JULY 2.—We regret to learn that an act of incendiarism was committed on the Mississkoui frontier on the night of the 28th ult.—The barn of Mr. Holt, about four miles east of Mississkoui Bay was entirely consumed, and it was with the greatest difficulty that the store of Messrs. Holt & Crossett was saved. Other buildings with which the latter was connected were also in great danger. The villains are unknown as yet.

AWFUL EFFECTS OF INTEMPERANCE.—A most horrible accident occurred last week in the County of Two Mountains; a man, while in a state of intoxication, having fallen into a kettle of boiling potash, and been completely dissolved. Search was made for his body, but not the least particle of it could be found. Another awful warning to drunkards.—Canada Times.

TORONTO, June 23.—Of the 24 members of the Legislative Council, 8 are of the established Church of England; 8 are of the Kirk of Scotland; and 8 of the Church of Rome. Its national character stands thus:—1 is English (Mr. Jameson); 4 are Irish; 10 are Scotch; and 9 are Canadians, British and French.—Examiner.

OUR MILITARY DEFENCE.—We have it on good authority that the projected defences of Kingston are about to be immediately commenced on an extensive scale—thus already realizing some of the promises contained in the speech of his Excellency the Governor General at the opening of the present session of Parliament.—Kingston Chronicle.

FREDERICTON, N. B., June 26.—The Wesleyan District Conference closed its sittings in this town, on Thursday evening, the 10th inst. We give, for the information of our readers, the following particulars, with which we have been furnished:

The returns from the various circuits exhibit a clear increase of membership, during the year, of about 500; and several hundreds on trial.—This is nearly double the increase of any former year. The first New Brunswick Conference was held at St. John, in 1827, when there were five regular missionaries and not less than 600 members in all the Societies. There are now 25 missionaries and 3300 members. Since that period, upwards of 30 chapels, some of them large and elegant structures, and Mission Houses in various circuits, have been erected. There are also in course of erection, eight or ten additional chapels, besides the Academy at Sackville, which is the individual and munificent gift of a gentleman belonging to the Methodist Society in that place. Several applications from new places for Missionaries were received, but the resources of the district could not at present supply them.—It is hoped, however, that in a short time the most pressing cases may be attended to. The Rev. Messrs. Busby and Leggett are appointed to Fredericton during the coming year.—Sentinel.

MIRAMICHI, N. B., JULY 6. DEATH OF FRANCIS PEABODY, Esq.—We have to-day the melancholy duty of announcing the death of Francis Peabody, Esq. This bereavement was very sudden, and although he survived to a green old age, his loss will be severely felt by his intimate friends, and universally regretted by the community.

A friend has handed us the following brief sketch of his life:—"In no obituary ever published in Miramichi, has there been a death announced, that has excited such universal sympathy and regret as the death of the venerable Mr. Peabody. This melancholy event took place at his residence in Chatham, on the morning of Sabbath last, and has produced but one feeling in the public mind—that of unfeigned sorrow. The deceased was in the 81st year of his age. He was a native of the United States of America, when British Provinces; was born in the year 1760, and emigrated with his loyal parents to this Province, when he was but a mere child. For nearly the last fifty years of his life he was a resident in Chatham, and, during the greater part of that time, was by far the most extensive and respectable merchant on the banks of the Miramichi. To his liberality and enterprise the town of Chatham, the most populous and important on this side of the Province, owes, in a great measure, its rise and progress, and hence he has long been emphatically called "The Father of the Settlement." He was a man who was universally respected and beloved by the rich and the poor, the young and the old. The character of his mind was such as fitted him for agreeable intercourse with all who had the pleasure and the privilege of his friendship and acquaintance. He was cheerful, modest and unassuming in his disposition. He was simple and unaffected in his manners; simple in his mode of life, and altogether free from ostentation and pride. With these amiable qualities of mind, he possessed in a high degree the rectitude of sterling principle. His dealings with his fellow men were characterized by strict uprightness. Honour and integrity, candour, dignity, and worth were visible in all his actions. The funeral of this venerable man will take place to-morrow afternoon, when the multitude who shall follow his remains to their long home, will present an affecting proof of the high esteem in which he was universally held. Truly "a good name is better than precious ointment."

