THE NEW YORK TRIBUNE—WEEKLY—ENLARGED.

ON the 11th of last April *THE DAILY TRIBUNE*, having completed its twelfth year, was enlarged more than one fourth, or to the size of *The London Times* making it considerably larger than any other cheap Daily published in this country or in the world. No change in price was made in consequence of this Enlargement—the paper being still afforded to Mail Subscribers at $8 per annum and sold to Carriers and to Agents ordering it by Express or Mail for distant sale at $1 50 for one hundred copies, or $12 per thousand—payments in advance. At these prices, our aggregate receipts for our entire Daily edition do not exceed the sums we pay for Paper and Ink, leaving all other expenses to be defrayed from receipts for Advertising. In other words, we return to each purchaser of our paper from us, his money's worth in the naked sheet we send him, looking for the reward of our own labor and the heavy expenses of Telegraphing, Correspondence, Reporting, Composition, Printing, Mailing, Book-keeping, Rent, &c., to our Advertisers alone. We do not think it now possible to cheapen newspapers beyond this point; if it ever shall be hereafter, we intend to be even with the foremost in demonstrating the fact.

Our *SEMI-WEEKLY, EUROPEAN* and *CALIFORNIA* editions were enlarged simultaneously and equally with the Daily, and also without any increase of price. We respectfully solicit a comparison of our Semi-Weekly at $3 per annum, (two copies sent a full year for $5, and ten copies for $20,) with any $4 or $5 Semi-Weekly, and will cheerfully send copies for this purpose upon directto post-paid application.

THE NEW-YORK WEEKLY TRIBUNE entered on its thirteenth year on the 3d of September, it was enlarged to the size of the Semi-Weekly and Daily, adding more than one-fourth to its capacity—also without increase of price. This Enlargement adds at least $20,000 per annum to our expenses, in addition to the previous cost of our Daily Enlargement already effected. All our editions from the 1st of September appeared in entirely new and beautiful type, prepared expressly for this paper. Our Steam Cylinder Presses are not surpassed by any in the world. Our Semi-Weekly and Weekly Edition should be rapidly run up to 100,000 copies, we are prepared to print and mail every copy on the day (Thursday) that the issue is put to press, without interruption or retarding the regular issue of our three Daily editions, amounting to Twenty-odd Thousand copies. We stand ready to adopt any improvement over superior facilities which will enable us to disseminate intelligence more freshly and effectively, and shall especially hail, as we labor to effect a radical improvement in the celerity and reliability of the Mails.

THE TRIBUNE has not now its character to make or to proclaim. It has not been and never can be a mere party organ. It has supported the Whig party because the distinctive principles of that party appeared to favor the great ends which it has labored to subserve, and never advocated a measure because it was proposed or sustained by the Whig party. It holds itself at all times as free to condemn unsound principles, unwise measures or corrupt acts should the two former be proposed or the latter perpetrated by Whigs as though they had emanated from the hostile camp. In so far as Peace, Liberty, Education, Temperance, Internal Improvements and Industrial Development may be subserved by acting with the Whig party, it must continue to be, as it has been, Whig.

Though never acting with any Abolition or other one-idea party, *THE TRIBUNE* is and must be the relentless foe of Human Slavery, as of whatever else tends to degrade Labor and obstruct the intellectual and social development of any portion of mankind. Were it able to perceive that a vote in New-York could abolish Slavery in Carolina, it might attach itself to none of the organs of Abolition or Anti-Slavery parties: lacking that light, it declines to abandon the substances for the shadow of political good. But while it does not see in the Abolition or any effective Political action against Slavery in the States which now cherish it, it regards the defeat of whatever effort to extend the giant wrong under the flag of our Union, or to obstruct by force the progress of Abolition in other lands, as among the most urgent and sacred of public duties, not to be subordinated to any party consideration whatever. Light and Truth as to render the continuance of Slavery impossible in a land irradiated by the sun of Christianity and boasting itself the great exemplar of Political Justice and Self-government to Nations.

For Temperance in all things, but especially the disuse of Intoxicating Beverages and the legal suppression of the Liquor Traffic, we shall struggle, as we have struggled, unflinchingly and untiringly. We regard the Maine Law as essentially the most beneficent statute of our day, and confidently hope to see it soon adopted universally.

The Congressional Reports and Washington Correspondence will, as heretofore, be both reliable and satisfactory.

The Markets for Grain, Cattle, Cotton and other products of the country, will receive proper attention, and be reliably reported in *THE TRIBUNE*.

