AGRICULTURE.

[*From the American Stock Journal.*]

WINTER MANAGEMENT OF SHEEP.

There is no part of the United States, if there is of the world, where sheep are not better for some degree of winter shelter. In western Texas and the Gulf States, perhaps, they demand no more than a pole shed or dense clump of trees to break the fury of the "northers;" north of latitude 40 degs, to 42 degs, close barns or stables, with abundant ventilation, are beginning to be preferred by careful and systematic breeders. Open sheds are too much exposed to drifting snow, and they cannot be shut up and made warm enough for early lambing. A room twenty by forty feet in the clear will properly accomodate seventy-five Pauler sheep, and they can all eat at a time, without crowding, at wall racks placed around it. The Infantados want a little more room; and the English breeds still more. Sheep barns should be placed in dry, elevated, but not windy situations. They are usually two stories high, the upper one being used for the storage of hay. The sheep stables underneath should be at least seven or eight feet high. A room large enough to hold one hundred and fifty Merinos may be partitioned across the middle by feeding racks, and seventy-five sheep kept on each side—there outside yards being also divided—but not one hundred and fifty ought to breathe the atmosphere of the same general apartment, however it may be divided on the floor. The rooms should be well lighted, capable of abundant ventilation, and that ventilation constantly employed. Confined, impure air is highly injurious to sheep, and perfectly fatal if a dangerous epizootic makes its appearance in tha flock. The slatted box rack is now generally preferred in sheep barns and yards. The stables should be well littered down, and should be thoroughly cleaned out at least three times during the winter, so that the sheep should not lie, especially during thaws, on fermenting beds of manure. It is well, at intermediate periods, to scatter gypsum over the manure before covering it with fresh straw, as this absorbs all the escaping gases, and adds greatly to the value of the manure. Sheepyards should, if practicable, be on dry gravelly ground, and should have at least three times as much area as the stables. They should have high, tight fences on the sides most exposed to severe winter winds, and should be kept well littered down. Habitual exposure to mud and filth is highly injurious to sheep.

The close confinement of sheep to stables and small yards operates on them as it does on all other domestic animals, it renders them torpid in habit, and promotes the taking on of fat and flesh. This is well for fattening sheep, but not for breeding ewes. The want of exercise and the increrse of condition promotes that tendency to plethora which is natural to pregnancy, and though the natural effects of this are not always visible in the offspring, yet there come seasons when other cooperating conditions render it highly destructive. The lambs are yeaned smal and weak, and those that live are of but little value. Breeding ewes should have exercise by having access, at proper times, to a field, or obtain it in some other way.

Water is indispensable to sheep fed on dry feed in the winter, and should have constant access to it. Salt is also indispensable to vigorous health. It is inproper to salt sheep-hay heavily when it is put in the mow or stack, or to brine all their hay for them at intervals, because in either case the instincts of the animal are not left to guide its consumption. Salt should be placed in boxes in the sheep-house so that they can eat it at will; or the orts taken from the rack may be brined and put in a large rack kept for that purpose where the sheep can come to it at their pleasure.

