THE CIVIL WAR IN THE STATES.

BY TELEGRAPH TO THE *EXAMINER*.

ST. JOHN, N. B., July 26.

Wednesday, severe fighting at Atlanta. Friday last Confederates attacked Federal position and suffered severe repulse. Federal official advices report 4,000, Confederate loss 12,000. General Rousseau with a cavalry force captured Montgomery, Alabama, destroying much property, railroads, &c. Confederate communication between Atlanta and Richmond cut by cavalry force from Sherman's army. Federal reverse reported at Winchester, Va., on Sunday. General Crook driven back to Williamsport. Gold 258.

European dates to 15th. Opinion growing strong that the Danish question will be peacefully adjusted.—London money market improving under pacific aspects.—Markets generally unchanged.

ST. JOHN, N. B., July 27.

A Confederate force, reported 25,000 strong, under Gen. Earley, defeated Gens. Averill and Crooke at Winchester, on Sunday, have occupied Martinsburg, and threaten Harper's Ferry. It is supposed to be the same force which made former raid into Maryland, and that having learned that the 6th and 19th corps have been withdrawn, they meditate another invasion.

A severe fight near Broousville, Texas. An Illinois regiment was nearly annihilated. Desperate guerilla fighting in Kentucky and Missouri.

Confederates still occupy Atlanta. Sherman holds outer defences of the city. Gold 253.

The Steamship "Scotia" arrived at New York last night. Confirmed that Denmark proposed a truce and concession offered.

Another Confederate cruiser called the "General Lee," reported in the English Channel.

NEW YORK, July 28.

An order from the War Department requires suppression of exaggerated details of new raid into Maryland. Federals still hold Harper's Ferry. Full details received of sanguinary battle before Atlanta on the 22nd. Federals captured 11 stand of colors, 1200 prisoners. Over 3000 Confederate dead buried on the field. Federal loss 4000 killed and wounded. Gen. Stoneman with strong cavalry force, en route to cut railroad to Macon. Gen. Rousseau returned to Marietta with trifling loss; he destroyed 31 miles of Atlanta and Montgomery railroad, captured and paroled 200 prisoners. All quiet before Petersburg, except occasional cannonading. Gold fluctuated, to-day, between 244 and 254—last quotations 250.

July 29th, 8 p. m.

Some severe fighting in the vicinity of Petersburg, but without definite results.....Confederates attacked General Butler's lines. They were repulsed with serious loss, and four guns left in the hands of the Federals.....Confederates claim victory at Atlanta, but acknowledge heavy loss including one general killed and three wounded.....On the contrary, despatches at Washington affirm that Sherman was victorious in every encounter, and place Confederate loss at 18,000.....Since Sherman crossed the Chattahoochie, newspaper correspondents assert that Atlanta is within Sherman's grasp and could be occupied at any moment, but capture and destruction of Confederate army is what he is contending for.....Federals lost 1000 to 1200 in the fight near Martinsburg on Sunday. Col. Mulligan Killed.....Gold 252.

ST. JOHN, N. B., August 1st, 1864.

Confederates have invaded Pennsylvania. They occupied Chambersburg on Saturday morning with a strong force of cavalry and artillery. Governor of Pennsylvania called on the people to defend their homes, says the invasion is of two gigantic a nature to be considered a mere raid..... Telegraph is only working to Harrisburg.....Reported that Gen. Grant has caputred three entire brigades and several guns. No particulars given.....Reported that a Federal gunboat has been sunk by a rebel ram in James River..... Steamer "Bremen," from Southampton on the 20th, at Cape Race on Saturday.....Denmark's proposals met by Austria and Prussia by suspension of arms on land and sea until the 31st. Denmark requested to send Plenipotentiary to Vienna immediately....."Florida" destroyed two more vessels.

UNION OF THE COLONIES.—At a meeting of the Executive Council on Tuesday last, the following gentlemen were appointed to represent this Colony at the approaching Conference designed to deliberate on the question of a Union of the Colonies:—Honorables Messrs. Gray, W. H. Pope, and Edward Palmer, (on the Government side); Hon. Mr. Coles and Hon. A. McDonald, (on the Opposition side.) The Conference *is expected to take place in Charlottetown during the first week in September.* We shall have a good deal to say on the subject before then, and what we do say or write will be intended to assist the deliberations of the Delegates.