Some of the conservative papers make the gain of their party more than is above stated, and also reduce the hopes of the ministerialists in other quarters. But the whole is as yet a riddle. Formerly no man believed political partisans during the progress of an election, but now they are scarcely to be believed even when it is closed. Some gain to the conservatives we apprehend will accrue in the Scotch boroughs, but these will most probably be nullified by the returns from the boroughs in Ireland. The Scotch and English counties are expected to be much in their favour, and Sir Robert Peel's majority is very likely to be from sixty to eighty. There have been some riots at Nottingham, Blackburn, Liverpool, Hyde, Stockport, Ashton, Salford, and other places, but nothing very serious has occurred.

The weather since our last has been as favourable to vegetation as could possibly be desired, the temperature having been warm and genial, and frequent and copious showers having fallen in almost every part of the empire. Every species of corn has greatly improved, and there can be no doubt that the crops will be most productive.

The accounts from the manufacturing districts are, upon the whole, more favourable than for some time past. There is yet no advance in the price of goods, but purchases are making from a belief that the lowest point of depression has been reached, which will increase confidence—the certain precursor of enlarged and improved profits.

We have received during the week another Levant mail, with news from India, but none from China. Mehemet Ali has submitted to the terms of the Sultan; and the Sultan, whose health is improving, is beset with a whole labyrinth of difficulties. Insurrections are rising up against him in almost every part of his dominions, and his exchequer is empty. From Spain the accounts are still melancholy; the people are quiet, and that is all. The erection of the fortifications in Paris are proceeding, and the contests with the Algerines continue to absorb much French blood and treasure.

A great many new peers will be made, it is believed, before the present ministry leave office.

The following letter from Joseph Hume, Esq., addressed to the Speaker of the House of Assembly of this Island, has been handed to us, for publication:—

To the Honorable WILLIAM COOPER, Speaker of the House of Assembly, Charlottetown, Prince Edward Island.

SIR; I have had the honour to receive the Petition from the House of Assembly (signed by you, and dated 27th April,) of Prince Edward Island; and, yesterday, I presented it to the House of Commons, stating that my desire was, that it should be printed in the Notes of the House, and that, if I were in the New Parliament, I should, at an early day, call the attention of that House to the Petition, and to the conduct of the Legislative Council.

The present House of Commons will be dissolved next week, and you will soon have the result notified.

I have the honor to remain, Your obedient humble servant, JOSEPH HUME.

A practical Farmer requests us to give publicity to the following well-timed piece of advice:—

BROTHER FARMERS!—Now is your time to draw, or cut down your thistles. Mow your grass lands, which contain those numerous and self-propagating ox-eyed (alias horse) daisies; give the land an immediate, but what is termed a very light skim-ploughing, before the seeds ripen. Harrow it well, and in a couple of weeks, use Irving's Scuffler, and you will, I have no doubt, eradicate them from your fields. Farmers! attend to this, or many of your grass lands will be, if not already, ruined. Before the hay season commences, and while your barns are clear of grain, do not forget to eradicate your rats and mice. Mind the old saying—"A stitich in time saves nine."

MECHANICS' INSTITUTE.—On Monday evening last, the Rev. John Knox delivered a highly interesting and instructive lecture upon Real Education. He divided his important subject into three parts, viz: Physical, Intellectual and Moral Education, and beautifully and succinctly explained the nature of each division. An animated discussion ensued, in the course of which the Honorable the President remarked, that the lecture was so ably written, and so well adapted for the sphere of this Island, that every Schoolmaster ought to have a copy of it in his hands, so as to be enabled to carry its principles into practical operation; and in order that this object might be accomplished, it was unanimously—

Resolved, That Mr. Knox be requested to favor the Committee of the Institute with a copy of his admirable Lecture, for publication, in such a shape as the Committee may deem best.

Mr. Knox having kindly consented to furnish such copy a vote of thanks was passed to him, by acclamation, not only for his lecture, but also for his exertions on behalf of the Institute during his residence in Charlottetown—which was suitably acknowledged by the rev. gentleman.