On our Correspondence with the most important points throughout the world we need not here dilate. Of the fact that our Associate, *BAYARD TAYLOR*, is now on the other side of the globe, sending us advices from the seat of war in China, and expecting soon to depict for our readers the physical, moral and social characteristics of jealousy-guarded Japan, the public are already aware. He will probably return by way of Australia and California, in both of which we have several correspondents. Briefly—we shall spare no expense to render our readers well advised on every subject of interest, and doubt not that the same generous measure of patronage hitherto accorded to us will continue to repay all our exertions.

Any friend who believes we will do good by increasing the circulation of *THE TRIBUNE* is authorised to solicit and receive subscriptions; and, on duly proof that money has been received and postpaid to our address, we take the responsibility of its safe transmission. Specimen Copies will promptly be sent without charge to those wishing them, and we trust many friends will be moved to ask their neighbours and acquaintances to join in making up a Club to commence with our Enlarged Sheet and New-Type on the first of November, or any time therefter.

A limited amount of space in the *WEEKLY TRIBUNE* will be appropriated to advertising.

GLEASON'S PICTORIAL.

ON the first of January next, *Gleason's Pictorial* will commence its sixth *volume*, and will appear vastly improved in all respects, with a fresh new heading, new type and dress throughout, and will be printed upon the finest paper. As the proprietor of the *Pictorial* has purchased the entire good will of Barnum's New York *Illustrated News*, and has merged that journal in the *Pictorial*, the public will reap the advantage of this concentration of the strength of the two papers upon one, both in the artistic and the literary departments. The same brilliant host of contributors and artists will be engaged on *Gleason's Pictorial* as heretofore, and a large additional staff of writers and corps, both in talent and number. The most liberal arrangements have been completed, and such as will enable the Proprietor to produce by far the finest illustrated journal yet published, and much superior to the present issue of the paper. The columns of the *Pictorial* will constantly be beautified by all that can please and instruct in art and nature, and its literary department will fully sustain the high reputation it has so long enjoyed.

The pages of *Gleason's Pictorial* will contain views of every populous city in the known world, of all buildings of note in the eastern or western hemisphere, of all the principal ships and steamers of the navy and mercantile marine, with fine and accurate portraits of every noted character in the world, both male and female. Sketches of beautiful scenery, taken from life, will also be given, with numerous specimens from the animal kingdom, the birds of the air, and the fish of the sea, and will present in its mechanical execution an elegant specimen of art. It will contain fifteen hundred and sixty-four square inches, giving a great amount of reading matter and illustrations—and forming a mammoth weekly paper of sixteen octavo pages.

The Wonder of the World!

Devines' Compound Pitch Lozenge.

THE Great Remedy is at last discovered, and COUGHS, COLDS, ASTHMA, COSTIVENESS AND ASTHMA with have lost their terror, and vanish as if by magic before this Sovereign remedy. Was it ever before known that, *Hopeless cases of Consumption* have been cured by less than $2?

Truly, if any individual is to be pitied, and needs sympathy, it is the consumptive,—always expecting to get well, and yet the painful evidence of decay almost "makes the inner soul shrink with the outer flesh."

And live as long;
A single morning space!"

While others, in more mature life,—by some imprudence and a slight cold neglected,—in the hectic flush, the painful cough,

DR. HOOFLAND'S CELEBRATED GERMAN BITTERS,

Prepared by DR. C. M. JACKSON, *No.* 120 *Arch street, Philadelphia.*

Their power over the above diseases is not excelled, if equalled, by any other preparation in the United States, as the cures attest, in many cases after skilful physicians had failed.

These Bitters are worthy the attention of invalids. Possessing great virtues in the rectification of diseases of the Liver and lesser glands, exercising the most searching power in the secretions and diseases of the digestive organs, they are, withal, safe, certain and pleasant.

Read and be Convinced.

The "*Philadelphia Saturday Gazette*," says of *Dr. Hoofland's German Bitters.*

"It is seldom that we recommend what are termed Patent Medicines, but Hoofland's German Bitters are entitled to the confidence and patronage of our readers; and therefore when we recommend Dr. Hoofland's German Bitters, we wish it to be distinctly understood that we are not speaking of the nostrums of the day, that are noised about for a brief period and then forgotten after they have done their guilty work of deception, but of a medicine long established, universally prized, and which has met the hearty approval of the faculty itself."

"*Scott's Weekly*," said, *Aug.* 25—

"Dr. HOOFLAND'S GERMAN BITTERS, manufactured by Dr. Jackson, are now recommended by some of the most prominent members of the faculty as an article of much efficacy in cases of female weakness. Persons of debilitated constitutions may use Hoofland's Bitters advantageous to their health, as we know from experience the salutary effect they have upon a weak system."