It is estimated that all sheep daily consume, in the average winter weather of the Northern States, about one pound of hay, or its equivalent, for every thirty pounds of their own live weight. All that they will eat of meadow hay is about the amount of nutrition demanded by the Merino sheep in good, plump, store condition If a portion of concentrated food like grain is given, its excess of nutrition may be safely counterbalanced by feeding a corresponding amount of food less nutritious than hay, as, for example, straw. Barley and oat straw, if cut and cured green, are highly relished by sheep. Wheat straw is less so, and they will eat but little besides the chaff and heads of it, if they can obtain other food. Rye straw, unless chopped fine and mixed with meal, is wholly unfitted for sheep feed. Penhaulm, if curred green, is an admirable fodder, but dry and dead, as it is generally gathered, it is wholly valueless except for manure. The blades and tops of nicely cured cornstalks make prime sheep feed. Fine red clover hay, cured bright and green, is better than the best meadow hay, and on a full winter allowance of it sheep actually fatten: it is also highly favorable to the milk secretions in breeding ewes The grains and pulse most used in our country for sheep feed are oats, corn, and peas. Oats are given to store sheep and lambs; corn is given to fatten sheep, and with some it is a favorite for all other classes of sheep. Some excellent feeders, like Mr. Johnston, of Geneva, New York, employ buckwheat. Peas are fed in a few instances to breeding ewes, and they greatly promote the growth of wool and the secretion of milk but they are too scarce and expensive for common use. The same is true of beans, though they are accounted among sheep-breeders more heating, and therefore less suitable feed. Bran and shorts, mixed with a little grain, make a most excellent feed both for lambs and old sheep. Bran-slop is admirable for promoting the secretion of milk in yeaning ewes. Breeding ewes thrive better, and are better prepared in their general physical condition to bring forth well developed, strong lambs, if they habitually receive green food during the winter, and other sheep are healthier for it. Colic or "stretches," often so serious a malady among flocks confined to dry feed, does not attack sheep that get green food. In regions adapted to their culture, swedes and some other varieties of the turnip are especially adapted to this object. There is a beet which was brought from Silesia by Mr. William Chamberlain, (not the variety sold in seed stores as the Silesian beet,) which some persons who have tried them prefer to turnips. Either root is vastly cheaper than grain of any description for the feed of sheep. Carrots have been tried and do not give satisfaction, and potatoes are too expensive.

Regularity in feeding is one of the important points of successful sheep farming, and consists in strict regularity in the time of feeding, and in proportioning the amount of fodder to the wants of the animal. With good attention to these particulars, sheep will do better on moderate keep than on the best food fed with irregularity.

ABOUT TEA.—For some time past we have had miserable tea, or rather an apology for tea Mary had become so careless in the making of it that it was really undrinkable Sometimes it would be almost as black as ink, and at others of a decided pink shade after the cream was added, and occasionally as weak as water. I consider the case desperate enough to make a decided stand in favor of good tea; so not long ago, just about tea time, I went into the kitchen and said "Mary, I want you to put away the tea steeper, as I do not wish it used any more, and you will make the tea after a different plan." "Well! and indeed, mum!" "Never mind Mary," I said, "I know that you desire to please me in everything, and it is my wish to have the tea made in another way. Take the teapot and rinse it out with a little hot water." Mary did so. "Now put in three teaspoonfuls of tea and fill the teapot with boiling water." It was done without any more demur. "Now, Mary, put it on the top of the water boiler; never put it on the stove, as I do not wish it boiled. Always make it in this way and only just before tea is ready to be served." Mary has followed these directions ever since, and the result has invariably been tea of delightful flavor The fact is, the Chinese never stew their tea, and the French never boil their coffee, and we can learn something of these nations as to the best method of preparing their great national beverages.

We were pleased to see, not long since, in one of our exchanges, some pretty severe remarks addressed to several persons who, during an interesting lecture by Rev. John S. C. Abbott, kept a continuous coughing, which prevented many from hearing. People who cannot refrain from coughing, had better stay away from such places, or else take a bottle of *Johnson's Anodyne Liniment* with them.

PROSPECTUS FOR 1869

OF THE

Publications of John Dougall & Son

MONTREAL.

THE phrase "GET THE BEST" has passed into a proverb, and all will agree that the best Family Paper is one that has something interesting and profitable for every member of the family, not excluding the children, and which includes within its scope all the best interests of humanity, temporal and eternal. Such a paper the MONTREAL WITNESS has aimed to be from its commencement 23 years ago; and that the country was prepared for such an enterprise is shown by its success. The WITNESS in its three editions—"Daily," "Semi-Weekly," and "Weekly"—issues about 16,000 copies; and, consequently, reaches probably Eighty Thousand readers; but what are they out of a population of four millions all of whom we desire to reach?

Our publications are as follows, and we respectfully call attention to their cheapness as well as quality, and ask all the friends of interesting and wholesome literature everywhere to aid us in extending their circulation Nor will their circulation interfere with that of local papers which are a necessity in their respective localities, and which are, generally speaking, very meritorious

1.—The DAILY WITNESS contains as much reading matter as the ordinary Dailies, and of a choice quality, at about half the price, viz., $3 per annum Besides being a first-class Family Paper, it is especially valuable to business men on account of its abundant commercial intelligence, prices current, &c

2.—The MONTREAL WITNESS, Eight Pages Semi-Weekly, $2 per annum, contains all that appears in the Daily, except part of the purely city matter and advertisements.

