

DESIGN-603
1008 SQ. FT.

This design No. 603 would make an ideal summer retreat or could be built for permanent living. It is basically an "A" frame construction with two attached wings—one for sleeping, the other a kitchen-dining-utility area. There is provision for a sleeping loft at the rear of the "activities" area. Access to this area is by ladder. The building has a wood floor mounted on a block foundation with crawl space. It could be insulated and electrically heated if desired.

First Aid For Ailing Homes

By ROGER C. WHITMAN

STREAKY COPPER HOOD
QUESTION: When I first got my copper range hood, I was delighted. But it didn't take long for me to become quite tired of frequent cleanings. So a friend advised a coat of clear lacquer after the next cleaning. This worked very well. But now the copper has begun to streak and look tarnished. What do I do now?

ANSWER: Start the process over again. Remove the rest of the lacquer with lacquer thinner, polish the copper and apply another coat of lacquer. Caution: Lacquer thinner is very dangerously inflammable. Extinguish every pilot light, have windows and doors open for greatest possible ventilation. Do not rub hard to prevent sparks from static electricity. And, as we said in the Navy, "the smoke lamp is out."

UPSTAIRS FIREPLACE
QUESTION: Would it be a possible job to build an upstairs fireplace where the chimney goes up one of the bedroom walls. It would make a very nice upstairs den for my parents, who are getting along in years.

ANSWER: Frankly, this would be such an enormous job it wouldn't be worth the effort or investment. In the first place, you could not tap into the existing flue from the fireplace below. When more than one heat source leads into the same line, the draft for each is seriously disrupted. Secondly, you would actually have to construct another chimney onto the present one to provide a flue. It would be much simpler and cheaper to install a ready-made fireplace of metal, a type which has become very popular. You can get descriptive literature at any good

HOW TO OBTAIN DESIGN BOOK

The latest design book entitled "101 Selected Suburban and Country Homes, Designed for Canadians," is now available at the offices of The Guardian and The Evening Patriot for \$1. tax free. This new edition includes color selection, etc., plus over 100 popular new designs in how to order blueprints.

GUM IN CARPETING
QUESTION: One party casually is a living room carpet. Chewing gum was apparently ground in when walked upon. Being wall-to-wall, I can't take this carpeting to the cleaner. Any home "cleaning" method?

ANSWER: Lift up all you can, and first holding an ice cube or two on the gum will stiffen it appreciably. Use carbon tet to loosen what is actually in the carpeting so you can blot it up with tissue. Patience is an important ingredient.

FINISH FOR PIANO
QUESTION: I was given an old upright which will be perfect for my basement rec room. But I would like to make it look gay. Right now it's an ancient, somber black. Can I put on some bright finish without harming the tone? Is this much of a job?

ANSWER: Mere color shouldn't affect the music. At least, in a basement play room. By all means, refinish if you want. Sand down the present finish so there's no more gloss, no trace of wax. Wipe clean with turpentine, then spray with thin coats of top quality enamel. For complete hiding of a dark finish, you'll probably need three or four thin coats of a light-colored enamel. Remember, more than

FADED REDWOOD
QUESTION: My redwood fence is not one of those which like the colors reduced because when it weathers. So I would like to know how I can restore the original redwood shade on my redwood fence.

ANSWER: A special redwood stain is made for just this purpose. Usually available at any good paint or hardware store.

REPAIRING CHIPPED STOVE
QUESTION: Some time ago, I touched up a chipped place on our fairly new stove. I used

Although most of the shrubs to which this first file applies do not have the arching branches of the spirea, you should still prune them immediately after flowering by removing the older wood and by thinning out the new wood clippings from the base. Old wood is darker than the new, and sometimes it bears large growth. New wood is lighter and more vigorous, and

Festivities Are Planned For Sunday

The largest crowd ever to attend the St. Anne's religious festivities at Lennox Island, N.S., is expected this Sunday at the community 25 miles west of Summerside.

Two masses will be celebrated on Sunday morning, one at 10 a.m. and another at 11 a.m. The Rev. Anne M. Ryan, Superior of the Shrine, will be assisted with flowers to commemorate the feast of the patron saint of the Lennox Island natives.

