Blake's Metallic Fire Proof Paint, OR, ARTIFICIAL SLATE. THIS admirable article has been tested for some years and proved very valuable, becoming a perfect slate, as hard as marble in a few months, completely protecting whatever is coated with it from the action of the weather and fire—a better fire-proof than tin or zinc. Several Insurance Companies certify they will insure buildings covered with it at a cheaper rate, than if covered with those metals. It is of two colors, the black is best for roofing—the chocolate the best thing ever discovered for sides of either brick or wood, forming a perfect stone coating of a handsome stone or chocolate color, can be easily changed by a little white lead or other coloring matter to suit the taste. There is nothing equal to it for steamboat and car decks, and all kinds of iron as it forms a coating nearly as hard as the iron itself, and never cleaves off.

BEWARE OF WORTHLESS COUNTERFEITS. As the popularity of my paint has induced scores of unprincipled individuals to grind up, and offer as fire-proof paint, all kinds of worthless stuff, much of it nothing but rotten stone that has no cohesive attraction, is held on only by the oil with which it is applied; consequently as soon as the action of the atmosphere destroys the oil, it will wash or rub off like Chalk or Whiting, nothing can yet be known of its lasting qualities, as it is but little over a year since they got them up, whereas mine has been tested about seven, and where first applied is now like a stone.

The original and genuine article can be obtained of PATRICK STEVENS, Orwell, my authorized Agent for the Island. Proprietor, 84 Pearl-st., N. Y. WM. BLAKE, Patentee. 3n.