ANOTHER SHOCKING RAILWAY DISASTER.—The catastrophe on the Erie railroad, of which we had a brief announcement by telegraph some days ago, was almost as destructive of life as the late accident near Montreal.—A special train carrying 835 Confederate prisoners and 120 Union guards, had left Jersey city at 6 o'clock Friday morning, and proceeded in safety as far as Shohola, a station about twenty miles west of Port Jervis, where the double track ends. Coming east at the same time was a regular train. Its conductor stopped at Lackawaxen, the station next west of Shohola, and enquired of the telegraph operator whether the track was clear to Shohola, and was told all trains then due had passed. He thereupon started his train at fifteen miles an hour, and after running a mile or two at that rate over a road which constantly pierces defiles and bends in sharp curves, came suddenly upon the special train, also moving rapidly. And in one terrible moment the two trains lay in ruins, and out of their passengers 64 were killed and 120 wounded. The tender of the passenger train was turned up on end; the first car was jammed into a space less than six feet, and the tender fell back upon it. It contained thirty-seven men, and from its wreck thirty-six were taken out dead, only one man escaping with his life by falling between the platforms to the earth. Three of the cars in all were totally destroyed. Some of the bodies were shockingly mutilated, heads completely crushed, bodies transfixed, impaled on timbers or iron rods, or smashed between the colliding beams. Of the soldiers killed sixteen were Federals and forty-four Confederates.

QUARTERLY SESSION OF THE GRAND DIVISION AT ALBERTON.—On Monday the 25th inst., after a good deal of trouble and considerable inconvenience, we started from the city for the purpose of attending the above named meeting of Grand Division. Under a very hot sun, and with a leisure drive, we reached Wheatly River, the location of "Ark of Safety" Division, where resting a while, we then proceeded to Campbelton, the "locale" of "Granville" Division. Having obtained "refreshments for man and beast" at each of the above places, we pursued our journey to Margate, the home of the "Prince William" Division, which we had the pleasure of meeting. Here we enjoyed a "good time," from the fact that other two Divisions were there represented, viz., "Prince Consort," No. 62 and "Fraternal," No. 74. Being at home for this night, Tuesday, the 26th, finds us pursuing our course Westward, when, after several calls on the way, we at last reached Birch Hill in time to meet the Division of that name located here. This being our home for the night, it is enough to say that we enjoyed a pleasant time. Arrangements having been entered into between this and "Good Will" Division for a time and place of forming in a procession to proceed to Alberton. Wednesday morning, the 37th, finds us on our journey, under a convoy, to Lot 11, the location of the last named Division. Here, after a very short stay, the two Divisions started in company for our destination, forming a procession of some fourteen or sixteen vehicles of various descriptions. But oh! such a day,—the wind blowing fiercely, caused the dust to penetrate into the most hidden recesses of our apparel. As we approached Alberton, the procession is enlarged to some twenty or twenty two conveyances, all of which reached the "locale" of "Pioneer" Division in perfect safety, although in a deplorable state from the effects of the dust, on reaching which parties were to be seen approaching from all directions for the purpose of enjoying themselves over a good cup of tea. This part of the proceedings over, a few short addresses were delivered, after which the audience dismissed, and the Session was duly opened. On this occasion we had "eleven Divisions represented, from "nine" of which "eighteen" Representatives were initiated. Several Reports were submitted, the most important of which was that of the Grand Scribe. The number of Divisions on the roll is 49; but as 9 divisions have not yet reported, we defer the usual Statistical Summary for the present, simply stating that the 40 reporting give a membership of 1594, with 663 Lady Visitors in 34 Divisions.

As the hour of "nine" draws nigh—the time to which the Grand Division adjourned—we must draw our remarks to a close, in the hope that we may be in time to appear in your issue of the 30th instant, and also that we may be able to give a more extended account in your future issue.—COM. TO PROT.

Wheeling, Virginia is a quaint and venerable place. The "Intelligencer," of that city, gives the following sketch, vouching for its accuracy, which could be only true of Wheeling: "We saw, yesterday, going up toward the upper ferry, a team of four animals—a horse, a poney, a mule, and a bull. The horse had the heaves, the poney was blind, the mule was lame, and the bull had no provision for fly time. In the wagon, which was an ordinary one, sat a white man, a crippled nigger, and a tame skunk. The skunk was firmly bound with a wisp of straw. The white man held the lines, the team held its own, and the nigger held the skunk."

