

THE DAILY EXAMINER.

CHARLOTTETOWN, P. E. ISLAND. THURSDAY, AUGUST 8, 1895. VOL 35. NO 32

The Weekly Examiner
is issued every Friday morning from the
publishers' office. It is made up of matter
which has appeared in the Daily editions, and
is a first-class weekly newspaper—interesting
in all of the latest news.

CALENDAR FOR AUGUST, 1895.

Isaiah Horne's Famous Remedies.
MR ISAIAH HORNE.
Dear Sir—My son strained the muscles of
his arm some time ago, and suffered violent
pain until treated with a rubbing of your
"Muscle Disolver," which gave relief at once.
Also my other son struck his knee against a
log and it pained him so that he could not
sleep. He got out of bed and rubbed his foot
with the remedy and fell asleep and was all
right in the morning. I think it a grand
remedy.
Yours truly,
WILLIAM NEIL,
Rustico Road.
Mrs Mary Webster, of Bay Fortune, who for
ten years past has been lame with rheuma-
tism, reports to Mr. Horne that she is now
cured of her complaint by using his Rheuma-
tism Cure.

Charlottetown, July 20, 1895.

Pronounced First Class
by Expert Testimony.
A thing of beauty and a joy to those who
are using our new steam hoists in Charlottetown.
And we will guarantee that all who will
use our new automatic piston valve creamery
engine will after years of constant use say the
same thing, as they will do their work at less
cost of fuel and repairs than any of the light-
weight machines imported here. They are
strongly made, with solid forged cranks, large
bearing, wearing surfaces easily taken up when
required, requiring no expensive foundations.
Being self-contained, can be placed on any firm
floor and fastened down. Sold at competition
prices. Valves considered, they are cheaper
than any furnished by any in the business.
Call and see them work or send for prices before
preparing elsewhere. Estimates for creameries
complete furnished on application.

MR. DILLON'S SPEECH.
The Dairy Industry in P. E.
Island and the Genius of
Irishmen.

A report of the highly interesting ad-
dress of T. J. Dillon, made on the 2nd of
of THE EXAMINER yesterday. We
publish it to-day:
MR. T. J. DILLON'S SPEECH.
MR. President, Ladies and Gentle-
men—
I wish to congratulate you on hav-
ing such an excellent day, such a
splendid gathering and so many
prominently present, more espe-
cially favoured in having
for your principal speaker to-day
a man whose influence is wide and
far-reaching, and whose opinions
are nearly all quite familiar. Most of
you know that the work in this Pro-
vince has met with unparalleled suc-
cess. The output the first season
was nearly eight thousand tons, and
yet the exports the second year were
eleven times greater than those of
the first. The third was double that
of the second, and the present bids
fair to be more than double that of
last year. Twelve thousand six hun-
dred cheese had been made at the
last of July; and if things go on as
they are we will put up \$200,000,000
worth of butter and cheese in the fac-
tories of Prince Edward Island this
season. Twenty-eight thousand nine
hundred pounds of butter were made
during June and July at the two
creameries. When I telegraphed the
Dairy Commissionaries, and they
account of milk supplied and pay-
running expenses for the month of
July, 1895, the Honorable John Car-
ling, who was the Minister of Agricul-
ture, I am told, was delighted to
find the people were taking hold and
giving the new industry such a hearty
support. The amount of money paid
out for the same purpose during the
month of June, 1895, was \$24,454.00,
and for the month of July will be
about \$22,000.00. This season is paid
in small amounts to 2,963 patrons, 230
milk drawers, 69 butter and cheese
makers and for freight, fuel, etc. It
is put so thoroughly into circulation
that it does a great deal of good.
The people have done well and de-
serve credit for the way they have
taken hold of the work. Public En-
quiries in every neighborhood
have spent both time and money to
get the factories started.
Then, Sir, we hope ere long to have
all those coolies running and
separating stations during the fall and
winter months, at which the farmers
will deliver their milk, have it sepa-
rated and sent to the creamery, where
it will be ripened and churned and the
butter put up and marketed by the very
best skill and the most modern ma-
chinery. The amount of money paid
for the exports of dairy produce from
P. E. Island can be made to reach \$500,-
000.00 annually in a comparatively
short time.
There will naturally follow an enor-
mous increase in the output of
pork from the pigs fed on the skim
milk and whey from the factories.
The quality of the dairy and pea-
fed Canadian bacon is being recog-
nized by the consumers of England,
and prices for it just now are
fairly high in that market for that
of the United States.
Thus you see one great object of
our work is to enable the people
to get money—not as too many peo-
ple are getting it at the present time,
but by the most honourable of means
and in the most direct and wholesome
food for their fellows.
The farmers are patronizing the
factories better this season and the
charge of 11 cents to meet the man-
ufacturing will very nearly if not
quite pay all expenses. Twelve new
factories were started last spring;
and it always costs more to get a
factory started than to run a factory the
first season.
The industry is pretty well estab-
lished now. All that is needed is the
healthy, generous, cordial coopera-
tion of everybody. Then, Sir,
the business will be such a suc-
cess and the results such that the
luxuries of both nature and art will
be within the reach of every intelli-
gent citizen of this Province.
Now, Mr. President, Ladies and
Gentlemen, I wish to say a few words
on an entirely different subject. You
have met here in honour of the mem-
ory of Daniel O'Connell, the emanci-
pator of Ireland, to a very great extent,
and it is always a pleasure to meet the
patriotic sons of Erin upon this, the
anniversary of the birthday of one who
struggled so long and manfully in his
country's cause. Love of country is
the main spring of man's noblest
and grandest achievements, and in
no people is this more marked than
in the Irish. But, Mr. President,
Ladies and Gentlemen, while Irish-
men love their country they do not
love each other as they should. Dis-
cord has been the curse of Ireland.
If its people were united they would
have put an end to the agitation for
Home Rule. Contention has weaken-
ed the cause and the people of Ire-
land to a very great extent. Yet in
English speaking countries we find
them taking first place in nearly
every calling.
In oratory we must admire the
genius of a Burke, who composed

