HOW TO GET TO CHARLOTTETOWN

The steamer Halifax leaves Boston for Charlottetown every Saturday at noon and will be due at Charlottetown on Monday night. On the following Tuesday at one she will leave on return to Boston. Halifax and Port Hawkesbury are called at every trip. Passengers may take the steamer at any of the ports mentioned. The Halifax has been supplemented by the Grand Duchess.

The steamer City of Ghent plys between Halifax and Charlottetown each week, calling at several ports en route. She is due here every Thursday.

The steamers Coban, Bonavista, Campana, Tiber and Polino, of Montreal, also make Charlottetown a port of call.

Passengers for this Province coming by way of Pictou are brought to Charlottetown by the steamer Princess. Those coming by way of Point Du Chene connect with the steamer Northumberland, and may come through to Charlottetown by the mail special which leaves Summerside each evening immediately after the steamer reaches that port.

Moliere and the Ass.

Lions, bears and elephants have done well on the stage; lizards and serpents (vide Mme. Sarah Bernhardt) have also been covered with stage glory, and mules have come to the fore with great credit to themselves and their trainer.

But while so many "stumb things" have been excellent actors one of their number at least has been immortalized through failure. Moliere himself was the actor who brought about the unhearsable scene between himself and his ass. The play was "Don Quixote," and Moliere played Sancho. Some minutes before he had to appear on the stage he was waiting in the wings, mounted on his ass. But the latter suddenly forgot his part and insisted upon appearing on the scene without delay. Nor was it of any avail that half a dozen assistants hung around his head and clung desperately to his tail. The ass, with Moliere on his back, dashed wildly among the actors on the scene, and the fiasco would have been complete had not Moliere saved the situation by shouting to the audience, while joggling along, "Pardon, gentlemen! Pardon, ladies! This confounded beast has come on against my wishes!" The public responded at once with roars of laughter and applause, but Moliere never again mounted an ass.— Westminster Gazette.

A High Hitch.

After General Forrest's raid into Memphis large stories were told about his heroism and the marvelous doings of his troops.

One of the best illustrations of the admiration inspired by the general came from a negro soldier who claimed to have seen him as he rode up in front of the Gayoso hotel. He began telling his companions how Forrest looked and finally came to the appearance of his horse. "I was a-stamin right in dis alley," said he, "when I seen him come up. He rid his boss right up to de hotel, an—I'm tellin you de truf—he hitched his boss right to de second story banisters. I seed him. I tell you, I seed him!"—Philadelphia Record.

Artificial Teeth on Metal Plates

A dentist who knows his business, and one that has any regard for his patients will always advise them to have a metal plate. PROF. MELVILLE B. BUCKLEY, Instructor Boston Dental College, Boston Mass

In view of the vast amount of injury done to the mouths of wearers of rubber or vulcanite plates, by the retention of undue heat, owing to the non conductivity of rubber, and as aluminum is now so cheaply produced, and making as it does a rigid, light, clean, unobjectionable plate there seems no reason why any person should wear a rubber or vulcanite plate. Not only this, but better results in fit and adhesion are obtained in difficult cases, than in the use of rubber.

The above quotations are from hundreds of eminent dentists whose close observation in many years experience in plate work has learned them the many advantages of metal over rubber.

Many persons who are compelled to wear artificial teeth on a plate find that the ordinary plate causes heating of the mouth, bad taste, shrinkage of the gums, etc., finally causing the plate to get loose, sometimes sore lips, sore mouths and sore throats, and caused directly from the wearing of an ordinary plate.

We recommend a metal plate either of Gold, Platinum, Aluminum.

It is a conductor of heat and cold, it is non-irritating, and is thinner, lighter, and stronger than any other plate. We have testimonials from persons for whom we have made metal plates—not one would wear an ordinary plate again. You can have your impression taken, and a metal plate made same day, fully guaranteed because we make them ourselves, and know all about the material used. Call and see specimens of our work. Every piece of work done by us must give entire satisfaction to the patient, else we will not allow it to leave our office.

See our artificial teeth without plates. BERLIN DENTAL PARLORS CHARLOTTETOWN, P. E. I.
