TORONTO STOCKS

TORONTO (CP) — Industrials led the stock market to its eighth straight advance Wednesday during moderate trading. Base metals and western oils fought off light flurries of profit-taking.

Uraniums continued the rally they began late Tuesday but it was somewhat subdued. Northspan gained 30 cents to $8.60 while Cayzor Athabaska and Stanrock added 20 cents. A few other stocks were 10-15 cents higher.

Senior base metals were mostly fractionally higher although Noranda gained a point at 54. Advocate lost 20 cents at $8.05 in other mining sections and Iron Bay 30 cents at $4.40.

Central Leduc featured western oils, climbing 60 cents to $9.50. Del Rio was up 35 cents to $6.65. Fargo and Central Explorers each lost 15 cents.

Index gains: industrials 1.80 to 466.27; golds .02 to 78.60; base metals .95 to 213.37; western oils .56 to 173.42.

Garageman In Peace River Had Share Of "Complications"

SEXSMITH, Alta. (CP) — Otto Spacek put down his blow torch, wiped his eyes and spoke feelingly—in Czechoslovakian—of the twisted auto-body frame.

"It wouldn't be," he said—in English—"if things were not complicated. All the time it is so."

The 39-year-old Spacek was not merely referring to his job in a garage in this Peace River town. As a professional pilot in the Czech air force before and after the Second World War, and as a fighter pilot during the war he has had his share of "complications." During the war he flew in the French air force and then with the British.

HAS GOOD HOME

"We go home to talk," he shouted over the racket of the garage to a reporter. Inside his house he pointed to oil paintings, potted plants, a wall library and delicate choice of colors for each room. "My wife Helen did the decorating," he said.

"Canada is good for the immigrant," he added.

Spacek joined the Czech air force in 1936 but had just won his wings when the air force was disbanded in 1938 as Hitler took over the country. Otto and many of his compatriots moved to Poland, "but we could see that things were not so good there either, so we went to France to join the Foreign Legion."

Instead, they enlisted in the French air force and soon were flying against German aircraft in the Battle of France.

"Let us say it was a rough time," said Otto. "I shot down two of the enemy, got shot down myself—had to bail out, and picked up the Croix de Guerre. Then—poof—it was over."

After being shot down he escaped from Germany to join the Czech squadron then being formed in the RAF. It was in this squadron that he made his first connection with Canada. Replacement pilots were not always Czechoslovakians, and one was C. Stojan, a Canadian from Sexsmith.

"He's my boss now," Mr. Spacek laughed, "but in those days it was I who told him what to do and showed him how to do it."

POOR SUBSTITUTE

After the war Otto returned to Czechoslovakia, became a test pilot in his country's air force, married and settled down. In 1949 he was pensioned out of the air force and found civilian life a poor substitute, especially since the country was run by the Communists.

"So we decided to get out," he said. "A priest helped us. We walked all one night and finally got to Western Germany. That was one heck of an experience."

Shortly after arriving in Nuernberg he received a letter from Mr. Stojan, inviting him to Canada. But he could not get clearance from the Canadian immigration office in Bremen, so he joined an RAF unit which gave him a first - class health rating and posted him to England, where he was passed by Canadian immigration officers.

"The war," Otto shrugged, "was a waste of time. Now all I want to do is create something; building something."

Menzies Critical Of U.N. And U.S.

CANBERRA (Reuters)—Prime Minister Robert Menzies said Tuesday that failure of the United Nations in the Middle East has betrayed peace and international justice.

Speaking in a foreign affairs debate in the House of Representatives, Menzies said the UN has been "bowing to Colonel Nasser," while Israel had been given no guarantee on the use of the Suez Canal or the Gulf of Aqaba.

"Is this a triumph for international justice" he asked. "I can't believe it."

He said Egyptian President Nasser sabotaged the Suez Canal by sinking 49 ships in it when he did not need "to sink a canoe for any military reason."

But now all nations "had the privilege" of paying to clear the canal he added.

In the future, he said, problems should be considered carefully before they reach the United Nations and the United States should ponder recent events and see that mistakes made would not happen again.

If Panama seized the Panama Canal and repudiated the perpetual lease to the United States "just as Nasser did," or if Communist China attacked Formosa the United States would not allow its redress or action to depend on a vote of the United Nations, he said.

Polar Bear In Nfld.?

BAY BULLS, Nfld. (CP)—Does Bay Bulls have a transient or resident polar bear Or did somebody have a bad dream

Attempting to find an answer, wildlife officials made the 20-mile trip from St. John's and spent Tuesday beating the bush without success. But tracks—maybe a polar bears'—were found.

Several people have reported seeing a polar bear, which occasionally step off an ice field on the northeast coast but which are rare animals in this part of Newfoundland.

One guess was that the bear came ashore from ice jamming Trinity Bay and wandered south.

Russians Hold House-Warming

By HAROLD MORRISON
Canadian Press Staff Writer

OTTAWA (CP)—Trade Minister Howe sipped vodka with Soviet Ambassador Dmitri Chuvahin Tuesday night as the Russians threw open their doors to a throng of some 600 at the official opening of a spanking new $500,000 embassy.

Conversation between East and West was light and friendly and the vodka flowed quickly. In fact it flowed so fast that it ran out before the two - hour party was over.

But while tht house-warning was billed as one of the big social events of the season, it somehow fell short of that. Outside of Mr. Howe, there were no other representatives of the cabinet present and only a scattering of top-drawer Western diplomats.

Held Responsible In Montreal Death

MONTREAL (CP)—John Cameron, 23, formerly of Antigonish, N.S., was held criminally responsible Tuesday for the stabbing and suffocation death in January, 1956, of Andre Ochsner, wealthy Swiss watch importer.

Cameron has been unsuccessfully sought as a material witness since Ochsner's body was discovered, Jan. 16, 1956.

A coroner's jury returned its verdict following testimony indicating Cameron had pawned articles from Ochsner's bachelor apartment, the day before the body was discovered.

Ochsner had been dead two days before the body was found. He suffered a gash across the chest, presumably caused by a knife, and police said a pillow was held against his face until he suffocated.
