# International Financier Arrested In N. Y. Probe

NEW YORK (AP)—Hal Roach Jr., will take over direction of the F. L. Jacobs Company in the wake of the arrest of its president, international financier Alexander Guterman, for securities violations, it was announced Sunday.

Roach is president of Hal Roach Studios and board chairman of the Mutual Broadcasting System, two segments of Guterman's vast financial empire.

Guterman, 44, surrendered to federal authorities Saturday and is out in \$5,000 bail on charges of failure to report sales of stock in violation of regulations of the Securities Exchange Commission.

Authorities have said they are investigating charges of fraud against Guterman which involve millions of dollars.

Guterman has resigned as president and board chairman of Jacobs, the announcement said.

Roach said the "first order of business will be the issuance of a complete report to the stockholders," along with the annual financial statement.

Guterman is accused specifically of not filing required reports on the sale of 38,000 shares of stock in the F. L. Jacobs Company.

However, Paul Windels Jr., regional director for the Securities Exchange Commission, said at Guterman's arraignment that there were "serious, substantial frauds" involved in the case.

Jerome London, assistant U.S. attorney, said the government is also investigating "other large-scale frauds, involving losses representing many millions of dollars to the public because of the fraudulent manipulations of the defendant Guterman."

**CALLS IT OUTRAGE**

Guterman described the case as "the biggest outrage by publicity bounds I've ever seen."

Surrendering with Guterman at London's office was Canadian-born Robert J. Eveleigh, treasurer of the Jacobs firm and wanted as a material witness.

Guterman and Eveleigh were held in \$5,000 and \$2,500 bail respectively at a special arraignment in the chambers of federal district judge Sidney Sugarman.

Guterman's first business ventures in the U.S., according to the reports, were hemp and cotton plantations in Florida, eventually merged into the Shawano Development Corporation.

**BRANCHES OUT**

Shawano branched out into oil and uranium prospecting and later into the hotel business in Las Vegas and Miami Beach, according to the reports, and still later Guterman acquired the Jacobs company, at that time only an auto-parts firm.

This firm, the reports say, became a holding company which got control of the Scranton Corporation, then a major manufacturer of lace. The onetime lace firm then branched out still further and acquired the Hal Roach Studios of Culver City, Calif., which last fall took control of the Mutual Broadcasting System.

Other firms with which Guterman has been associated are United Dye and Chemical; the Bon Ami Co., which was bought out by United Dye and Chemical in 1936; Micro Moisture Controls, Incorporated; Western Financial Corporation; Chaco Steel and McGrath Securities Corporation.
