

# Annual Montague School Ice Sports Held Last Night

The annual Montague school ice sports were held last night, and were attended by a very large crowd of enthusiastic spectators. The competition in all events was keen, and the well-filled classes provided the fans with an excellent evening's entertainment.

Besides the sports, a regular feature of the Juvenile League was held between Souris and Montague, with Souris being the victor by the score of 4-3. From the opening whistle in the first period the Souris squad put on a sustained attack, holding the pressure for twenty minutes resulting in their first goal of the game with only one return from Montague. J. Gallant, C. Peters, J. Clinton and D. Paquet were the Souris scorers, and Ralph Annear netted the Montague score. The scoreless second period saw the best juvenile hockey ever played in Montague as the Montague team fought to get through and the Souris team to hold their lead. Dugas in the second period was the only scorer for Souris as he latched on to the puck coming at him from all angles. The third session was a repeat of the second period with a dazzling display of hockey of a calibre far beyond the boys' years. The pressure from the Montague team finally cracked the stonewall defense of the visitors, and Ralph Annear counted two more for the

# The Eastern Guardian

**SPECIAL TODAY** from our meat department. Lamb, baby beef and choice steer. Llewellyn, Montague.

**BEAN SUPPER** at the curling rink, Montague, Saturday, February 4. Members invited to come and bring a guest.

**LPTON Gospel Chapel, Dundas.** Sunday School for all ages at 3.00 p.m. Followed by afternoon service, if the Lord wills. Subject, "Where Sin Abounded, Grace Did Much More Abound". Speaker Stanley Straight.

**MURRAY HARBOUR**—Murray River Pastoral Charge United Church of Canada Services Sunday, Feb. 5th. Murray Harbour 11 a.m.; Little Sands 3 p.m. A meeting of the local elders at the close of the service. Murray, February 7, 8 p.m.; Congregational hymn sing and sermon. Curling schedule at Montague rink today:

2.30 P. M.

East Ice - J. S. DesRoches, B. Smith, W. Morton, E. Clay vs. G. Jardine, L. MacDonald, A. Wightman, M. Paquet.

West Ice - Wm. MacLean, V. MacGregor vs. L. H. Poole, M. Jamie son, I. Phillips, I. Hickox.

7 P. M.

East Ice - R. Beck, H. Clair, E. Shaw, E. Hickox vs. Wm. Mac-

## THE WEEK AT S.D.U.

**COLLEGE CREST**

The subtle undertows of student opinion seem to be strengthening into well-defined streams threatening to embroil the serene waters of our quiet campus life here at Saint Dunstan's over the question of the choice of a standard college crest. This agglomeration of opinion seems to be in itself a step in the right direction, for now the number of different design proposals has dwindled to three.

Now Saint Dunstan's has a standard, although for reasons that will probably remain hidden in the mists of history it seems to have fallen into disuse. It has been so forgotten at the present time that the present move for a common practice for students right now to feel that they are at liberty to choose anything that strikes their fancy as an emblem of this time honored institution. It is in an effort to eradicate this latter practice and establish uniformity that the present move for a common practice for students right now to feel that they are at liberty to choose anything that strikes their fancy as an emblem of this time honored institution. It is in an effort to eradicate this latter practice and establish uniformity that the present move for a common practice for students right now to feel that they are at liberty to choose anything that strikes their fancy as an emblem of this time honored institution.

Leo Peddle and Mr. Donald McLaughlin will support the affirmative side of the resolution: "That Canada should have a distinctive Canadian flag" against the debaters from Mount Allison University. This will be the first intercollegiate debate that either of these two have undertaken, but we feel that having done so well in their trial and elimination debates, they are well qualified to enter the lists for S.D.U. So we wish the boys the best of luck in their forthcoming joust as they point their lingual lances towards the dominion finals.

For those of you who just came out from the groundhogs, the Saint Dunstan's branch of the Women's University Service of Canada is sponsoring a formal dance to be held in the Alumni Gymnasium on February 6, that's the day after tomorrow. The committee in charge of preparations has had a long and busy time in planning a program of entertainment with a properly balanced and carefully selected diet of dance numbers. We have been informed that as an added feature, a large quantity of balloons has been specially imported to add to the ballroom atmosphere. Won't you join us then in the gym on Monday night either to burst a bubble or build one?

