### Yacht Club Looking For New Clubhouse

MONTAGUE — Montague Yacht Club is looking into the feasibility of taking over the W. A. Fooks building at Lower Montague as a clubhouse. Several meetings have been held recently and the property has been made available if the club desires to use it. It is thought that it would be possible to have storage in the basement for boats, with the top floor used for a snack bar and social center with space for dancing. One suggestion was that the main floor could be used as a place for a sea food centre. It is thought this building offers one of the most beautiful views in Charlottetown, overlooking the bay. The boating facilities are excellent with a pier and deep water at its doorstep. Another meeting will be held in the near future to formulate a definite plan in this matter.
