DAWSON & CO. mar 29 3i Lecture at North Lake. J. H. FLETCHER, Esq., recently paid a visit to his numerous friends in this part of the Island. On Tuesday evening, March 22nd, inst., he delivered his very popular lecture—"Ten thousand feet above the Sea," in Bethel Church, to a large and intelligent audience. Mr. Alex. Scott being appointed chairman, introduced the lecturer with a few appropriate remarks. The lecture, although occupying nearly two hours in delivery, was listened to throughout with rapt attention—a fact which goes to show that Mr. Fletcher is able to give a real good lecture, and that the people of North Lake and vicinity know how to appreciate one. At the conclusion, a unanimous vote of thanks was rendered to the lecturer. He replied by thanking the audience for the good order maintained, and the attention paid to the lecture. After singing an appropriate hymn the meeting dispersed. North Lake, March 26, 1883. A LARGE quantity of seed wheat daily expected, direct from Canada.—W. P. COLWILL. mar 29 6 w y 6i Religious Fanatics. There are in New Mexico about 2,000 persons belonging to the "Hermano's Penitents," a fanatical religious sect who believe in periodical atonement of sin by inflicting on their bodies agonizing tortures. They were originally Roman Catholics, but Archbishop Laney banished them from the community. Great care is taken to prevent discovery of their identity, all being masked while conducting annual penance and devotees often travel hundreds of miles to undergo prescribed tortures. Los Griegos, a small Mexican village near Albuquerque, contains the great body of penitents. On the 23rd inst. their ceremonies were inaugurated by an inductory procession containing about 20 men and women. The process of purification by torture began at 10 o'clock. Five men, naked to the waists, barefooted and wearing black robes and hoods that completely concealed their identity were seen to issue above the lodge house of the sect led by the master of ceremonies who carried a genuine cat-of-tails. Two high wooden crosses, weighing 250 pounds each, were placed on the shoulders of two of the self-torturers. The sharp edged cut into the naked flesh causing blood to spurt out and drop to the ground. One penitent produced a sharp gash which he thrust into the flesh of his fellow sufferers from time to time while the procession moved up the street singing a wild chant in Spanish. The crosses were transferred to the shoulders of others, the attendants meanwhile applying their raw hide whips mercilessly, each blow taking off skin and bits of flesh. During the march not a groan was heard nor was a word spoken but just before reaching the goal an ordeal was encountered which tried the nerves of the boldest. For some distance before the doors cactus plants had been thickly strewn upon the ground and only broken whips and poles and blood bear witness to what transpired within. Issuing from the House the procession reformed and returned to their house of worship, and so the horrifying spectacle continued, one band of penitents succeeding another until night, when a grand procession and chant wound up the exercises for the day. ELECTRICITY and Magnetism when properly passed into the blood, brain, and nerves produces most wonderful effects. We are told that these elements are perfectly blended in the medicine known as Mack's Magnetic Medicine, advertised in another column, and the good which has resulted from its use cannot be computed in dollars and cents.