MORE EVIDENCE.

J. G. Moore, Esq., of the Daily News said, October 31st:—

"DR. HOOFLAND'S GERMAN BITTERS.—We are trying this renowned medicine for a stubborn disease of the bowels, and can with truth testify to its efficacy. We have taken three bottles of two bottles, and we have derived more benefit from the experiment than we derived previously from years of allopathic treatment at the hands of our first physicians."

Hon. C. D. Hinelline, Mayor of the City of Camden, N. J., says:

"HOOFLAND'S GERMAN BITTERS.—We have seen many flattering notices of this medicine, and the source from which they came induced us to make inquiry respecting its merits. From inquiry we were persuaded to use it, and must say we found it specific in its action upon diseases of the liver and digestive organ, and the powerful influence it exerts over the nervous system. It acts as a tonic, but it calms and strengthens the nerves, bringing them into a state of repose, making sleep refreshing.

If this medicine was generally used, we are satisfied there would be less sickness, as from the stomach, liver and nervous system, the great majority of real and imaginary diseases emanate. Have them in a healthful condition, and but few predispose to epidemics generally. This extraordinary medicine we would advise our friends who are at all indisposed, to give a trial—it is recommended highly. It should, in fact, be in every family. No other medicine can be had.

In this mammon-worshipping Age, it is rare to find a man place his usefulness to the public, before his interest. During a late visit to the "City of Spindles," we were presented by a professional friend, to the celebrated Chemist, DR. J. C. AYER, whose name is now perhaps, more familiar than any other, at the bedside of sickness, in this country. Knowing the unprecedent popularity of his medicines, and the immense sale of them, we had expected to find him a millionare, and rolling in wealth. But no, we found him in his laboratory, with his sleeves rolled up among his crucibles, alembics, and retorts—giving his best personal care to the compounds, on the virtues of which, thousands hang for health. We learned, that notwithstanding his vast business, his prompt returns in cash, the Doctor is not rich. The reason assigned is, that the material is costly, and he persists in making his proportions so consciently, that the nett profit is small.—*American Farmer, Phil.*

The Renowned Remedy!

HOLLOWAY'S OINTMENT.

A MOST ASTONISHING CURE OF SCROFULOUS ULCERS—A CASE CERTIFIED BY THE MAYOR OF BOSTON.

Copy of a Letter from J. Noble, Esq., Mayor of Boston, Lincolnshire.

To Professor HOLLOWAY,

Dear Sir,—Mrs. Sarah Dixon, of Liquorpond street, Boston, has this day deposed before me that for a considerable period she was severely afflicted with Scrofulous Sores and Ulcers in her arms, feet, legs, and other parts of her body; and although the first of medical advice was obtained, at the cost of a large sum of money, she obtained no abatement of suffering, but gradually grew worse.

Being recommended by a friend to try your Ointment, she procured a small pot, and a box of the Pills, and before that was all used, symptoms of amendment appeared. By persevering with the medicines for a short time longer, according to the directions, and strictly adhering to your rules, as to diet, &c., she was perfectly cured, and now enjoys the best of health.

I remain, Dear Sir, yours truly,
(Signed) J. NOBLE.

AN EXTRAORDINARY AND RAPID CURE OF ERYSIPELAS IN THE LEG, AFTER MEDICAL AID HAS FAILED.

Copy of a Letter from Mrs. Elizabeth Yeates, of the Post Office, Aldwick Road, near Bognor, Sussex, dated January 12*th*, 1853.

To Professor HOLLOWAY,

Sir,—I suffered for a considerable period from a severe attack of Erysipelas, which at length settled in my leg, and resisted all medical treatment. My sufferings were very great, and I quite despaired of any permanent amendment, as I had been induced to have recourse to your Ointment and Pills. I did so without delay, and am happy to say the result was eminently successful, for they effected a radical cure of my leg and restored me to the enjoyment of health. I shall ever speak with the utmost confidence of your medicines, and have recommended them to others in my family, who had been similarly afflicted, who derived equal benefit.

I am, Sir, your obliged and faithful Servant,
(Signed) ELIZABETH YEATES.

A DREADFULLY DISEASED ANCLE CURED AFTER BEING GIVEN UP BY THE FACULTY, AT HALTA ARMY PORTSMOUTH HOSPITALS.

The following important communication has been forwarded to Professor Holloway for publication, by Mr. B. Dixon, Chemist, King-st., Norwich.

Copy of a Letter from Captain Smith, of Great Yarmouth, dated January 19*th*, 1853.

