ST. PETERS BREAKWATER.

BELOW will be found the report of J. Edward Boyd, Esq., on the feasibility of making an addition to the St. Peter's Breakwater. We are very much pleased to see that the report is favorable. A glance at the map will shew of what importance a good harbor at St Peter's would be to the inhabitants of a large section of King's County. We do not at all wonder that the people in the neighborhood of the Bay are, as the *Herald* states, willing largely to supplement a Government grant by gratuitous labor. We think that a portion of the public money could not be better spent than in deepening and in making more safe the harbors on the North side of the Island. We hope that the day is not far distant when a regular system of harbor improvement will be initiated by our Government. Our harbors are to us what railroads are to the people of other countries, and the money judiciously spent in improving them, helps more than any other way in which it can be expended to develope the resources of our country.

SAINT JOHN, N. B.,
14th August, 1868.

Hon. G. Coles, Colonial Secretary, P. E. I.

SIR,—I have the honor to submit the following Report on St. Peters Harbor:

The same evil exists here as at all the harbors on this North Coast. The entrance is obstructed by sand and bars, which are formed by the joint action of storms and the flood tides, and which the force of the ebb tide is insufficient to sweep away.

The navigation has already been much improved by the construction of a Breakwater of brush and stone 600 feet in length, which, by narrowing the channel, has produced a scour powerful enough to keep the mouth of the Harbor, to a great extent, clear of sand.

The site of this work has been most judiciously chosen; it is well built, and seems to have answered its purpose very effectively.

All I can suggest is the addition of about 200 feet of similar construction, and the finishing with a block 40 feet by 80 feet. This addiditional length should have a cant of one foot in four, seawards, from the line of the present work. (See sketch.) The cost of this completion will not exceed £600 currency.

I have the honor to be Sir,
Your obedient servant,
J. EDW. BOYD,
M. Inst. C. E.

ST. DUNSTAN'S COLLEGE TEA PARTY.

THIS social gathering was held on Wednesday last. The preparations were all that could be expected, the Tea was splendid, and the tables groaned under the weight of the choicest POUND CAKE, and other first rate eatables. Too much praise cannot be given to the Ladies who presided at the tables. A goodly number of persons were in attendance; but a damper was thrown on the Party, caused partly by the gloomy aspect of the morning, but particularly by the Grand Banquet given in the City, on the same day and hour, to General Butler and the gentlemen accompanying him. A great mistake was committed in having the Banquet and Tea Party at the same time; but we believe that the Committee of Management for the Banquet did not make their arrangements from any malicious motives. The fact, however, cannot be denied that there exists a good deal of displeasure at the result. We are glad to perceive that a FINALE to the Tea Party is to take place in the MARKET HALL on WEDNESDAY next, when, we hope, the mistakes of previous arrangements will be more than amply rectified. We beg, therefore, to call special attention to the GRAND AMATEUR CONCERT and CAKE BAZAAR advertized in another column.

HON. MR. BEER'S WINTER WHEAT.

The land—two acres—was seeded down for hay some eight years since. It was mowed four times, after which it was in pasture some years. After ploughing in August, 1867, it was manured with about thirty barrels of slack lime, and thirty loads of compost manure, per acre. Mr. Beer estimates the expenses of lime, manure, seed grain, and labor (including harvesting, threshing, &c.,) at £12 per acre, or, for the two acres, £24. The Product was forty-six bushels of clean wheat, and about three tons of straw. The wheat is nearly all sold at 17s. 6d. per bushel. The whole may be stated thus:—

	£	s.	d.
46 bushels wheat at 17s. 6d.	£40	5	0
3 tons straw at 30s.	4	10	0
	£44	15	0
Expenses of cultivation,	£24	0	0
Balance Profit,	£20	15	0

Mr. Beer estimates that the wheat on one quarter of an acre was winter killed, otherwise the product would have been greater. He is also of opinion that if the land had been previously manured with mussel mud, the lime would not have been needed, thereby reducing the cost of cultivation £3 per acre. The land on which the wheat was grown having been seeded down for hay, will, in all probability, during the next three years, return the expense of lime and manure, over and above what it would have been worth in pasture, so that we think the experiment was decidedly successful. It was harvested in time to be threshed out on the 15th day of August. —*Pat.*

THE Rev. Thomas Duncan, of St. James' Church, in this city, returned to the Island, by the last steamer from England, after an absence of four months in his native country.

THE Steamer, *St Lawrence*, will leave St. John, N. B., for this port on or about the 21st inst., for Freight, apply at the Office of the Steam Navigation Company in this City.—*Isl.*

CAUTION TO NEWSPAPERS.—The Ottawa *Citizen* of August 28th, contains a notice, "CAUTION TO NEWSPAPERS," in which he complains of a "Yankee Patent Pill Vendor, signing himself Jos. HAYDOCK," who resides at No. 11, Pine Street, New York. Some three months since we had a letter from "Jos," and entered into a contract to advertize for one year, payable quarterly, at the expiration of the time the account was sent, but no notice was taken of it by Haydock. We have since discovered that Wm. R. Watson's name has been made use of as Agent here without his consent. Under the circumstances we feel in duty bound to pass the "*swindler*" round.

☞ WE understand that Josiah MacLeod, Esq., of Washington, U. S., will deliver a humorous lecture in the Temperance Hall in this Town, on Thursday evening next. Mr. McLeod read this lecture in Washington where it elicited the applause of a numerous and fastidious audience, and was very favorably noticed by the press of that city.

"So calmly wafts the gentle breeze,
With odors freighted, rich and rare,
When moves the winds o'er Ceylon's seas."