The rink committee has announced that it is preparing for a gigantic skate to be staged this coming Tuesday evening. Bring the change from that last pack of cigarettes with you as there will be a small admission charged in an effort to defray the cost of a new P.A. system and some newer recordings. This should be welcome news to those of you who might have been troubled with a partner who insisted on skating in time to the static while you tried to follow the music.

While on the ice we will recap (rather coolly) the Saints contest with the Paris Flyers last Tuesday. Although Rod MacInnis and Kayo Mullin scored early, the Saints defense wasn't as cagey as it might have been and the flyers took turns to leave the bedraggled red and white trailing at the end by a score of 5-2. This defeat didn't set well with the boys and they should present quite a ferocious sight the next time they hit the ice. Things haven't always been this bad for the Saints squad. Last Friday, Jan. 25, they shaded Saint Thomas College at Newcastle, N.B., with a score of 3-1. Lewis MacDonald, Ed MacDonald, and Jack R. MacDonald netted for the Saints.

## Montague Legion Elects Officers

The regular monthly meeting of the Montague Branch Canadian Legion was held February 2nd, in the legion hall with the president, G.G. Jardine, presiding. The meeting was called to order with the usual silence in memory of fallen comrades.

The secretary was called on for a financial report which showed the branch in reasonably sound condition financially. Comrade A. F. Campbell reported having received several letters thanking the branch for gifts distributed by the legion at Christmas time. Some discussion followed regarding renting of legion property and other legion business, following which the branch adjourned for a social hour.

Executive officers for the 1956 term in the legion branch at Montague are: President, Gerry Jardine; secretary, Roddie Martin; First Vice-President, John Clary; Second Vice-President, William Knox.

## INVENTOR DIES

WINDSOR, Ont. (CP) — James Matthew MacLean, widely known inventor and transportation research engineer, died Wednesday night in hospital here. He was 62. Born in Valleyfield, P.E.I., Mr. MacLean was president of Enji Wheel Company, an organization formed to exploit his experiment in designing resilient wheels to eliminate road shocks in motor vehicles and railway stock. Manufacturers and engineers who in 1932 adopted his design were pleased to see Mr. MacLean after 13 years work said the wheel might eventually revolutionize transportation.

Mr. MacLean, whose poems frequently appeared in the Guardian in past years, contributed the opening sonnet to a presentation book of verse to the late King George VI and the Queen mother on their visit to Canada's Pacific Coast.

(Mr. MacLean's funeral service will be held at the Morris Funeral Home in Windsor this afternoon.

Mr. MacLean was a son of the Rev. Roderick MacLean, who during many years was the Minister in charge of the Presbyterian congregation at Valleyfield in this Province, and who died nearly fifty years ago. His son James Matthew MacLean was an engineer by profession and a man of outstanding eminence.

(Engineering and inventions — one of his inventions being a noiseless car-wheel, known as the Enji Wheel — were to Mr. MacLean more of an avocation or hobby than a life-purpose vocation. His heart and soul and his life purpose were that he himself as well as all men should find spiritual satisfaction and real life in giving of their best to ease the burdens of a self-defeated humanity.)

(His plans and proposals for solution of these problems through the organization and operation of a World Bank, United Nations, Free Basic Food, and various others, were outstanding, and brought him in contact with advanced minds in Canada, the United States and Great Britain. Mr. MacLean's aim and purpose was to give reality to the Saviour of mankind's mandate and test of the profession of good-will and affection in the expression "Feed by sheep".)

(Heartfelt sympathy of all who had the privilege of knowing Mr. MacLean will be extended to his widow, nee Florence Brainard.)

## EAST BALTIC

Mr. Eddie Ching returned to his home in Basin Head, having spent several days with pneumonia in the Souris Hospital.

The Red Point Women's Institute members met at the home of Mrs. Chester McNeill, Red Point, on January 18 and made a quilt for a family who had lost all their belongings in a recent fire.

Mr. Walston Jarvis is now convalescing at his home in Little Harbour, having spent almost two months in the Souris Hospital.

Mrs. Page of the nursing staff, Souris Hospital, spent a few days with her daughter and son-in-law, Mr. and Mrs. Clarence Ross North Lake.

Mrs. Clarence Ross returned to her home at North Lake, having been a patient in the Souris Hospital for some time.

Mrs. Chester McNeill, Red Point, took in his own opinion from her gardener, that the mild spell of weather and they were perfect.

Mr. Ira Stewart, Red Point, is now able to be around again. It had the misfortune of having a home on fire, but he had a cast on for the past month.