To Mr. DIXON,

Dear Sir,—I send you the particulars of a cure effected by Professor Holloway's invaluable medicines.—Mr. John Smith, late in Her Majesty's Service, in the British Fleet at Malta, had a very bad ulcerated ancle, and after having been in the Malta Hospital for six months, was sent to England as an invalid, and was under Dr. Hingston, who recommended an inmate four months, there, as at Malta, refusing to have the limb amputated, he was turned out incurable. He then came to Great Yarmouth, and was under a medical gentleman for about three months, but his ancle became so much worse that all hope was lost. At this period, by my advice, he tried Holloway's Ointment and Pills, which, after a most wonderful healed all the ulcers, and restored him to perfect health and strength.

I remain, Dear Sir, yours very truly,
(Signed) JOHN SMITH.

SURPRISING CURE OF A BAD BREAST, NERVOUS DEBILITY, AND GENERAL ILL HEALTH.

Copy of a Letter from Mr. T. F. Ker, Chemist, &c., Lower Market, Manchester, dated February 12*th*, 1853.

To Professor HOLLOWAY,

Dear Sir,—I have great pleasure in forwarding to you the particulars of a most extraordinary cure of a bad breast, effected solely by the use of your celebrated Ointment and Pills. Mr Martha Bell, of Pittstreet, in my town, had been for a considerable time laboring under nervous debility, loss of appetite, and general ill health, occasioned by ulcerated wounds in the breast. She had had much experience in the use of all the known remedies for the cure of ulcers, but without any beneficial result; in fact she had nearly lost all faith and hope of a cure being effected. In the distressing and painful condition of body and mind, she was persuaded to have recourse to your invaluable Ointment and Pills, which she immediately did, and in the course of a very short time the effect produced was most astonishing; her appetite was speedily improved, and the sores and ulcers in the breast gradually healed, and the nervous excitement of her system was wholly removed.

I remain dear Sir, yours faithfully,
(Signed) T. FORSTER KER.

The Pills should be used conjointly with the Ointment in most of the following cases:—

Bad Legs	Cancers	Sore-throats

AYER'S PILLS

FOR ALL THE PURPOSES OF A FAMILY PHYSIC.

THERE has long existed a public demand for an effective purgative pill which could be relied on as sure and perfectly safe in its operation. The has been prepared to meet that demand, and in extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy for a physician to adapt it to any case to make the best of all *pills*—one which should have none of the objections, but all the advantages, of every other. This has been attempted here, and with what success we would respectfully submit to the public judgment. It has been unfortunate for the patient hitherto that almost every purgative medicine is acrimonious and irritating to the bowels. This is met. Many of them produce so much griping pain and revulsion in the system as to more than counterbalance the good to be derived from them. These *pills* produce no irritation or pain, unless it arise from a previously existing obstruction or derangement in the bowels. Being purely vegetable, no harm can arise from their use in any quantity, but it is better that no medicine should be taken unnecessarily. Minute directions for their use in the several diseases to which they are applicable are given on the box. Among the complaints which have been specially cured by them, we may mention Liver Complaint, its various forms of Jaundice, Indigestion, Languor and Loss of Appetite, Listlessness, Irritability, Bilious Headache, Bilious Fever, Bilious Colic, Pain in the Side and Loins; for, in truth, all these are but the consequence of diseased action in the liver. As an aperient, they afford prompt and sure relief in Costiveness, Piles, Colic, Dysentery, Humors, Scrofula and Scorbutic Affections, and Worms in the body. Ulcers and impurity of the blood; in short, any and every case where a purgative is required.

They have also performed some singularly successful cures in Rheumatism, Gout, Dropsy, Gravel, Erysipelas, Erysipelatous Inflammation, Pains in the Back, Stomach, and Side. They should be freely taken in the spring of the year, to purify the blood and prepare it for the change of the season. An occasional dose stimulates the stomach and bowels into healthy action, and restores the appetite and vigor. They purify the blood, and, by their stimulant action on the circulatory system, reconvate the energies of the body, and restore the wasted or diseased energies of the whole organism. Hence an occasional dose is often necessary in even though no serious derangement exists; but unnecessary dosing should never be carried too far, as every purgative medicine reduces the strength, when taken to excess. The thousand cases in which a physic is required cannot be enumerated here, and they suppose themselves to be known of every body; and it is confidently believed this pill will possess a better general adaptation to all the ills which human nature is heir to than any thing which has hitherto been available to mankind. When their virtues are once known, the public will no longer doubt what remedy to employ when in need of a cathartic medicine.
