27 Waltron, De Roche, Sydney—bal.

The Brig *Henrietta*, arrived here from Liverpool on Wednesday last, having on board 10½ miles of Telegraph Cable, all in one piece, about 2½ inches thick. It is to be laid down between Cape Traverse and Cape Tormentine, crossing the Gulf of St. Lawrence. Sufficient wire, we understand, arrived here last week in the Bark *Closina*, from Liverpool, to reach from Charlottetown to Amherst N. S., less the length of the Cable crossing the Straight. We understand Mr. Gisbourne is expected here daily, and that the Telegraph Posts between Charlottetown and Cape Traverse will at once be erected.—*Isl.*

A CARD.

MRS. WINSLOW TO THE LADIES.

MRS. WINSLOW, an old an experienced nurse and Female Physician, would call the attention of the Ladies to her Soothing Syrup for childern teething. It will immediately relieve them from pain, allay all spasmodic action, soften the gums, reduce inflammation, and is sure to regulate the Bowels. Depend upon it, Mothers, it will give rest to yourselves and relief and health to your children.

Price, 25 cents per bottle.

We have sold very large quantities of Mrs. Winslow's Soothing Syrup during the past six years, several thousand the last year. We believe, it the best medicine in the world for children teething or for the cure of Dysentry and Diarrhea in Children, whether it arises from teething or any other cause. It gives universal satisfaction—never never heard a complaint from any one using it, never sold a medicine so universally successful in relieving pain and effecting cures—relief is *absolutely sure.*

CURTIS & PERKINS,
Druggists, Bangor, Me

WONDER OF THE WORLD.

Gravel Cured of five years standing.

Messrs. CURTIS & PERKINS, Bangor, Me.

Gentlemen,—I have been entirely cured of the Gravel, by the us of your *Cramp and Pain Killer.* I commenced taking the Cramp and Pain Killer in the Spring of 1847. I had been a great sufferer for ten years previous; some four or five years of the time I suffered beyond all my powers to describe.

During this time, I have had medical aid, and tried various specifics, but found very little relief until I obtained your Cramp and Pain Killer. In one month after I commenced using it, I began to grow better. I continued to use it for a year, all the time improving until I was entirely cured.

MILES STAPLES.

Prospect, Me., Jan. 29, 1851.

We, the undersigned, are well acquainted with the above case, and certify to the above statement of facts.

CHARLES CLIFFORD,
HANNAH CLIFFORD,
STANTON ELLIS.

Doctor Toby, a regular practising Physician, of East Machias, writes us under date of March 20, 1847:

"Please send me half a gallon of your Cramp and Pain Killer—it is the best medicine to cure what it is represented to, that I ever used."

The Doctor first made use of it in his own case, for a severe sprain in the shoulder, caused by the upsetting of a stage, and found immediate relief, and has since used it in his practice.

Read the following. It speaks for itself.

RHEUMATISM CURED.

I certify, that I was afflicted with a violent Rheumatic pain in the small of my back, which entirely disabled me, so that I could not get up without the greatest pain and effort; nor could I walk without a cane, and but very little with. I applied Doctor Johnson's Anodyne Liniment, or Liquid Opodeldoc, and several other remedies, without any relief. After suffering in this way about a week, I purchased a bottle of *Cramp and Pain Killer*, prepared by CURTIS & PERKINS, Bangor, and after *three applications* was entirely relieved and free from pain, and am now entirely well. I also cured a friend of mine, who had been suffering for a long time with a lame side, with the same bottle. I believe it the best medicine in the world, and am happy to add my testimony in its favour.

OLIVER TOWNES.

N. B.—Be sure and call for CURTIS & PERKINS' Cramp and Pain Killer. All others bearing this name are base imitations.

Price 25 cents per bottle. For Sale by

WM. R. WATSON.

Charlottetown, June 14, 1852.

S. C. HOLMAN.

Charlottetown, June 1, 1852.

PATENT ARTIFICIAL SLATE,

And Unchangeable Metallic Paints:

PROOF AGAINST FIRE & WATR!E

Manufactured by the Patentee, in Colchester, Nova Scotia.