AFTERNOON CONCERT
An afternoon concert will feature fiddlers and dancers from all parts of the island. Ruth Ross and her dance group from Charlottetown will provide Scottish and tap dancing. Also from Charlottetown will be the John MacKinnon Family and Mrs. Gauthier, a well known accordion player. The "Vocalists" Sisters and the Warren Brothers will also be featured.

Seafood and chicken dinners will be served by members of the Miscouche, High School domestic science class. Handicraft and souvenirs will be sold.

Motor launches will provide continuous transportation from the Port Hill wharf to the Lennox Island wharf, a distance of about four-fifths of a mile.

School Closing Held Recently

Worship, group singing, a presentation by each class and a fine display of handicraft made up the closing of the Church Vacation School of Hampton, N.S., held at the Church Centre each morning of last week.

A large group of parents and visitors were on hand for the exercises which brought to an end a successful school which had an enrolment of 112.

Mrs. Bryer Jones was discussion leader provided the leadership instruction in daily lessons of handicraft was provided by the following teachers and supervisors: Nursery: Richard Boucher, Connie Howatt; End: Muriel MacEachern; Primary: Mrs. M. Robert; Junior: Marion Lord, Mary Lea; Junior: Mrs. Frances Crosby, Sharon Dunsford; Beaton, Sharlene MacEachern was Vacation School Secretary.

Mrs. Doris Harold a teachers of arts and crafts who was on vacation from Montreal, gave valuable assistance in handicraft during the course of the vacation school. The Church Vacation School is an annual event and is attended by children from the pastoral charge and from surrounding communities. An offering for famine relief was given each day by the children.

Pruning Shrubs, Follow The Rules

Pruning deciduous shrubs is much less complicated when you follow a few simple rules. Decide for yourself why you must prune and the objectives you wish to obtain. Here are three good rules which, if followed carefully, will result in both a better understanding of pruning and better shrubs.

RULE 1. Shrubs that flower on growth produced the previous year should be pruned immediately after flowering. These include most shrubs that flower from early spring to the end of June, and some that flower a little later than this. Examples are Forsythia, Vanhoutte spirea, carland spirea, mock-orange, fountain buddleia, common snowball and Rambler roses.

Cut out all thin, weak wood and as many old flowering stems as necessary to assure that the growth will receive sufficient light and air to develop into strong flowering branches for the following season. Watch carefully the shape you wish certain shrubs to assume.

Let us suppose you have a common Vanhoutte spirea that has just passed flowering. There are many dead flowers on each branch and about half way down the branches are a few new yellowish shoots about six to 10 inches long. The first thing to do is to reach into the shrub and take out some of the older branches as close to the base as possible. By so doing you will inevitably take out some new shoots. However, this is all right because you are admitting air to the center of the shrub and helping new shoots to develop from the base.

Next, cut off all old wood. The flowering wood down to where a new shoot has branched out from that wood. This will ensure that next year the shrub will have a spirea with the much desired graceful downward arching branches beautifully laden with bloom.

Although most of the shrubs to which this first file applies do not have the arching branches of the spirea, you should still prune them immediately after flowering by removing the older wood and by thinning out the new wood clippings from the base. Old wood is darker than the new, and sometimes it bears large growth. New wood is lighter and more vigorous, and

Charlottetown Men Plead Not Guilty

Provincial Magistrate, James R. Johnston, held weekly Magistrate's Court at Georgetown on Thursday. The Crown was represented by Deputy Attorney General, J. Arthur McGuigan, QC.

Laurie MacGillivray of Charlottetown and Cyril Butler of Charlottetown were each charged under the Prince Edward Island Election Act, that they unlawfully did vote in Polling Division No. 53 in 5th Kings Electoral District, knowing that they were not qualified to vote by reason of their not being an ordinary citizen resident in said Polling Division on the day of the issuing of the writ of election.

Each of the three parties were represented by D. Frank Sigsworth. Each party entered a plea of not guilty.

John Neilson of Halifax, N.S., was also charged with the same offence. Mr. Neilson was not present at Thursday's sitting and his case was adjourned to August 14th.

Leo Gerald Jamison of Medford, Mass., pleaded not guilty to a charge of impaired driving and his case was adjourned to August 14th, for trial. He is represented by Mr. Sigsworth.

George Chalson of Pictou, N.S., was fined \$100 and driving on a charge of impaired driving.