Mr. L. G. Robertson, Red Point, spent a recent weekend with friends in Ruston.

Mr. Arthur O'Malley returned to his teaching duties at East Baltic, having been ill for some time at his home in St. Peters.

Mr. George Cheverie, South Lake returned to a successful operation in the Souris Hospital.

Mr. Percy MacDonald, Kingsboro, had recently the misfortune of losing a valuable milk cow.

There was a large attendance at prayer meeting in the Baltic Hall on January 19. Rev. D. J. McClure was in attendance.

Mrs. Harding Fraser, Elmira, is now able to be about again following her recent illness at the home of her daughter, Mrs. Marjorie Campbell, Kingsboro.

Messrs. Stanley Coffin and Harold Stewart, returned to their home in Kingsboro, having spent some time in Nova Scotia.

Mr. I. J. Horne, Souris, has been a patient in the Souris Hospital.

Mrs. Kenneth MacGregor returned to her home in Kingsboro, having been a patient in the Souris Hospital.

Mr. Vincent Massey, Charlottetown, spent the past weekend at his home in Bothwell.

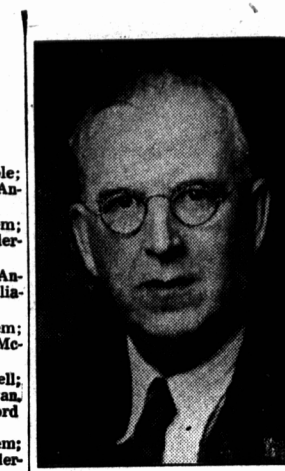

Misses Shirley Harris and Betty lifting them to their second intercollegiate victory.

On the more humorous side of the boards, we have learned that the faculty has accepted the challenge tendered by the Senior class for a match this coming Tuesday morning. There should be a sea of faces and at least a few lenses behind the cages watching this battle of the ages (or would wages be more proper?)

Last Thursday morning, some thing of a caravan left the hall of halls laden with basketballs and brightly colored trappings for the mainland and a hoop contest with the University of New Brunswick. While on the other side, the Saint will also challenge the squad at St. Thomas in an exhibition game to round out the tour. The S.D.U. "B" game was settled yesterday, though the score is not available here. The return match is scheduled for Feb. 25 on the S.D.U. court.

To close this week's news on a rather doleful note, the rumor is gaining weight in certain of the better informed circles that there are another set of exams in the offing; scheduled for February 11, to be precise. This disheartening news coupled with the icy blasts and drifting snow that's been buffeting us of late as we trudged the path toward the higher learning makes one wonder whether hibernation and the setting back of Groundhog Day to the middle of April wouldn't be the best policy.

Until next week, Greetings from Saint Dunstan's.

Mr. MacLean's aim and purpose was to give reality to the Saviour of mankind's mandate and test of the profession of good-will and affection in the expression "Feed by sheep".)

(Heartfelt sympathy of all who had the privilege of knowing Mr. MacLean will be extended to his widow, nee Florence Brainard.)

## EAST BALTIC

Mr. Eddie Ching returned to his home in Basin Head, having spent several days with pneumonia in the Souris Hospital.

The Red Point Women's Institute members met at the home of Mrs. Chester McNeill, Red Point, on January 18 and made a quilt for a family who had lost all their belongings in a recent fire.

Mr. Walston Jarvis is now convalescing at his home in Little Harbour, having spent almost two months in the Souris Hospital.

Mrs. Page of the nursing staff, Souris Hospital, spent a few days with her daughter and son-in-law, Mr. and Mrs. Clarence Ross North Lake.

Mrs. Clarence Ross returned to her home at North Lake, having been a patient in the Souris Hospital for some time.

Mrs. Chester McNeill, Red Point, took in his own opinion from her gardener, that the mild spell of weather and they were perfect.

Mr. Ira Stewart, Red Point, is now able to be around again. It had the misfortune of having a home on fire, but he had a cast on for the past month.

Mr. L. G. Robertson, Red Point, spent a recent weekend with friends in Ruston.

Mr. Arthur O'Malley returned to his teaching duties at East Baltic, having been ill for some time at his home in St. Peters.

Mr. George Cheverie, South Lake returned to a successful operation in the Souris Hospital.

Mr. Percy MacDonald, Kingsboro, had recently the misfortune of losing a valuable milk cow.

