MEMORANDUM

To: Deans, Department Chairmen, Student Union,
Sun, Topics, CIMN

From: M.F. Hennessey, Registrar

Re: Awarding of Henry Birks & Sons Gold Medal

The terms of reference for this award are as follows:

This medal is awarded to a graduating student who has demonstrated to an outstanding degree qualities of scholarship and leadership within the University community. Recommendations for this award may be made by any member of the University community to the Awards Committee by 31 March. Winners of the Governor General's Gold and Silver Medals will not be eligible for this award.

Recommendations and supporting material will be received in this office for onward transmission to the Awards Committee up to Friday, 30 March 1979.

WARNING...WARNING...

Students from other provinces are reminded that the Student Union Insurance applies only to those medical charges in excess of those covered by provincial plans and that those who come from provinces where a fee is required should ensure that their payments are kept up to date.

IF THERE IS ANY QUESTION ABOUT YOUR STATUS, CLEAR UP YOUR DOUBTS BEFORE YOU ARE FACED WITH A MEDICAL BILL THAT YOU HAVE TO PAY.

If you're not certain, call in at the Student Union Office in the Barn.

STUDENTS: DID YOU KNOW?

If you are a student at UPEI you do not have to pay the regular subscription rates for Maclean's or Chatelaine or Miss Chatelaine.

Use the special student-only discount cards around campus and get one for yourself, or have it sent home to your family a lot cheaper than anyone else can.

If you are going to graduate, then get these magazines now while you still can use the student rates.

University of Waterloo

Opportunities for
Graduate Studies in

Statistics, Biostatistics, Actuarial Science

The Department of Statistics at the University of Waterloo offers a wide variety of applied courses in probability and statistics including biostatistics and actuarial science at the undergraduate and graduate levels. Applications are welcomed from graduates of other disciplines who are considering careers in these fields, or who wish to acquire statistical expertise for use in their own fields. Persons who have limited background in Statistics and Actuarial Science, but who have taken algebra and calculus at the second year university level, can expect to complete a master's programme in about 16 months. Applicants who do not have this mathematical background will usually require one or more qualifying terms before being admitted to a master's degree programme.

Full-time Canadian and landed immigrant students usually receive financial support in the form of teaching and/or research assistantships. These are valued at up to \$6,000 - for a 12 month period.

For additional information concerning courses offered, financial support, and application procedures, please write to:

The Graduate Officer, Department of Statistics,
University of Waterloo, Waterloo, Ontario. N2L 3G1