Camille Edmund Landeigne of Charlottetown, appeared before the Court charged with impaired driving. He had been represented by Mr. Sigsworth, who on Thursday withdrew from the case. The Court granted Mr. Landeigne an adjournment to his request, to August 14th, to obtain counsel.

John William Hume of Kingsport, charged with driving without due care and attention had a plea of not guilty entered on his behalf before the Justice of the Peace in Traffic Court by

Shrubs that flower on growth made during the current year must be pruned before growth starts. These are shrubs that usually bloom during the period from July to the autumn. Examples are hybrid tea, floribunda and climbing roses, fall-flowering buddleia, hydrangea, Anthony Waterer and other pink-flowered spireas.

Prune these shrubs by cutting them back quite severely to where the growth started last year.

The Anthony Waterer and other pink-flowered spireas should be carefully pruned to thin the plants of some of the old wood. Pruning of the other shrubs should be limited to the removal of dead flowers so that a second crop of bloom may be anticipated in September.

RULE 2. Shrubs that are noted for both fruit and flower should be pruned a little after flowering and a little in early spring. These are shrubs such as the bush honeysuckle and some hibernicas.

Some shrubs need pruning only when they get very old, when they are growing out of bounds or when they have accumulated a lot of dead wood. Other shrubs are extremely bushy and need pruning more often to admit air and prevent the branches from becoming overcrowded. Many of our popular flowering deciduous shrubs need frequent pruning to maintain their best effectiveness, to give larger and more abundant flowers and fruits, and to present a more natural appearance.

Lilacs are oddballs. They are best pruned during early winter. Take out some of the old wood to the base, and this out the new Summer pruning must be limited to cutting out the old wood and leaving the new shoot, which will bloom next year. If your lilac is very old and needs rejuvenating cut it back hard and sacrifice blooms for two or three years.

Shrubs grown mainly for the color of their bark, such as some dogwoods, and willows should be cut back in early spring because the new wood is more colorful.

Shrubs that look incongruous in deciduous shrubs, except where formally has to match a landscape design.

On the whole, flowering shrubs are easy to care for and with judicious pruning at the right time and in the right place they will repay by forming shape bushes and by giving more abundant bloom.

NEW OFFICERS NAMED

Officers were named late Friday afternoon for the Maritime Fertilizer Council which held its annual meeting at The Charlottetown Hotel. Left to right are J. E. McIntyre, long time secretary-treasurer, L. A. Hanson, Saint John, N.B. who

is the new president, R. L. Reynolds, Kentville, N.S. is a director and Dr. Donald McKay, the past president, is a research officer at the Experimental Farm, P.E.I. directors named were Andrew Humphrey, P.E.I. department of agriculture, David Logie, Canada

packers, Summerside and Jack Gelliffe, research officer at the experimental farm here. The new vice-president is he was absent when the picture was taken. Is Dr. James R. Wright who is with the Canadian department of agriculture at Kentville, N.S.

Following yesterday's dinner, an informal reception and raffle took place at the Charlottetown Yacht Club last evening at 7:30 to give the various crews a chance to become acquainted. The presentation of trophies to the winners of this year's competition is scheduled for 4:30 Sunday afternoon.

Dr. G. E. Robinson Starting Practice

Dr. Geoffrey E. Robinson is commencing medical practice on Monday August 1st at Montague having taken over from Dr. John Bonnell who has left for post graduate training in orthopaedics. Dr. Robinson graduated from St. Mary's Hospital, London, in 1951 and spent 30 months in rotating residencies at Portsmouth. In 1953 he emigrated to Canada with his wife Dorothy, and two sons.

Alan is now 19 and will be entering Dalhousie this year having graduated recently from Prince of Wales. Nigel is 15 and will be entering grade ten at Montague Regional High School.

Dr. Robinson and his family are no strangers to the province. He practised in Tyne Valley from 1954-1965. He will be following the general pattern of practice of Dr. Bonnell. His office hours will be at the Kings County Medical Centre in Montague and St. Peter's. Both will be announced shortly.

Acquatic day will be officially opened by Hon. Robert E. Campbell, minister without portfolio representing Prince of Edward Island, who was unable to be present. A reception was held on board three ships last evening followed by a dance in the transit building to get Aquatic Day underway. Music was by Paul and The Echoes.