FOR THREE WEEKS ONLY.

We offer for sale, for three weeks from date, a lot of our Machines, both Manufacturing and Family, at greatly reduced prices. Call on the Agent and see the Machines do all we claim for them. Terms, Cash or good Note.

Singer's "Letter A" Family Sewing Machine, with all the new improvements, is the *best* and *cheapest*, and *most beautiful* of all Sewing Machines. This Machine will sew any thing—from the running of a tuck in Tarletan to the making of an Overcoat. It can fell, hem, bind, braid, gather, tuck, quilt, and has capacity for a great variety of ornamental work. This is not the only Machine that can fell, hem, bind, braid, and so forth, *but it will do so better than any other.* The new and improved Hemmer is added without extra charge. The Braider is one of the most valuable of the recent improvements.

The "Letter A" Family Sewing Machine may be adjusted for sewing heavy or light textures, anything from pilot or beaver cloth down to the softest gauze or gossamer tissue, with ease and rapidity.

The "Letter A" Family Sewing Machine is so simple in structure, that a child can learn to use it, and having no liability to get out of order, it is *ever ready to do its work.*

Like our well known Manufacturing Machines (the prices of which we have greatly reduced, so as to keep spurious imitations out of the market,) the "Letter A" or Family Machine makes the interlocked stitch. Indeed, it embodies some of the most essential elements of the *Manufacturing Machines, combining all the elegance of outline and finish, of any Machine which has yet been presented to the public.* The Family Sewing Machine constitutes our greatest success in Sewing Machine inventions and enterprises. This, our "Letter A" Family Sewing Machine, is destined to find its way into every household, to the exclusion of the numerous toys and nuisances, in the shape of worthless Sewing Machines, which have been palmed off on the public.

A bad Sewing Machine, as the purchaser will very soon discover, is worse than useless—it's in the way.

Every one who has Sewing Machines to sell, claims that his is the best. It is the business of the buyer to find out the best, and not to purchase on mere hearsay or laudation. It is the business of the buyer to see that the Machine about to be purchased will do all that is claimed for it—to see that it is easy to learn to use it—that it can be easily adjusted for all kinds of work—that it has durability, and that it can be used without liability to get out of order.

Charlottetown, July 25th, 1864.

THE Civic Elections will take place to-morrow. We have heard no notes of preparation for them, and we suppose they will pass off as stupidly and quietly as usual.

The remains of an Indian were lately found embedded in rock salt, four feet below the surface, in the immense salt field near Salt Springs, Nevada Territory, completely.—The body was in a complete state of preservation, and from appearances had lain there for many years, perhaps for ages. The flesh was perfectly dry like that of a mummy, and it was evident that it had been perfectly saturated with brine, which prevented its decay.

CROPS.—Throughout the Isand the crops are looking well, and the prospect is cheering. Should the demand for Oats be good, our farmers will this autumn, in all probability, receive a handsome return for their labor. The quantity of Oats sown was very large, and there is a prospect of an abundant crop. Hay-making has commenced in several parts of the Island, the crop, we believe, is a very fair one.—*Isl.*

PRINCETOWN BAZAAR AND TEA.—The Bazaar and Tea at Princetown came off as advertized on Tuesday, the 19th inst. The day was fine, and preparations had been made on a grand scale, especially in the Tea department. The Institute was tastefully decorated for holding the Bazaar, which was well patronized. All seemed to ejoy themselves in view of the fine surrounding scenery, tasteful arrangements, and ample provision made for their gratification. The result of the whole was a splendid success. The proceedings were happily closed by the delivery of several speeches by clergymen present. The amount realized, including donations in money, was about £200.—*Pro.*

A THING OF BEAUTY, IS A JOY FOREVER.

Who can be beautiful with a sickly pale complexion. Keep the pores of the Skin free, and the blood pure, and your cheeks will vie with the Rose and Lily. The Skin is formed with thousands of pores in every inch of surface whose office it is to carry off the impurities of the blood—the acknowledged cause of all diseases of mankind—when the skin is dry and parched—when it is covered with eruptions—when it is cold and clammy—when there is inward fever or inflammation—it is impossible for the skin under these circumstances to perform its proper functions, and to carry off the impurities from the body as designed by our Creator.