THE ARTIFICIAL SLATE is the product of a mixture of mineral substances known to be the best non-conductors of heat as well as the most indestructible; the Chemical affinity of which conl verts the surface of materials covered, into a *Coating of Actua-Slate—Proof* against FIRE and WATER. Thus the laws of nature are made to accomplish results as surprising as they are useful, by rendering Wooden fabrics as durable as brick or Stone, and less pervious to moisture, and consequently preventing decay and destruction from corroding influences hitherto supposed unattainable.

The principal ingredients are Alumina, Silica and the Oxides of Iron. The adhesive quality of the latter not only binds and attracts the particles together, but the substance covered also. The longer exposed to the weather the more powerful the attraction, and consequently the harder the *Slate.* As various shades of colour are obtained, Brick buildings may be made impervious to moisture, and the fashionable colours of either *Free Stone* or *Granite.* The oil must be evaporated by the action of the weather before it is *Fire* proof, which will take from nine to twelve months.

The METALLIC PAINTS, *Purple* and *Red*, are offered as *Weather and Water Proof solely.* Their base being Iron, secures them from Galvanic action so fatal to lead and other Paints on *Iron* work—and their chemical combination makes it impossible, that any change should take place from atmospheric influence or the action of Salt Water and Sulphureted hydrogen so prevalent in Sea Ports and Tidal Harbours. They surpass all Paints yet discovered in *Cheapness and Durability*, which render them pre-eminently adapted to the covering of all kinds of Iron work, such as *Shipping, Mills, Bridges, Steam Machinery, Railway Cars, and Iron Railing.* The METALLIC PAINTS have been analysed by Professor Hays of Boston. The following is an extract from his Certificate:—"As a permanent pigment, this mineral must rank with the most *indestructible and unchangeable* bases. For covering Metallic Ware, its composition shows that it is eminently fitted.

(Signed) AUGT. A. HAYS, *State Assayer.*"

Directions.—Artificial Slate. Mix the powder with pure Boiled Linseed Oil and a little Spirits Turpentine to the consistency of very thick Paint, and apply with a common Brush, being careful to keep the mixture well stirred while putting it on. One pound will cover ten square feet with two Coats.

If Shingles have been on for years, it will be necessary to sweep off the moss and lint with a stiff broom; two or three coats of this material will make a perfect Slate Roof, proof against Fire and Water.

FREDERICTON, N. B., Nov. 13, 1850.

Mr. J. W. IRISH.

DEAR SIR,—Please send us two more barrels of your Artificial Slate. We have seen some of the good effects of it at the last fire. Some of the Roofs covered with it did not catch at all, and when the walls were burnt some of the roofs came down in one piece, and others were the means of saving the building, especially one roof alongside of the Bank B. N. A., which also was one means of saving the Bank.

Please see that it is on board of the first boat, as it might be neglected and stored.

Your obedient Servants,
STEWART & NEILL.

ST. JOHN, N. B., July 20, 1850.

JOHN ROSS, Esq., *Patentee of the Purple Metallic Iron Paint.*

SIR,—I have just painted a new Ship with your Metallic Iron Paint, and I have much pleasure in stating that I never painted a Ship with so small a quantity of Paint and Oil, and look so well. From its adhesive qualities and the manner it covers the wood, I have no doubt but it will be more durable and much cheaper than any other paint used for such purposes, and would recommend it to the public generally.

Yours, &c.
ROBERT G. MORAN.

ROSS' METALLIC PAINTS.—We have already called public attention to the high estimation in which the Metallic Paints, manufactured by John Ross, Esq., Truro, are held by those who have had occasion to use them. Certificates of a highly satisfactory character in praise of these articles of Provincial manufacture appear elsewhere, in this issue, and from information afforded by parties who have similarly applied them, we can safely endorse the opinions therein contained.—*Halifax Sun.*

☞ The METALLIC PAINTS are mixed and put on like an ordinary paint.

JOHN ROSS, Patentee.

Agents for Prince Edward Island, GEO. T. HASZARD, Queen Square, KENNETH M'KENZIE, Pownal Street.

Charlottetown, Oct. 8, 1851.
