

THE DAILY EXAMINER

NOVEMBER 4, 1895.

THE PARK ROADWAY

The tone of the Patriot in respect to this matter is, we think, to be deprecated. This is a matter in which moderate and reasonable counsels ought to prevail, and in which a moderate and reasonable course should be pursued.

should be favorable to the citizen's contention) he can very easily do as he has done with the squatters, take its title away without regard to the Ottawa judgment.

THE TARIFF AND OUR FARMERS

The Patriot says that it agrees with the Farmers' Sun in much that it says against "the Protectionist tariff." It would have the public believe that whoever else the tariff places at an advantage is the home market, it doesn't help the farmers. Now, let us see. The following duties are imposed upon articles the growth of the farmers of foreign countries who are in competition with the farmers of Canada, and who are ready to send these articles into the Canadian markets:

Table listing various agricultural products and their prices, such as Animals, live, n. e., 20 p. c.; Meats, n. e., in barrel, 20 p. c.; Wheat, per bushel, 15 p. c.; etc.

But in what particular is the Lieutenant Governor's conduct "indefensible"? Certainly the Lieutenant Governor is not to be justly blamed because he stopped the City Council committee from taking possession of part of Government House Farm upon grounds which the Attorney-General and the whole of our Supreme Court judges declare to be legally good.

The legality of the city's claim to the property had of necessity to be established before the Lieut. Governor could recognize it. Hence the appeal to the judges. A mistake was evidently made in having the citizens case tied down to such facts and statements as suited the Attorney-General to agree to; for it is just possible that in settling the case he was able to get in "some fine work" against the interests of the city.

Will the farmers of Prince Edward Island vote to wipe away "every vestige" of this protection? If so, their vote will involve, in addition to the loss of the Maritime Provinces market and whatever revenue is obtained from the importation of farm products into Canada, the imposition of high tariff duties upon coffee, sugar and many other articles of common consumption.

Bulls are going fast. Get your supply. Twenty-five cents' worth free with each dollar's worth of goods purchased at our store—Carter's Bookstore.

DR. PETERSON. The Governor's of McGill University appear to have been most successful in finding a Principal for that institution as a successor to Sir William Dawson. Dr. Peterson has fairly entered on his work and has at once captured the hearts of the students as well as of all others with whom he has come in contact.

"In this issue of the Fortnightly, we wish, on behalf of the students of McGill University, to extend a most hearty welcome to our newly-appointed Principal, Dr. Peterson. It is a matter for congratulation, not only on the part of the students of this University and of those who have the interests of McGill most closely at heart, but also on the part of the general body of the people of Canada, to whom higher education cannot but be of interest, that a man of Dr. Peterson's acknowledged scholarship, energy and tact has been selected to fill this most important position.

The matriculation at the University of Edinburgh from the Royal High School of the same place in the year 1872, and when, in due season, the time for graduation came round, his name headed the list of Honors in Classics. As he was then only eighteen years of age, he was not permitted to receive his degree, but he studied in the meantime for a term in the University of Göttingen, the Alma Mater of Bi-marc, and there made a personal acquaintance with German methods of study and German University life.

In 1891 Dr. Peterson published an edition of the Tenth Book of Quintilian's Institutions Oratoriae, with introductory essays and notes, which has attracted much attention among classical scholars. Besides others, Prof. A. S. Wilkins of Manchester, with whose edition of Horace's Epistles Art students are no doubt familiar, has reviewed it. Nothing could be more gratifying to an editor than his summary: "It is a work of great industry, of sound judgment and a ripe scholarship, a valuable contribution to a department which has been too much neglected by English scholars, and it deserves a hearty and grateful welcome."

Thus, with a career as a student such as few scholars can boast of, with an exceptionally wide and varied knowledge of educational methods in Germany and Great Britain, with thirteen years' experience as Principal of an Old Country University, and with an established reputation as an editor of Classical Literature, we may well feel proud of him who has been chosen to fill the most honorable position in what we students like to term the first of Canadian Universities. We have great pleasure in presenting to our readers with this issue an excellent portrait of Dr. Peterson.

LETTERS TO THE EDITOR.

LETTER FROM PROFESSOR ROBERTSON TO THE DAIRY PATRONS. Sir,—May I beg the courtesy of your columns for this open letter to the cheese factories and creameries of Prince Edward Island. I thank you in anticipation for this additional favor and desire to renew my acknowledgements for the generous assistance which your paper has given to the dairying service and the farmers in our united efforts to promote the well-being of the Province through the successful establishment and extension of cooperative dairying.