JUDSON'S MOUNTAIN HERB PILLS remove these obstructions, and produce free and healthy blood, remove the eruption from the skin, and cause it to brighten with the flush of youth and beauty. Beauty so much admired and loved. Beauty without paints and cosmetics— but beauty produced by health and happiness.

Judson's Mountain Herb Pills are sold by all Medicine Dealers.

[From the Richmond Whig.]

The Charleston 'Courier' makes a timely suggestion in recommending the attention of our government to the naturalization and cultivation of Calisaya, for the preservation of the health of our soldiers. This article has a peculiar effect upon the liver, and guards the system against disease by exposure and irregular diet. It is said that the great success of the Plantation Bitters of Dr. Drake, which, previous to our unhappy difficulties was found in most Southern homes, was owing to the extract of Calisaya Bark which it contained as one of its principal ingredients.—"In confirmation of this, we have heard one of our most distinguished physicians remark, that whenever he felt unwell from ordinary dietetic or atmospheric causes, he invariably relieved himself by Plantation Bitters. Now, that these Bitters cannot be obtained, a substitute should be prepared.—We understand our government has opened negotiations with Dr. Drake through a secret agent, but with what truth we do not know."

We are exceedingly obliged to the Richmond 'Whig' for its remembrance of "Auld Lang Syne," but we can assure "Our Government" that the Plantation Bitters are not for sale to any "secret agents," North or South. There is probably several other things that "Our Government" will yet want.

We know that we have the best and most popular medicine in the world. We are not afraid to show what it is composed of.

Physicians are compelled to recommend it.

CALISAYA BARK has been celebrated for over two hundred years, and was sold during the reign of Louis XVI, King of France, for the enormous price of its own weight in silver. It is remarkable for Dyspepsia, Fevers, Weakness, Constipation, &c.

CASCARILLA BARK.—For Diarrhœ, Colic, and diseases of the stomach and bowels.

DANDELION.—For Inflammation of the Loins and Dropsical Affections.

CHAMOMILE FLOWERS.—For enfeebled digestion.

LAVENDER FLOWERS.—Aromatic, stimulant and tonic—highly invigorating in nervous debility.

WINTERGREEN.—For Scrofula, Rheumatism, &c.

ANISE.—An aromatic carminative; creating flesh, muscle and milk; much used by mothers nursing.

Also, clove-buds, orange caraway, coriander, snake-root, &c,

S.—T.—1860—X.

Another wonderful ingredient, of Spanish origin, imparting beauty to the complexion and brilliancy to the mind, is yet unknown to the commerce of the world, and we withhold its name for the present.

Humbugs and quacks howl about the Plantation Bitters; but the following is what's the matter, and they know it:

PLANTATION BITTERS WILL CURE
Cold Extremities and Feverish Lips.
Sour Stomach and fetid breath.
Flatulency and Indigestion.
Nervous Affections.
Excessive Fatigue and Short Breath.
Pain over the Eyes.
Mental Despondency.
Prostration, Great Weakness.
Sallow complexion, Weak Bowels.
LIVER COMPLAINT AND DYSPEPSIA.

Very particularly recommended to Clergymen, Merchants, Lawyers, and persons of sedentary habits. Also for delicate females and weak persons who require a gentle stimulant, free digestion, good appetite and clear mental faculties.

Sold by all respectable Physicians, Druggists, Grocers, Hotels, Saloons, Country Stores, &c.

Be particular that each bottle bears the fac simile of our signature on a steel plate label, with our private government stamp over the cork.

DR. BRIDGE'S PATENT FOOD,

For Invalids and Persons of Impaired Digestion.

Recommended by the Faculty.

THE PATENT FOOD is so carefully and scientifically prepared that it is immensely superior to Arrowroot, Sago, Tapioca, Bread, Biscuit, Corn Flour, or any other kind of farinaceous food for Infants, not alone from its purity, strength, and nourishing properties, but also from its having been peculiarly and thoroughly cooked in its manufacture, which renders it more easily digestible It cannot cause Acidity or Wind. It is very agreeable, and, from the nature of its composition, is exactly adapted for all conditions of the stomach. It can be made ready for use, without trouble, in two or three minutes.

Mixed in Beef Tea, Milk, or any other fluid, the Patent Food is pre-eminently suited to Invalids from its wholesome and strengthening qualities. It is a real blessing, and from its remarkable cheapness accessable to all.

One trial will prove its efficacy—it will recommend itself. Sold by