3.—The WEEKLY WITNESS, Eight Pages, $1 per annum, contains the greater part of the News, Contemporary Press and Editorials of the Semi-Weekly, with a portion of the Family Reading and Prices Current.

4.—The CANADIAN MESSENGER, containing Eight Pages is published twice a month, at the very low price of 37½ c per annum. Postage paid; or Seven Copies for $2 to one address. It contains Religious, Temperance, Agricultural, Scientific Educational matter. Stories for Children, &c., &c This paper is recommended to the public generally, and it is hoped that its adaptation for circulation through schools will greatly extend its usefulness. It has at present upwards of 20,000 subscribers, representing, probably, 100,000 readers, but at the very low price (namely, 25 cents per annum, Postpaid, if 100 copies are sent to one address) it is hoped that its circulation will greatly increase,

5.—The NEW DOMINION MONTHLY is a handsome Monthly Magazine containing a rich selection of original and copied articles every month, together with *one or more choice pieces* of music, and pictorial illustrations. Price $1 per annum, Postpaid. This Magazine has been favorably noticed by nearly the entire Press of the Dominion.

The terms of all these publications are necessarily CASH IN ADVANCE, and the periodicals are invariably discontinued when the subscription expires

Any one who will kindly make up a club for the above publications to the value of $8, and remit the same Post paid, in Bankable funds, will receive, if asked for at the time, the WEEKLY WITNESS or the NEW DOMINION MONTHLY gratis, and One Dollar's worth of our Publications for every additional Eight Dollars remitted for them in P. O. Money Order or Canadian Bills

N. B.—Postmasters are authorized and requested to receive individual subscriptions in Silver (but not Club-Subscriptions), and convert the same into Bankable funds at our expense

JOHN DOUGALL & SON.

Montreal, Nov., 1868.

INK! INK! INK!

CARTER'S

COMBNED WRITING & COPYING

INK!

THIS COMBINATION INK has been awarded the HIGHEST PREMIUMS over all others in the United States and pronounced by the most celebrated Chemists the best Ink ever offered to the public

It is used by many of the largest Commercial Houses, Banks, Railroads and other Corporations' and gives perfect satisfaction.

The Advantages of this over other Inks are:

FIRST.—It flows freely from the pen, and does thicken by exposure to the air.

SECOND.—It will give a perfect and instantaneous copy.

THIRD.—It will not mould.

FOURTH.—Being equally as good for Copying as for Book-keeping it entirely does away with the use of two kinds of Ink

FIFTH.—It is more permanent than common Inks.

SIXTH.—The color, when first written, is a beautiful dark green, but in a remarkably short time it changes to a BRILLIANT JET BLACK—not a brownish black.

SEVENTH.—It is admirably adapted to the most delicate writing, and ALWAYS "makes its mark" *This Ink is warranted to flow as freely as any other Writing Fluid now in use; to give as perfect a copy as any Copying Ink; and not to mould.*

This ink is for Sale at HARVIE'S BOOKSTORE, Queen Street

To the Traveling Public,

THE SUBSCRIBERS would respectfully inform their friends and the public generally, that they have opened out, in this city a

FIRST CLASS HOTEL

to which they have given the name of the

UNION HOUSE,

This Hotel is pleasantly and conveniently situated on the corner of

Queen and King Streets, Ch'town, P. E. I.

(The stand is well known as having been in the occupation of Mr J. G. Eckstadt)

It is the intention of the Proprietors of the UNION HOUSE to furnish First Class accomodation to travellers, and do all in their power to render a stay in Charlottetown pleasant and agreeable.

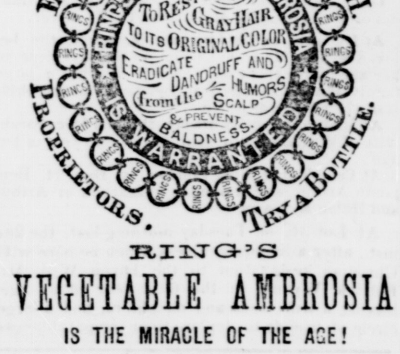
A First Class Ice Cream and Oyster Saloon, and a Barber Shop, are kept in connection with the House.