At a Meeting of the Committee, held on Wednesday evening last, it was resolved that Mr. Knox's lecture be published in a Pamphlet form, and that a copy be forwarded to every Schoolmaster in the Island gratuitously, and that the remaining copies be sold on behalf of the funds of the Institute.

Two votes of thanks were unanimously adopted—one to J. Sidney Dealey, Esq., for his valuable present to the Library, of an Encyclopedia of Arts and Sciences, and the other to Lieut. Colonel Roderick C. Macdonald, of Castle Tioram, for the handsome collection of Marine productions, sent by him from Berrauda, for the Museum of the Institute. It was also determined that a Room should be obtained for the Library and Museum, to be opened daily, and which should also embrace the character of a Reading Room, where gentlemen could spend an hour or two in reading the literature and news of the day—a place of resort very much required in this flourishing town.

May the indefatigable exertions of the conductors of the Institute meet with every success in their highly laudable undertaking!—Com.

TO THE EDITOR OF THE COLONIAL HERALD.

SIR; In last Gazette, I observed a statement made of my having fallen into two errors in my letter to the constituency, published in your paper of the 29th June; the first, as to a Despatch of Lord John Russell, and the second, as to a paragraph in the Earl of Durham's Report. Now, in regard to the Despatch, I have heard it stated that the language of the Despatch will frequently admit of two, and sometimes

of more, interpretations; and New Brunswick and Sir Archibald Campbell, and Nova Scotia and Sir Colin Campbell, may suggest a commentary not to be despised; but let this document speak for itself, so far as it can:—"Having laid before the Queen the Address of the House of Assembly, Her Majesty has commanded me to instruct you to acquaint the House, that she learns with regret that the question of the lands in Prince Edward Island continues to distract the peace of the Colony. Although this question originates in motives of private interest, shared equally by Landlords and Tenants, it assumes, in effect, the character of a public question, and as such must be treated. It is Her Majesty's earnest desire to remove every just cause of complaint, in all parts of her dominions, and Her Majesty has been accordingly pleased to desire me to enter into a communication with the resident Proprietors in this country, with a view to learn whether, by any further proposition on their part, means may be found to determine a question which has, for so long a period, agitated the Colony." This is of date, September, 1840. Now, Sir, from a perusal of this and former Despatches and documents, I concluded that nothing else could be meant than a proposition to sell; and this not in a private manner, but that the whole was to be sanctioned by an Act either of this Legislature or of the Imperial Parliament, as all public questions of this nature have, in former times, been settled. But Mr. Haszard's authority will, I hope, furnish your readers and his own with his interpretation. I believe no one will imagine that Lord John Russell looked for a proposition to let rents and prices remain as they are, and far less to raise them; and that so totally are the proprietary faction at the mercy of the Imperial Government, if it discontinue to shelter them from the law, that said faction would not have dared to give such answer to the Colonial Minister. I have also further to remark, that this proposition of purchase did not originate with the House of Assembly, but appeared in print first in Lord John Russell's Despatch of the 17th September, 1839.

As to the Editor of the Gazette not believing the paragraph as to the claims of the Grantees to be in Lord Durham's Report, all I have to observe is; that if an acquaintance of mine do not soon put that paragraph into your columns, I must try to get hold of it myself, and send it to you. I know that Lord Durham recommends a penal tax; but that does not prove that he did not state what I said he stated, viz: that while in other Colonies the right of the Crown to forfeit the Grants had been barred by long silence, in this Colony no such bar existed, and that the Crown had right to forfeit the Grants; and I again assert that his Report does state that.

I am, Sir, your very obedient servant, ALEXANDER RAE.

YOUTH. The slippery paths of youthful scenes Are full of snares and sin, Which, if not check'd by pious means, Will leave a sting within. Then early learn to give the Lord All homage that is due, By strictly walking in his word-- This only end in view. Thus early train'd for riper years-- A sure foundation laid, That casts our doubts, and dreads, and fears, Into the darkest shade-- So, when the tyrant Death appears, With all his hostile guise, The love of God shall chase our fears, And wait us to the skies.
