THE DAILY EXAMINER.

DECEMBER 23, 1892.

Notes and Comments.

—The net earnings of the Bank of Ottawa in the past year amounted to 13¾ per cent. of its paid up capital. The Bank's rest has reached the figure of $767,549, or about 53 per cent. on the capital. Contrast the position of our banks now with that of the days just before the National Policy! It is evident that the country is not going to ruin—even to please the Grits.

—Out of evil sometimes, at least, comes good. The continued peace of Europe has for the last twenty years been largely dependent upon the attitude of France and Germany. Now that France, through political discontent and the Panama scandals, and Germany, through her army bill, and the Loewe gun question, have both found sufficient domestic occupation, there is a reasonable presumption that the war spirit will be held in check for a season. It is becoming less and less likely that the next spring, or even the next fall, will witness war on European soil. Come when it may, however, it will be terrible.

—The Monetary Times of Toronto, in reviewing the pamphlet which Mr. Wiman has issued containing a report of his recent speeches, makes the following comments: But such a thing as free trade with the United States, if it were obtainable under the new regime, as his preface to this pamphlet seems to hint, must be at the expense of Great Britain mainly. That is to say: We need so much revenue. If duties be taken off the 44 per cent. which the States sell us out of our entire purchases, we shall have to put the duties on the already heavily taxed 42 per cent. that Great Britain sells us and on the 14 per cent. imports we get from other countries. This Canada will not do. Mr. Wiman appears to think she will, and he writes and talks energetically to prove that it would be a good thing for her. But we submit that Mr. Wiman is no longer a fit exponent of Canadian feelings. His point of view is changed. He looks at Canada from the standpoint of a New York business man. He thinks he is still loyal to Canada's interests, but there are a few things he forgets. He does not make allowances for such a thing as sentiment, and British sentiment is strong in Canada. He forgets that many Canadians dislike or distrust the American methods of government. He forgets that there are some things Canadians think more of than a dollar. He forgets that the people here think his proposal means annexation, and annexation they emphatically do not want. The latest pamphlet of this restless polemist contains four addresses, delivered at four points in Eastern Canada in October last, and summarized by the author thus: Great Britain—How benefited by continental free trade; Canada—How enriched by a North American zollverein; United States—How opportunity enlarged by continental union; The World—Its hope in Anglo-Saxon unity. These, while they all contain much information, show also a wealth of ingenious and confident assertion that fails of the effect of logical argument. It sounds well on the stump, however, and we can quite understand that, as the preface says, this author's audiences were attentive.

The Home Rule Bill.

STATEMENTS MADE IN ENGLAND AS TO ITS PROVISIONS.

Vanity Fair says that the Home Rule bill merely proposes the establishment of an Irish congress, composed of Irish peers and commoners, which will hold periodical meetings in Dublin and prepare measures to be acted upon by the Imperial Parliament at Westminster. Local authority is to be exercised by parish and county councils.

The Pall Mall Gazette says that the proposed new constitution of Ireland is modeled on the constitution of New Zealand. The present form of Government of New Zealand, to which the Pall Mall Gazette refers, vests the legislative power in the Governor and a general assembly consisting of two chambers, the first called the legislative council and the second the house of representatives. The governor has the power of assenting to or withholding consent from bills, or can reserve them for action by the Imperial Government. He summons, prorogues and dissolves the Parliament. He can send drafts of bills to either house for consideration, but in case of appropriations of public money he must first recommend the house of representatives to make provision accordingly before any appropriations can become law. He can return bills for amendment to either house.

The Legislative Council consists of forty-one members nominated by the crown for life. The suffrage, so far as the people of European blood is concerned, is practically based on residence.

Incendiary Fires.

The Watchman says: A fire of unusual severity occurred on the Central Line Road, Lot 3, on Wednesday night, 14th inst, at about 11 o'clock, whereby a vacant house and barn belonging to Mr. Michael Murphy, blacksmith, Montrose, were burned down. The fire was detected by Mr. Owen Finley. He at once gave the alarm, and, until aid arrived, heroically fought the fiery element single-handed, but it is said that on account of the quantity of kerosene which had been spilled in and around the buildings, they burned very fast, and every effort to save them proved unavailing. The fire is the work of an incendiary, who in his hurry to get away from the scene of his arsonic deviltry forgot to take his oil can with him. It is only a few months since the barn, stock and farming implements of Mr. John O'Brien, of the same place, were consumed by fire—set, it being supposed, by a fire-fiend, also.

India's cotton crop will be the poorest for twenty years, owing to the lack of rainfall.

Souris Notes.

The Christmas Tree at the Convent on Tuesday and Wednesday night was liberally patronized. The lucky ones at the lottery were G. O'Donnell, who got the cane; Father Walker, the album; Mrs. Archibald McCormack, the lemonade sett; and Edison Stewart, the clock. The cakes were auctioned off by the genial Postmaster and brought good prices. The gross receipts amounted to a handsome sum. The ladies of the Convent and managing committee deserve praise for the very successful and satisfactory manner in which this—the great local event of the season—was conducted from beginning to end.

Gold headed canes are all the rage just now. A short time ago a very handsome one, accompanied by an address which appeared in THE EXAMINER, was presented to Col. Moore by members of No. 4 Battery. Since then, three more have been ordered. One of them has already arrived and may be seen on exhibition in the show case of Mr. Hooper, Druggist, and is intended by the donors as a Christmas gift for one of the villagers. The other two are coming. Who they are for has not yet been made public, but time will soon tell. The movement is a good one. Canes are very useful to the aged as a means of support, and to the young and middleaged as a weapon to keep off the dogs. When made of ebony and gold they are ornamental too. Some, therefore, think that an effort should be made to relight the street lamps.