To the Patrons of the Cheese Factories and Creameries of P. E. Island. LADIES AND GENTLEMEN,—I have examined carefully a large part of the cheese manufactured during the season of 1895. The "local flavor" in local cheese has not been kept perfectly clean. This flavor complained of is not the "local flavor" peculiar to Prince Edward Island cheese which has been talked of in language unfair to the Island by a few noisy but unimportant and ignorant persons elsewhere. The "local flavor" in local cheese and butter, peculiar to P. E. Island, is not only agreeable to the taste. In my opinion, when it is fairly recognized in the markets, it will give additional value to your dairy products.

I am gratified by the increase in the quantity produced during the summer. At current market prices, the value of the output of cheese from the 28 factories is estimated at \$157,000.00, and the value of the butter from the two creameries at \$11,000.00.

By the increase in the quantity of milk supplied, the revenue from the manufacturing charge of 1 1/2 cents per pound of cheese, and 3/4 cents per pound of butter, will be almost, if not wholly, sufficient to pay all expenses of operation and management. This, I am sure, will be gratifying to you. I have not yet sold the cheese. The butter has been sold at prices from 18 to 20c. per lb. With the improvement regarding the market prices, the value of the output of cheese which will be satisfactory to you. Need I say that I would be glad to escape from the wearing responsibility of being salesman for the products belonging to the patrons? I am sure that I shall do the best I can for your interests.

A large quantity of milk will be available for the making of butter after the close of the cheese-making season. It would be a mistake to excuse me not to turn it to the most profitable use. There is an active demand for fresh-made creamery butter for export at from 22 to 23 cents per pound here, and I think the market is not likely to advance much to decline. I think \$25,000 worth of creamery butter can be made and sold from P. E. Island during the coming winter.

The dairying companies at the factories at Verena, River Bridge, Kensington and the Dunk River are putting in centrifugal cream separators for the service of their patrons and others. A cream separator will be run also at New Perth factory. After the end of November the creameries at Capraud and Tryon are to be taken charge of by the companies owning them. Doubtless one or both of them will be kept open to receive milk all winter.

A cream separator will be run and butter will be made during the winter at the warehouse occupied by the Dairying Service in Charlottetown. Patrons may deliver milk at all the places where cream separators are to be run, or three times a week. Notice will be given of the days and times. The skim milk can be carried home in the same cans in which the whole milk is brought. The detention of the milk drawer at the factory need not be more than a quarter to half an hour.

For a charge of 2 1/2 cents per lb. of butter, I shall meet all expenses of (1) separating the cream, (2) conveying the cream to the central butter factory, (3) making the butter, (4) providing packages, (5) marketing the butter, and (6) keeping the accounts. The butter-milk will be sold or returned to the patrons. The whole of the net proceeds from sales of butter and milk-cream—after deducting the manufacturing charge of 3 1/2 cents per lb.—will be paid to the patrons in proportion to the quantity of butter-fat, supplied by each.

deserve at least this opportunity at your hands as they grow up. JAS. W. ROBERTSON, Dairy Commissioner, Charlottetown, P. E. I., Nov. 4th, 1895.

TELEGRAPHIC.

MURDERERS CONVICTED. PHILADELPHIA, Nov. 4. Herman W. Madgett, better known as H. H. Holmes, was convicted on Saturday of murder in the first degree for killing Benjamin F. Pitzel, of this city, on Sept. 2nd, 1894. The jury needed but one ballot to reach the decision.

It is rumored that writes for Jacques Cartier, Montreal Centre, Cardwell and Missisquoi will be issued within two weeks, and that elections will take place about the middle of December. A strong effort will be made to induce Sir William Hingston to come out as Conservative candidate in Montreal Centre.

FOOTBALL IN HALIFAX. HALIFAX, Nov. 4. The Wanderers defeated the Service Club on Saturday at football, 18 to 0.

WILL BE HERO ON TIME. NORTH POLE, Nov. 4. GEO. CARTER & CO. Your store is to be my headquarters again. Get more goods than ever, and the nicest and best you can. Have plenty for all the girls and boys. I will be there on time.

GLAD TO HEAR FROM MR. SANTA CLAUS. We have been preparing for him all summer, and such an array of Fancy Goods and Toys as we are getting in never before was seen in Charlottetown. Goods from Germany, Austria, France, Italy, Japan, England, United States and Canada. We are going to please Mr. Santa Claus better than ever this season.

FOR SATURDAY.—Sixty pairs women's felt slippers for 20c. a pair. Fifty pairs women's felt boots, in sizes 3, 4 and 5 for 75c. a pair—about half price. Don't miss this snap at J. B. Macdonald & Co's.

"Many diseases arise from one cause—blood impurity. Beecham's Pills Purify the blood and, thus, go to the root of many maladies."
