

THE DAILY EXAMINER. DECEMBER 21, 1896.

GOOD LEGISLATION FOR CANADA.

CANADIANS going into the United States are, it appears, to be treated as Chinese coming into Canada...

Again, if we are to believe the despatches, a ruling has been made by the Secretary of the Treasury at Washington to the effect that trained nurses of Canadian birth employed in the States can be deported...

"As soon as Mr. deBarry (the immigration inspector there) received notice of this new ruling he started out to get the names of the Canadian nurses in the hospitals. He visited the general hospital last evening and made arrangements to get the names of the Canadian nurses who are employed in the hospital...

The hostile intention of those who are making these laws and rulings is sufficiently apparent. Yet we question if any action more friendly to Canada could possibly be taken...

The splendid crop, the rise in wheat, the gold boom in British Columbia, and, last of all, this timely hostile legislation and administration in the States...

THE MAILS.

The Princess was delayed at Pictou yesterday on account of the late arrival of the train, there was no mail clerk on board her, the mail was heavy with Charlottetown matter, and the consequence was that the letters and papers for Christmas were not all ready for distribution until late in the night...

INTERNATIONAL GOOD FELLOWSHIP.

It is a curious fact that those citizens of the United States who go home to Great Britain, and mingle among the people there, come away with their preconceived notions of the Mother Country considerably modified...

THE SPOILS COMMISSIONS.

The commissions to investigate charges of offensive partisanship preferred against employees of the Government are not giving satisfaction. They must have evidence; and evidence is hard to get or give...

AUSTRALIAN FEDERATION.

ANOTHER attempt is being made to bring about a federation of the colonies of Australia in one great Dominion similar to that of Canada...

But the difficulties in the way of union seem to be too great for the politicians of the Antipodes to overcome. Yet these difficulties are by no means insuperable...

NOTES AND COMMENTS.

The Provincial Treasurer reminds persons in arrears that all Provincial Taxes must be paid before 31st December, and threatens legal proceedings...

Montreal Gazette: Before he became premier, Mr. Laurier represented the Liberals as holding the good-will of the United States in the hollow of their hands...

The joint resolution acknowledging the independence of Cuba, introduced into the United States Senate recently, reads as follows:

Resolved, by the House of Representatives of the United States of America, in Congress assembled: That the independence of the Republic of Cuba be, and the same is, hereby acknowledged...

Section 2. That the United States will use its friendly offices with the government of Spain to bring to a close the war between Spain and Cuba...

A Washington special to the New York World says that, according to high authority, Secretary Olney when he appears before the Senate committee on foreign relations will give to the committee a piece of information that Senator de Lome, the Spanish Minister, has unofficially conveyed to him...

The Norwegian steamship Jarl which arrived at Mobile a few days ago from Bluefields, Nicaragua, brings news of active preparations being made in Nicaragua looking to war with Columbia...

The cause of preparations for war is a dispute between Columbia and Nicaragua as to the ownership of the great and little Corn Islands about 40 miles from Nicaragua and 60 miles from Rama...

MALT EXTRACTS. Their name is Latin and not only so, but they are made from that is "Wheat". It is acknowledged by everyone to be far ahead of all other drinks. It contains practically no alcohol, and therefore is perfectly safe to give to nursing mothers and children...

Notes from the Capital.

There will be no further investigation into the tariff until the first week in January, 1897, when the sittings of the Commission will be resumed in Montreal.

It is said that the Minister of Marine and Fisheries is not satisfied as to whether the hatteries have been an unequalled success. He fore rearing any new hatteries, therefore, he will investigate fully the question.

SANTA CLAUS HEADQUARTERS

has been the centre of attraction of this city during the past week. It has been the wonder of all the small people, and the source from which others have procured Xmas presents for friends at home and abroad.

Only Three Days Now until Christmas, and we propose to make these four days the most interesting in the annals of the

Toy and Fancy Goods Trade of this City.

Our stock is so immense that there is no danger of a famine, and the variety so great that we can suit all tastes; while the range is from goods worth ten to fifteen dollars each to others costing ten cents per dozen, and yet each and all suitable for Xmas presents.

Santa Claus Headquarters is for the Rich and the Poor.

and the harder the times the larger the trade, because more can be had for the money here than anywhere else. People from almost every household in the city will visit this store during these three days, hundreds, possibly thousands every day.

Let Them Come!

Our store is large (three stores in one), we have twenty-two attentive clerks, and the store is open until after 9 o'clock every night. Goods are delivered to all parts of the city promptly.

Should we mention prices? We have cut prices of many lines of Fancy Goods in half. We are taking 10 per cent. discount from most other lines, and the prices were low before.

Yours for a Merry Christmas,

Geo Carter & Co

Treated by the SALISBURY Method of persistent SELF-HELP in overcoming persistent errors and removing the cause of disease. The result justifies the means.

This is not an easy quick cure-all. Neither should it be judged by certain bad imitations already among the people nor by the half-hearted efforts of invalids to go it alone or half do it. The salvation of health necessitates sincere repentance, constant self-denial and whole-hearted faith in the good works of physician and patient. Not even M. D.'s certificates by the ream will save one from the evil consequences of stimulants, food or solid.