The Union House is pleasantly situated near wharves, and steamboat landings, and will be found convenient for travellers in all respects.

All matters pertaining to the wants and convenience of Guests will be promptly attended to by the Proprietors.

O'NEILL BROTHERS.

Ch'town, Sept. 28, 1868 tf



RING'S

VEGETABLE AMBROSIA

IS THE MIRACLE OF THE AGE!

Gray-Headed People have their locks restored by it to the *dark, lustrous, silken tresses* of youth, and are happy!

SPECTACLES,

Which have been extensively used in Great Britain and the United States, the past eight years and for which they claim the undermentioned advantages over those in ordinary use, the proof of which may be seen in their constantly increasing business during the past eight years.

1st THAT from the perfect construction of the lenses, they assist and preserve the sight, rendering frequent changes unnecessary.

2nd THAT they confer a brilliancy and distinctness of vision, with an amount of ease and comfort not hitherto enjoyed by spectacle wearers.

3rd. THAT the material from which the Lenses are ground is manufactured specially for optic purposes, and is pure hard and brilliant, and not liable to become scratched.

4th. THAT the frames in which they are set, whether gold, silver or steel, are of the finest qualities and finish, and guaranteed perfect in every respect.

They are the only Spectacles that preserve as well as assist the sight. And are cheapest, because the best, always *lasting many years* without change being necessary

☞ One of the Firm will visit Charlottetown, at the Store of their Agent every six months, for the purpose of fitting those having difficult sights, when any spectacles sold by their agent during the interval, will be exchanged free of charge if not properly fitted.

☞ WE EMPLOY NO PEDLARS. ☜

☞ SIGHTS fitted by correspondence.

Sept 28, 1868. 1y

Wool Wool.

THE STANFIELD WOOLLEN MILLS at TRYON, having been thoroughly reconstructed and enlarged by additional Machinery and Steam Power, will continue to manufacture Cloth from custom wool as heretofore and at the usual rates. Having doubled their facilities for manufacturing, and procured skilful operatives for every department, the Company feel confident of giving their customers greater satisfaction generally, by manufacturing a better quality of Cloth, and making quicker returns for wool left with them In addition to the various kinds of Cloth previously made, they are manufacturing several new styles for men's wear, and full width blanketing.

☞ Wool, which must be clean washed, free of mats and coarse locks, and of good quality, may be left at Hon. H. J. Calbeck's, Charlottetown, or at the Mill.

STANFIELD WOOLLEN CO.

Tryon, May 18, 1868.

RARE CHANCE

FOR

Ship Builders or Merchants.

THE SUBSCRIBER OFFERS FOR SALE that well-known FREEHOLD PROPERTY, the

Ureka House and Premises,

situate at the HEAD of ROLLO BAY, with a front of Ten chains on the Main Post Road, leading from East Point to Charlottetown and Georgetown, about four miles from the flourishing village of Souris, comprising about TWELVE ACRES of LAND, with a good convenient DWELLING HOUSE thereon, having a Parlor, Sitting Room, Bed Rooms for Seven beds, Kitchen, Wash House, and a never-failing Pump of Water at the door.

ALSO, a NEW STORE, fitted up for a Shop and Bar Room, with Offices attached; a large Room above with Two convenient Bed Rooms petitioned off. The whole finished complete and in good repair. There are attached to the Shop a Waggon House and Shed, for feeding travelling horses, in a splendid grove of tree ssheltered from winds and storms. Stables for horses, Cow Houses, &c., likewise a Grainery capable of containing 10,000 bushels of Oats. Meat and Salt House, with Sail Loft above, and two other Houses for lumber, or can be rented as tenements, all situate on the aforesaid Road side. The Post Office is kept there, and the Charlottetown Mail passes two and fro twice each week. *On the Shore, fronting Rollo Bay* is a site for Ship Building, where a number of splendid vessels have been built, with Blacksmith's Forge, a large and convenient building for working in, with a Mould Loft above, Saw Pits, and other requisites for carrying on an extensive building business, with a lot of plank and timber in the yard, well piled and free from decay. A splendid Spring of Water at the bank—in fact the whole premises are surrounded with all the requisites for carrying on an extensive Mercantile trade or Public Hotel, well worthy the notice of persons intending to enter into Trade or Ship Building with a small capital. The whole will be disposed of by Private Sale, with a good and sufficient title.