There was a large attendance at prayer meeting in the Baltic Hall on January 19. Rev. D. J. McClure was in attendance.

Mrs. Harding Fraser, Elmira, is now able to be about again following her recent illness at the home of her daughter, Mrs. Marjorie Campbell, Kingsboro.

Messrs. Stanley Coffin and Harold Stewart, returned to their home in Kingsboro, having spent some time in Nova Scotia.

Mr. I. J. Horne, Souris, has been a patient in the Souris Hospital.

Mrs. Kenneth MacGregor returned to her home in Kingsboro, having been a patient in the Souris Hospital.

Mr. Vincent Massey, Charlottetown, spent the past weekend at his home in Bothwell.

Misses Shirley Harris and Betty lifting them to their second intercollegiate victory.

On the more humorous side of the boards, we have learned that the faculty has accepted the challenge tendered by the Senior class for a match this coming Tuesday morning. There should be a sea of faces and at least a few lenses behind the cages watching this battle of the ages (or would wages be more proper?)

Last Thursday morning, some thing of a caravan left the hall of halls laden with basketballs and brightly colored trappings for the mainland and a hoop contest with the University of New Brunswick. While on the other side, the Saint will also challenge the squad at St. Thomas in an exhibition game to round out the tour. The S.D.U. "B" game was settled yesterday, though the score is not available here. The return match is scheduled for Feb. 25 on the S.D.U. court.

To close this week's news on a rather doleful note, the rumor is gaining weight in certain of the better informed circles that there are another set of exams in the offing; scheduled for February 11, to be precise. This disheartening news coupled with the icy blasts and drifting snow that's been buffeting us of late as we trudged the path toward the higher learning makes one wonder whether hibernation and the setting back of Groundhog Day to the middle of April wouldn't be the best policy.

Until next week, Greetings from Saint Dunstan's.

## Montague Legion Elects Officers

The regular monthly meeting of the Montague Branch Canadian Legion was held February 2nd, in the legion hall with the president, G.G. Jardine, presiding. The meeting was called to order with the usual silence in memory of fallen comrades.

The secretary was called on for a financial report which showed the branch in reasonably sound condition financially. Comrade A. F. Campbell reported having received several letters thanking the branch for gifts distributed by the legion at Christmas time. Some discussion followed regarding renting of legion property and other legion business, following which the branch adjourned for a social hour.

Executive officers for the 1956 term in the legion branch at Montague are: President, Gerry Jardine; secretary, Roddie Martin; First Vice-President, John Clary; Second Vice-President, William Knox.

## INVENTOR DIES

WINDSOR, Ont. (CP) — James Matthew MacLean, widely known inventor and transportation research engineer, died Wednesday night in hospital here. He was 62. Born in Valleyfield, P.E.I., Mr. MacLean was president of Enji Wheel Company, an organization formed to exploit his experiment in designing resilient wheels to eliminate road shocks in motor vehicles and railway stock. Manufacturers and engineers who in 1932 adopted his design were pleased to see Mr. MacLean after 13 years work said the wheel might eventually revolutionize transportation.

Mr. MacLean, whose poems frequently appeared in the Guardian in past years, contributed the opening sonnet to a presentation book of verse to the late King George VI and the Queen mother on their visit to Canada's Pacific Coast.

(Mr. MacLean's funeral service will be held at the Morris Funeral Home in Windsor this afternoon.

Mr. MacLean was a son of the Rev. Roderick MacLean, who during many years was the Minister in charge of the Presbyterian congregation at Valleyfield in this Province, and who died nearly fifty years ago. His son James Matthew MacLean was an engineer by profession and a man of outstanding eminence.

(Engineering and inventions — one of his inventions being a noiseless car-wheel, known as the Enji Wheel — were to Mr. MacLean more of an avocation or hobby than a life-purpose vocation. His heart and soul and his life purpose were that he himself as well as all men should find spiritual satisfaction and real life in giving of their best to ease the burdens of a self-defeated humanity.)

(His plans and proposals for solution of these problems through the organization and operation of a World Bank, United Nations, Free Basic Food, and various others, were outstanding, and brought him in contact with advanced minds in Canada, the United States and Great Britain. Mr. MacLean's aim and purpose was to give reality to the Saviour of mankind's mandate and test of the profession of good-will and affection in the expression "Feed by sheep".)

(Heartfelt sympathy of all who had the privilege of knowing Mr. MacLean will be extended to his widow, nee Florence Brainard.)