Ceylon has been made tributary to the proprietors of "Ring's Ambrosia," and furnishes one of the choice perfumes which make that *genuine* Hair Restorative so popular. All Hair Restoratives need a good perfume, but we think the proprietors of Ring's have been peculiarly fortunate in the selection of theirs.

Edward Bayer Esq., Horton, King's Co., N. S. writes, that an astonishing cure has been affected on his daughter, by the use of "Johnson's Anodyne Liniment." The whole spine became diseased, she lost the use of her limbs, and her back rounded up like a bow, in consequence of taking cold after having been inoculated for the kine pock. She is now well.

Holloway's Ointment and Pills.—Bad Legs.—Any unnatural discharge from the skin is at all times disagreeable, but in hot weather it becomes irritating—sometimes offensive. Bad legs, old wounds, scrofula, and scorbutic eruptions are cooled, soothed, and cured by Holloway's Ointment. It at once arrests all diseases of the surface by purifying and regulating the circulation in their neighborhood, by giving energy to the nerves of the affected part, and by expelling all poisonous and noxious matters. It ejects the seeds of all virulent eruptions and ulcerations, and thus confers no partial or temporary boon, but a complete and permanent cure. By the means of these remedies all sufferers may aim at attaining health, and will invariably succeed.

The trial of Whelan and the other prisoners accused of the murder of the Hon. T. D. McGee will take place at Ottawa this week. The Assizes at which the trial will be held, open today, but the trial will probably not begin before Friday. Chief Justice Richards will preside. The case for the Crown will be conducted by Mr. O'Rielly, of Kingston. Mr. O'Farrell, of Quebec, has charge of the arrangements for the defence of the prisoners, and has retained Messrs Kenneth McKenzie, J. H. Cameron, and W. C. Cameron to conduct the case.—*St John News, Sept 2.*

Very Latest Despatches.

London, 2, p. m.

The French Minister of Finance, at a banquet given him yesterday at his country residence, declared that peace would continue because Europe needed and the Emperor desired it. France was strong enough to preserve peace, and it was no one's interest now to break it. This declaration of the Minister was received with most enthusiastic applause.

All the men arrested on suspicion of taking part in the Tipperary disturbances have been discharged, no evidence having been elicited sufficient for their further detention. Mr. Scully is suffering severely from his injuries and his physicians report that his condition is growing worse.

London, Sept. 3, eve.

London papers are discussing the treaty between the United States and China. The *Times* regards it with suspicion. The *Standard*, on the contrary, sees nothing in the treaty to show that the United States have acquired a monopoly of privileges.

The contractors who built the Metropolitan Underground Railroad in this City have made a provisional offer to construct the proposed underground road in N. York City, and to furnish all the capital required for the road which the projectors fail to obtain at home. Saturday, the 5th September, will be observed as a holiday, and the Stock exchange in this city will be closed.

Liverpool, 4. p. m.

The annual feast of the cutlers at Sheffield occurred yesterday, Hon. Reverdy Johnson, who was present, made an address in response to a toast to the health of the American Minister. After expressing thanks for the honor conferred upon him, he said he came to the country as a messenger of peace. He was glad to recognize everywhere in England strong proofs of friendship and which he was certain were reciprocated in his native country. For no people under the sun had America more friendly feelings for than Her Majesty's subjects. They were really one people, had like laws and like institutions, and in both countries freedom was the base of those laws and institutions, and in their joint hands liberty would live forever.

ANOTHER NEW INVENTION!—Messrs. Stone & Bovyer have on exhibition, at their Hardware Store, Queen Street, the celebrated EUREKA WASHING MACHINE. This Machine has attracted the attention of the people of Nova Scotia, where hundreds have been sold, and it has given, in every instance, entire satisfaction to the purchaser. It is simple in its construction, and will wash any description of clothing from a lace collar to a bed-quilt. Go and see it.

We have not yet learned what steps the Government have taken towards its purchase.

We deeply regret to record this morning, the death of THOMAS KENNY, Esq., brother of the Hon. E KENNY. The deceased gentleman was one of our oldest merchants. Of a kindly disposition, the poor found in him a generous friend, and in his death they have lost a benefactor. As a citizen he took a deep interest in everything that tended to the advancement of the metropolis. Nor were his endeavors to be useful confined to the limits of the city. In the affairs of the province he always took an active part, and was ever ready, either by the devotion of his time or the expenditure of his means, to aid in the development of its resources.—*Halifax Colonist.*

BOSTONITE. This is the name given to a new material manufactured by Messrs. Perry & Co. of London, into Tablets, Slates, Memorandum Books, Diaries, &c., and is an excellent cheap substitute for Ivory in the above named articles, as writing with a lead or colored pencil is easily erased with moisture. Messrs P. & Co. are also manufacturers and patentees of an almost endless variety of useful articles in the Stationery and Fancy Goods line. A very nice assortment of their Goods is on sale at Mrs. Bremner's Book and Stationery Store in Prince Street.

CHOLERA.
HOW TO CURE IT.

AT the commencement of the diarrhœa, which always precedes an attack of the Cholera, take a teaspoonful of the PAIN KILLER in Sugar and Water, (warm if convenient,) and then bathe freely the stomach and bowels with the Pain Killer clear. Should the diarrhœa or cramps continue, repeat the dose every ten or fifteen minutes till the patient is relieved. In extreme cases, two or more teaspoonfuls may be given at a dose.

The Pain Killer, as an internal remedy has no equal. In cases of Cholera, Summer Complaints, Dyspepsia, Dysentery, Asthma, it cures in one night, by taking it internally, and bathing with it freely. Its action is like magic, when externally applied to bad Sores, Burns, Scalds and Sprains. For Sick Headache and Toothache, don't fail to try it. In short, it is a Pain Killer.

The Pain Killer is sold by all Dealers in Family Medicines.