The outside work on St. Patrick's Hall, with the exception of the windows, is completed. The building is a handsome and commodious one, and the workmanship reflects the highest credit on the contractor, Mr. James McEachern. Yesterday the flag staff was erected, the top of which bears a well-shaped, bronze colored Irish harp, not the same, of course, but a true specimen, it is presumed, of

"The harp that once through Tara's halls
The soul of music shed."

Rumor has it that the publication of the Souris News will be discontinued at the end of the present year. From a local standpoint, this, if correct, is to be regretted, as the little News is always a welcome visitor among the villagers. The youthful editor, by writing up local interests, avoiding personalities and gathering up the news, is fast making his paper popular with the reading public. It is hoped, therefore, that the rumor is unfounded.

Harmony Notes.

Owing to the fine weather and good roads of last week, most of the farmers of this place succeeded in marketing their produce, and are now busily engaged in cutting their rails and firewood.

The people of this and the surrounding settlements have co-operated for the purpose of erecting a factory for the manufacture of cheese and butter. It is to be located at or near Gowan Brae. A sufficient number of cows and a large amount of stock have been obtained.

Mr. Æneas Bailey, of Elmira, is staying around here. I understand that he is prospecting on the advisability of starting a butcher shop in the vicinity. As Mr. Bailey is a thorough business man, I hope he may meet with that encouragement he deserves. His intention is to cut off the cattle trade from the North Side to Souris If he succeeds, Harmony will be able to boast of a butcher shop second to none in this Province.

VULCAN.

Donagh School Examination.

The half-yearly examination of this school was held on Saturday, the 17th inst. The examination was conducted by the teacher, ably assisted by Miss Katie Power, teacher os Mermaid, Lot 48, in the presence of a large number of the ratepayers of the district.

The pupils were examined in reading, spelling, grammar, geography, history and arithmetic, and their ready and intelligent answers showed that their knowledge, in those subjects, is more than superficial, and reflects great credit on their teacher.

The ratepayers of this district are to be congratulated on having such an efficient and painstaking teacher as Mr. Driscoll.

This is the fourth year for Mr. Driscoll in this school, and goes to show that his services are appreciated.

ONE WHO WAS PRESENT.

Cheese Factory at Murray Harbor North.

The cheese factory movement in this section is going forward. Last night we had the most enthusiastic meeting yet, at Cambridge Cross. Everyone has fallen into line and the word is "march." Bye laws were adopted at the meeting, and directors appointed and empowered to correspond with Professor Robertson, and carry the good fight to success. Farmers now see it to be for their own benefit and their own prosperity that such an industry shall be started in our midst. Murray Harbor has been behind long enough, and will now, with due deference and without intended offence to other settlements, march right to the front, and stay there for ever and for ever.

A good deal of prejudice was in the early hours of the movement in our parts exerted against the participation of men of business. One fervent speaker saw that this would ruin the chances of the poor farmer, and give speculators the day. "Keep the merchants out," he said; "they will gobble you all up presently, and your dividends." That inexpressible nonsense is now blown away. Farmers now see, not through a glass darkly, that such a feeling would kill any good movement, and bears selfishness and narrow-mindedness on its face. Beside, who but the men of business can inspirit and carry on the enterprise?

STEPHEN H. WARREN.
FROM THE ISLES OF THE SEA.
Liver & Kidney Trouble
COMBINED WITH
PALPITATION OF THE HEART
CURED!
STEPHEN H. WARREN OF ISLESBORO, ME., IS WELL KNOWN IN HIS NATIVE TOWN, AND THE GREATEST CREDENCE CAN BE GIVEN TO HIS STATEMENT. TO A REPRESENTATIVE OF THE SKODA DISCOVERY CO., HE RECENTLY SAID:
"For more than two years I have suffered great misery from what Physicians called Liver and Kidney Troubles. Nearly all the time I would have severe pains in my back and side, with a constant dull pain in the region of my liver. My bowels were constipated. Food distressed me badly, and my Heart would palpitate greatly at times, in fact I was well broken up.
For two months I have been taking SKODA'S DISCOVERY and SKODA'S LITTLE TABLETS, and I AM A NEW MAN. Appetite good. Bowels in good condition. Heart palpitation all gone. No trouble with Liver or Kidneys. I FEEL WELL. You certainly have a wonderful remedy in SKODA'S DISCOVERY as I have taken many of the Sarsaparillas, and have been treated by different Physicians without getting permanent benefit."
THE ONLY MEDICINE SOLD WITH A GUARANTEE CONSISTENT WITH EACH BOTTLE. TRY A COURSE (6 BOTTLES) AT OUR RISK, IF NOT BENEFITTED RETURN BOTELES AND GET YOUR MONEY. PAY ONLY FOR THE GOOD YOU RECEIVE.

H. C. DOUSE.
dec13—pat

The Telephone Company
—OF—
P. E. ISLAND.
PARTIES using the Telephones would find talking much more satisfactory if they would observe the following rules:—
1st. Speak with the mouth about four inches from the transmitter.
2nd. Speak in a moderate tone of voice, not too loud, and distinctly.
3rd. Place the telephone so as to cover the ear, just as if you wished to shut out all other sounds. Do not press too hard on the ear.
It is possible to talk and be heard when standing back two or three feet from the transmitter, if you shout loud enough, but it is not a pleasant mode of conversation, is entirely unnecessary, and is a useless waste of wind and lungs, besides being very annoying to all within range of your voice.
ROB ANGUS,
Manager.
