INCIDENCE OF THE N. P.

It is commonly known that Great Britain does not export many raw materials.

Consequently, when Canada imports raw materials from the States she does not discriminate against Great Britain.

It is commonly known that by reason of our nearness, we import from the States many articles, such, for instance, as fresh fruit, which we could not possibly obtain in Great Britain.

Raw materials and such other articles as we cannot obtain in Great Britain constitute a large proportion of our imports from the United States.

As to the Charlesvoix election the Montreal Witness of the 27th inst. says: "The facts are that Mr. Simard, a Mercier or Nationalist, carried the county by 307 in the last election, and when it was found that the government was materially benefited by his election, a Conservative, and has ever since supported the Bowell Government."

It appears that the result of the latest contest in Charlesvoix is that the Liberal majority in that county has been materially reduced, while the Liberal candidate stands in respect to the Government policy in regard to the Manitoba schools. There is, at all events, nothing in it for the Grats to brag about.

three prominent Presbyterian clergy men have publicly endorsed the Government's position on the Manitoba School Question. Rev. Dr. Isaac Murray, Presbyterian pastor of North Sydney, has written to Sir Charles: "I endorse most cordially your stand on the School Question as most legitimate and just. Let the constitution be sustained with equal rights and justice to all."

Sir Charles in one of his speeches said that "when a week ago in Montreal Sir William Dawson, the eminent ex-Principal of McGill, called on him the former said that as one of a Protestant minority, living in Quebec, he was of opinion that as another one of the same minority, Sir A. T. Galt, had insisted in having the minority clause put in the Confederation Act, and now that that compact was being revised in Quebec, and there was no cause for complaint, therefore, the French Catholics of Manitoba held the Government in duty bound to do what has been done, and have the grievance corrected."

CANADA TO ENGLAND.

1896.

If England's golden noon today should wane, Though England's summer drew unto a close, We crown her mistress of the world again, And twine our maple leaves around her rose!

Canadian hill and low Canadian plain Shall deck her autumn wreaths with younger flowers, And by her side we onward sons remain, Remembering her liberty means ours.

For their old homes can English hearts forget? Oh! island home, across Canadian shores, And evening seas, we crown thee mistress yet: Our maple leaf shall render to your rose!

ARTHUR J. STREINGER, Oxford, 1896.

AN IMPUDENT BLUFF.

(Montreal Gazette.) The attempt of Mr. Laurier and other Liberals in Parliament to convey the impression that the sentence of civil disqualification passed upon Mr. McShane, M. P., by the Court of Review, was removed by two in a division of the House for the Liberals, on the other hand, if Mr. Cimon, the Conservative candidate, is elected, the Conservatives will have ground for claiming that they have covered a Nationalist by their vote.

Carter's "Tested" Seeds.

You can buy Seeds at almost any price, BUT they are not CARTER'S SEEDS.

We seek the trade of merchants, farmers and gardeners who appreciate the value of First Class Seeds, and supply (wholesale and retail) the high quality of goods which has built up for us the largest seed trade in the Maritime Provinces.

Our prices are fair—as low as you can buy good seeds for—higher than you should pay for poor.

It is not their cost, number, how they are put up, or how advertised, that makes good seeds—it's what the seeds themselves are.

Our best customers are those who know us best.

It is our business to sell the best seeds that grow. This has been our business during the past sixteen years. We can safely claim that we know seeds.

We are now registering applications for our Illustrated Seed Catalogue for 1896—ready in February. Free to all. Address
