Sherbrooke Calf Club Member Wins Provincial Public Speaking Honors

The Rural Youth Fair activities opened last evening at Prince of Wales College when the contestants in the Public Speaking Competition and Folk Dancing assembled in an atmosphere of goodwill and companionship as a preliminary to the big event of today.

Eleven contestants from the three counties vied for top honors in public speaking and four clubs competed in the folk dancing. H. B. Colwell, Sherbrooke Calf Club was accorded highest honors in the public speaking event, closely followed by Miss Lucina Campbell St. George's Sewing Club. County winners were Prince; H. B. Colwell, Mariene Huestis, Kinkora, Kings County; Lucina Campbell, St. George's; Mary Curran, Baldwin's Road; Queen's County; Margaret Trainor Emerald, Bernadette MacKenzie, Alberry Plains.

Other contestants were: Carl Colwell, Northam; Charles Dymond, Northam; Lorne Ramsay, Malpeque; Anita Trainor, Baldwin's Road and Estelle Connolly, Baldwin's Road.

The judges in the Public Speaking contest were: Mrs. Julian Her-

ring, Mr. J. Frank MacMillan and Mr. Neil Matheson, all of Charlottetown.

The winners of the folk dancing competition were Mount Hope-Farmington Junior Farmers, with Tracadie Junior Farmers running a close second. Two other clubs competing were Sherbrooke Calf Club and St. George's Junior Farmers.

Judges of the dancing were Miss Joan Miller, Doctor J. A. MacMillan and Mr. George Andrew. Suitable prizes were awarded for the competitions, by the Provincial Department of Agriculture, P. E. Island Women's Institute, and the P. E. Island Federation of Agriculture.

The programme was conducted throughout by Mr. Morris Deacon, fieldman, Provincial Department of Agriculture.

W. R. Shaw, Deputy Minister of Agriculture in presenting the prizes, commended the young people assembled for their splendid achievements.

A pleasing recreational hour followed in which dancing was indulged in with Johnnie Stern's orchestra providing the music.

Great Interest In Rural Youth Fair Opening Today

The big Rural Youth Fair opens this morning at the Exhibition Grounds with a greater number of exhibits in all classifications than ever before. There are no less than 29 exhibits from that many calf clubs of the Province. Several of the young animals arrived and were quartered in the barns yesterday.

In addition there will be sewing clubs from 78 different sections of the Island represented in the showing, while poultry clubs and flower clubs also take part.

In the newly erected Fox Pavilion extension will be several excellent booths. One of the most interesting is that of the Forestry Division of the Department of Industry and Natural Resources. Foresters Frank Gaudet and Wendall Profit have arranged an original exhibit around the growth of balsam fir trees. It shows the tree in various stages of development from

the first year seedling until it eventually adorns somebody's home as a Christmas tree.

Besides this the exhibit also shows how it develops from the cone to planting. On display are plates of cones, which contain the seed, showing how the scales provide protection for the seeds inside and then the winged and de-winged seeds themselves for planting.

One thing which will appeal to the youngsters is the prepared story of a balsam fir, as told through its annual rings. They definitely show changes in the growth from the large rings of early youth to where the tree must have been cut off from the sun for a long period. This is indicated by the narrower rings as surrounding taller trees were cut down. The circle of wood shows a period of 52 years growth.

Another display of the Department is that of a section of a tree cut lengthwise to let people see how a layer of wood is added each year through the annual rings.

The Vocational School also has an interesting booth prepared. Using its own motto as a theme, the display features "Education for Living". The main attractions are showings of the work done at the School including the making of window frames, tin work, various articles showing the metal work being taught from horseshoes to anchor chains, and a chimney. There are also many pictures of the classrooms showing the students in training.

Of considerable interest is the Dairyman's show which has as its centre a large map showing the location of all dairies and cheese factories in the Province.