Weak, Tired, Nervous
Women, who seem to be all worn
out, will find in purified blood, made
rich and healthy by Hood's Sarsapa-
rilla, permanent relief and strength.
The following is from a well known
nurse:
"I have suffered for years with female
complaints and kidney troubles and I
have had a great deal of medical advice
during that time, but have received lit-
tle or no benefit. A friend advised me to take
Hood's Sarsaparilla and I began to use it,
together with Hood's Pills. I have re-
ceived more benefit from these medicines
than from anything else I have ever taken.
From my personal experience I believe
Hood's Sarsaparilla to be a most complete
blood purifier." Miss C. Crookston, 71
Cumberland St., Toronto, Ontario.

MR. DILLON'S SPEECH.
A SUBSTITUTE FOR WOOD.
Plans Made of Cork Will be Used in the
New Ships.
Several months ago the Board of In-
spection and Survey of the Navy De-
partment was directed to make an in-
vestigation with a view of estab-
lishing some practical substitute for wood
in fitting out naval vessels. The de-
sire for a substitute was the fact that
a lighter material was wanted if pos-
sible, one that would not splinter. It
was also desirable to have a non-com-
bustible substance.
The board has made a report to the
Secretary of the Navy, and some of its
recommendations have been adopted by
him, and it is probable that some of the
new ships will be fitted with the new
material as a substitute for wood.
One of the best materials which has
been proposed by the board is a wood
substitute composed of waste cork. The
cork is subjected to 40 degrees of
heat, and it is then pressed into blocks
of any required size. It can be sawed
into thin strips or handled very much
as wood is handled. Cork has a gum
that great heat melts and glues its
particles together in a compact mass.
After being pressed it sticks together
so that it will not grow apart. The
cork boards may be made heavy or
light, as wanted. Some of the lighter
kinds are used in the walls of refrig-
erators. It is a non-conductor, and
will not be made to burn. This
material is used in the place of wood
in German vessels. Commander Brad-
ford, who made the search and exami-
nations of this particular substitute,
states that the Germans were using it
under a patent taken out by John Smith
of New York, and that companies in
the United States had obtained rights
for its manufacture here.—Washington
Post.

Are You Saving Money?
We know it is pretty hard to do so these
hard times—but then things will look up
later on. In the meantime

LOSS OF FLESH
is weakening. You cannot af-
ford to fall below your healthy
weight. If you will take Scott's
Emulsion of Cod-liver Oil with
Hypophosphites of Lime and
Soda when your friends first
tell you you are getting thin,
you will quickly restore your
healthy weight and may thereby
prevent serious illness.
Persons have been known to
gain a pound a day by taking
an ounce a day of Scott's Emul-
sion. This seems extraordinary,
but it is absolutely true.
Don't be persuaded to accept a substitute!
Scott & Bown, Belleville. 50c. and \$1.

Medical Testimony
During half a century proves Cod Liver
Oil to be the most necessary thing to take
for consumption. But the trouble has
been its improper methods of preparation
for invalids. Miller's Emulsion of Cod
Liver Oil is the only reliable thing on the
market. None but the best of the Nor-
wegian Cod are used in making it. In
conjunction with the hypophosphites of
lime and soda it has the most wonderful
effect on consumptive patients, who, after
taking it a while, gain new strength, rise
from their beds and enter upon a new lease
of life. Miller's Emulsion is the great
nerve and blood maker and cures coughs,
colds, bronchitis, scrofula and all lung
affections. In big bottles, 50c and \$1, at
all drug stores.
A NEW LEASE OF LIFE.
People are ready to exclaim that they
have obtained a new lease of life after tak-
ing Wilson's Celebrated Brain Food. For
it has this distinct advantage over the or-
dinary tonic, that while it invades the
system, it also, by its generous qualities, its
richness, its full body, makes bold. Wil-
son's Brain Food is used by thousands
all over the continent who have felt the
necessity for a strengthener of the debili-
tated system. An immediate relief for the
feeling of lassitude. A fine oil wine,
cheering the cookies of the heart. Sold
by all dealers at \$7.50 per case of 12 quart
bottles, half case \$4.00 or 75 cts. per
bottle. Thousands use it to their advan-
tage. The Bordeaux Claret Co., 30 Hos-
pital Street, Montreal. 246 w

Painless Dentistry!
This is addressed to all those who are suffer-
ing from TOOTHACHE, or who may require
treatment of any kind at the hands of a den-
tist. I make the very best Teeth, guaranteed
for \$10 a set. If not satisfactory, money re-
funded. Gold and Silver Fillings a specialty.
The following letter from Dr. Robertson of
Crapaud, as regards the Painless Extraction
of Teeth, speaks for itself—
To E. McDonald, D. D. S., Wellerside, P. E. I.
Dear Doctor—I am so well pleased with the
work you have done for me that I will take it
as a special favor if you will give publicly to
this letter. I positively assert that after an
experience extending over twenty-two years,
you removed for me at one sitting, and with
Absolute Without Pain, the TEN teeth
you were present at the operation, heard me
testify. The man who invented your meth-
od should be gratefully
I am, yours, gratefully,
