PROVINCIAL LEGISLATURE.

(Continued from page 2.)

At the afternoon session, on motion of Mr. Rogers, an act to alter and amend the act of incorporation of the Masonic Temple Company was read a third time and passed.

On motion of Hon. Mr. Farquharson the House went into committee with Mr. Forbes in the chair for the consideration of the act amending an act authorizing the construction of a building to be used as a Prince of Wales College and Normal School. For the purpose of completing said building, and to equip, heat and light the same, the bill authorizes the Government to issue debentures for \$17,000 in addition to the \$18,000 previously authorized to be raised for that purpose, the debentures to bear interest at a rate not to exceed 4 p. c. per annum, and to run for a period of thirty years.

The bill was discussed by Messrs. Farquharson, Campbell, Shaw, McLean and McLaughlin in the order named. The history of the transaction was reviewed and the various plans and tenders analyzed. It was shown by the opposition that the contract for the erection of the college was let privately for \$28,000 upon a plan which was almost identical with one in accordance with which a tender for \$18,000 had been received. This was a clear loss of \$10,000 to the country. Last year debentures for the work, amounting to 18,000, were issued, of which sum \$10,000 had been used as ordinary revenue. Now the Government was asking for another issue of debentures amounting to \$17,000. Adding the cost of heating, plumbing, etc., they had the admission of the Leader of the Government that the total expenditure on the new building would be \$5,000. The affair had every appearance of a job, and the opposition would not endorse the transaction.

The clauses in the bill were adopted, and the House divided as follows on the motion to adopt the report of the chairman that the bill had been agreed to:—

Ayes.—Farquharson, McDonald, McLean, McMillan, McLaughlin, McNair, Rogers, Sinclair, Richards, D. A. McKinnon, Reid, A. Peters, Forbes, 13.

Nays.—Gordon, Shaw, A. J. Macdonald, J. A. Macdonald, Arsenault, McKinnon, DesRoches, Campbell, Birch, Kickham, 10.

The bill was set down for third reading to-morrow.

On motion of Hon. H. C. MacDonald the House went into committee on the act to amend the act 61st Victoria chapter 3. The amendment provides that an action for debt cannot be entered in the courts for goods sold by commercial men unless it is first shown that the traveller has procured the usual license to solicit or sell. But the section as amended is not to apply to or affect any bona fide endorsee of a promissory note, bill of exchange, or other security given or taken in payment of the price of goods sold. The bill was reported agreed to in committee and set down for third reading to-morrow.

At the evening session, the House resumed committee on the bill relating to the care of idiots, lunatics and persons of unsound mind, and their property and estates, Mr. Forbes taking the chair. The bill was reported agreed to. Third reading to-morrow.

On motion of Hon. Mr. Macdonald the bill regarding water was read a second time in committee, Mr. Reid filling the chair. Reported agreed to. Third reading to-morrow.

On motion of Hon. Mr. Farquharson the act incorporating the Prince Edward Island Dairy Association was read a third time and passed.

Hon. Mr. Farquharson moved the House into committee on the act to impose

certain taxes on certain incorporated companies and associations. The bill, he explained, provides for levying taxes as follows:

1. Upon all companies accepting risks and carrying on the business of insurance against fire in the province whose principal office or organization is within the province, the sum of fifty dollars each.

2. Upon all companies doing business within the province manufacturing or supplying gas or electricity for lighting, heating or motive purposes, the sum of one hundred dollars each.

3. Upon all companies carrying on the business of common carriers for the transportation of freight and passengers by means of steamships, whose head office or organization is within the province, the sum of one hundred dollars each.

4. Upon all express companies doing business within the province whose principal office or organization is not within the province, the sum of one hundred dollars each.

5. Upon all companies carrying on the business of brewers or distillers within the province whether their head office or organization is in this province or not, the sum of four hundred dollars each.

Mr. Campbell thought the clause taxing breweries was the thin edge of the wedge relative to obtaining a revenue out of liquor. Is it a fact, he added, that if this clause is passed the brewery can take out a license for \$50 from the Dominion and carry on business in defiance of the government? He thought the government would not make much out of the brewery. Besides, if the brewery should be removed from the province the place would be short the amount paid for taxes, water and wages, which meant a good deal to the city, while the beer would be sent here as usual. He did not think it would be wrong to tax bicycle agents and foreign manufacturers selling machinery and such goods in this province. He thought it was unfair to tax a small company like the one owning the Electric the same as a wealthy corporation like the Navigation Company.

Hon. Mr. Gordon believed that there should be some distinction made between large and small steamship companies. The taxes on electric companies and express companies was a matter for the city members to take into their serious consideration. He did not think that much would be got out of the tax on breweries, as he had been told that if the tax were imposed the brewer would be removed to Halifax, from which place the beer would be shipped here. He understood the brewing company were now paying \$180 in taxes, \$100 for water and about \$80 a week for wages.

Hon. Mr. Farquharson said he had good reason to believe that the brewery would not be removed from the province. He heard that one of this class of agents boasted that he sold \$40,000 worth of beer on the Island last year. There are 28 or 30 agents coming here selling liquor or beer, and he proposed to get at them in another bill. They recognized that the tax on steamers was not as fair as it might be, but there was no shorter roll out of the difficulty. They did not care to pass a law to pry into peoples' affairs in order to ascertain the extent of the business they were doing. The tax was small.

Mr. Birch also objected to the tax on steamers, which he claimed was unfair and out of proportion. He thought the tax on express companies might lead to their withdrawal from the province, as they were not doing very much business here. He congratulated the Montagu Electric (Continued on page 8.)

THE VEAL CASE DISPOSED OF.—The prosecution instituted against George Lund and James Rankin, for selling and exposing for sale a carcass of veal on the Market Square which the prosecutor claimed was unfit for human food, was this morning disposed of by the Stipendiary Magistrate. He dismissed the information, holding that the defendant, George Lund, was not a party to the sale of the meat, and that the younger man, Rankin, although he sold the veal did not know at the time that it was unfit for food. Two drunks were also disposed of this morning, one being fined \$2 or 10 days, and the other \$5 or 30 days. Patrick Quinn, reported Monday as being fined for drunkenness, was not the Patrick Quinn formerly employed by Mr. Duchemin and now by Mr. Egan.