Any further particulars respecting the above Property and title may be had on application to W. R. WATSON, Esq., Druggist, Charlottetown, or the Subscriber on the Premises,

JAMES A. DAVIDSON.

Rollo Bay, Aug 31, 1868.

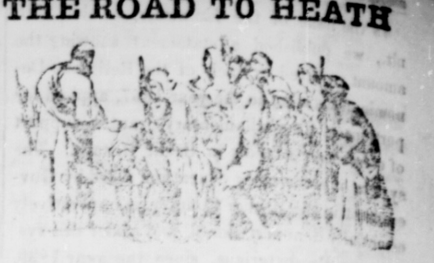
WRAPPING PAPER!

CHEAPEST IN TOWN,

AT

HARVIE'S BOOKSTORE,

THE ROAD TO HEATH



AND LONG LIFE

SECURED BY

HOLLOWAY'S PILLS.

Impurities of the Blood.

In selecting the most appropriate medicine for a particular ailment, there may be some difficulty unless one can be found to purify, regulate, and improve the quality of the blood. These Pills possess and exert these three qualifications in an extraordinary degree. They enable the stomach to digest any ordinary food, increase the secretory powers of the liver, cleanse and purify the blood, expel all morbid matter, and throw into the circulation the purest elements for sustaining and repairing the frame.

Weakness and Debility.

How many persons suffer from debility without knowing the causes why they are feeble! In man cases the stomach is the aggressor. Holloway's Pills have long been famed for regulating a disordered stomach, and restoring its healthy digestive tone; they are, therefore, confidently recommended as a never-failing remedy in all cases where the constitution, from any cause, has become impaired or weakened.

Disease of the Head and Heart

These formidable diseases are, unfortunately, frequent occurrence; for the most part they creep on gradually, but may be prevented by proper precautions. Holloway's Pills are the surest preservatives against all derangements of the brain, and are the speediest correctors of irregular circulation. If they be taken without delay, when tingling in the limbs, drowsiness, or giddiness comes on, the effect will be marvellous.

Females of all Ages & Classes

The fame of these Pills is partly based upon the beneficial effects they have upon the constitutions of females. From the domestic servant to the peeress universal favor is accorded to them for their invigorating and purifying properties, which render them so safe and invaluable in all disorders peculiar to the sex. Obstructions of every kind, either in young persons entering into womanhood or approaching the turn of life—the most critical period—may be radically removed by a recourse to these Pills.

All Disorders affecting the Liver, Stomach and Bowels

Whenever the stomach, liver, or bowels are disordered by high living, climate, over-indulgence undue exertion or other causes, these fine regulating Pills will soon rectify the evil, and speedily bring back energy, strength and cheerfulness to the frame where previously all was lassitude, gloom and dejection.

Despondency, Low Spirits.

The misery occasioned by a disordered digestion is, unfortunately, felt by most. These famous Pills should be taken in appropriate doses to adjust the disturbed functions. They dispel headache, biliousness, nausea, lowness of spirits, and all similar ailments. A course of these invaluable purifying Pills never fails in removing the cause of such morbid affections, without subjecting the sufferer to any inconvenience.

Influenza, Diptheria, Bronchitis Coughs and Colds.

In our changeable climate few persons escaped without colds, sore throats, influenza, diptheria, or bronchitis, for all of which these famous corrective Pills may be taken with the certainty of effecting a cure. While the Pills are expelling all impurities from the body generally, Holloway's Ointment should be well rubbed upon the chest and throat it will penetrate the skin, reduce inflammation and restore lasting soundness.

Holloway's Pills are the best Remedy known in the world for the following diseases:

Ague	Female Irregularities	Scrofula, or King's Evil
Asthma		
Bilious Complaints	Fevers of all kinds	Sore Throat
Blotches on the Skin	Fits	Stone & Gravel