3 Submarines Dock At Alberton

submarine patrol craft tied up at Alberton wharf yesterday to take part in Alberton and West Prince Board of Trade's annual aquatic day.

Under command of Lt. Guy Comeau, on board the HMCS Mallard, the three 92 foot ships will be a centre of attraction today for the many people expected for Aquatic Day celebrations.

All events this year will be at Alberton South where preparations have been underway for several days.

Acquatic day will be officially opened by Hon. Robert E. Campbell, minister without portfolio representing Prince of Edward Island, who was unable to be present. A reception was held on board three ships last evening followed by a dance in the transit building to get Aquatic Day underway. Music was by Paul and The Echoes.

Annual Regatta Is Scheduled

The annual Canadian Flying Junior Championship Regatta will be held in this province for the first time in the 15 year history of junior sailing competition in Canada.

This year's competition to take place in the Charlottetown Harbor between the Charlottetown Yacht Club and Victoria Park will have 10 Island entries competing for the first time with an equal number of boats outside the province.

Competition is open to seniors and also juniors under the age of 16 who have met the qualifying requirements.

In order to qualify the skipper has to be the owner of a Flying Junior, and a member of a recognized junior sailing squadron. The races, which officially got underway at 2 o'clock yesterday afternoon, set 20 Flying Junior craft in competition for the Vanier Trophy and the Junior Sailing Regatta Trophy.

Scouts Holding Bottle Blitz

The Boy Scouts of Georgetown are holding a Bottle Blitz and will be calling on all homes on Saturday, July 30th. Last week the Scouts called at all homes and left with each householder a typed memo to remind them to have all their bottles, especially all pop, milk and beer bottles collected and outdoors in readiness for the Scouts to pick up on Saturday.

This is a 1st Centennial project sponsored by the 1st Georgetown Boy Scout Troop and the money realized from the sale of the bottles will be turned over to the Georgetown Centennial Committee, who are lending their full cooperation to the Scouts in this programme.

Funds are required to proceed with the work on the Town's centennial project of beautifying Kent Square and many former Georgetownians, now living their home town are also donating towards the costs of the project.

The Vanier Trophy will be awarded to the winner in the senior division, while the Junior sailing trophy will be presented to the winner of the junior division. This trophy was donated by Dr. W.W. Tidmarsh, Montreal, formerly of Charlottetown.

Operating Revenues Increased

MONTREAL - Railway operating revenues of Canadian National Railways for the month of June 1966 amounted to \$76,655,000, expenses, taxes and rents totalled \$73,223,000, resulting in a net railway operating income for the month of \$5,432,000.

In June 1965, the Railway operating revenues were \$70,019,000, expenses, taxes and rents were \$69,459,000 and the net railway operating income was \$500,000.

These figures do not include any provision for fixed charges.

DRUGGISTS MEET
SAINT JOHN, N.B. (CP) - The Canadian Pharmaceutical Association will hold its annual convention here Aug. 14 to 18. Speakers will include Mrs. Margaret Ridout, Liberal member of Parliament for Westmorland and parliamentary secretary to Health Minister MacEachern.

Island Firm Acquires Company

SUMMERSIDE - Alan Holman, president of R.T. Holman Ltd. of Summerside, officially announced yesterday that his company has acquired the Halifax company of Wood Brothers Co. Ltd.

The Holman company, founded in 1857, has retail stores in Summerside and Charlottetown and a wholesale and building division in Summerside.

Wood Brothers was founded in 1866 and has retail outlets on Barrington St. and at the Halifax Shopping Centre and a health salon at the shopping centre. No purchase figures were released.

Official announcement of the acquisition of the Halifax store by Holman's confirms a Canadian Press report of two weeks ago.

Appointment

George T. Urquhart, President and General Manager of Sumner Company, Limited, is pleased to announce the appointment of Kevin J. McGeary as Manager of the Prince Edward Island division of the Company with headquarters in Charlottetown. Mr. McGeary, born and educated in Prince Edward Island, joined the Company in 1961 and since 1963 has been a Company Sales Representative in Prince Edward Island.

There have been seven main races scheduled for this year's competition. Three are scheduled for Saturday and the remaining races have been set for Sunday. General chairman for the Canadian
