them put together. It is one of the few articles that are just what they pretend to be. Try it.—Erwin Telegraph.
