DON'T you believe it, when See See Jones' cheap imposition tell you he has left the Island, and they can divine water and bore you a well and sell you as good a pump as his double patented C. B. Pump. Such lies are played out, and they and most of their pumps and wells also. Now, try Jones; he don't dry up, freeze up, or fail up. He pays one hundred cents to the dollar. Address C. C. Jones, Box 163, Charlottetown. [ja6 6i eod wli]

WE are pleased to learn that a detachment of Major Morris' Battery of Garrison Artillery have been declared the winners in a shifting ordnance competition, open to all Garrison Artillery affiliated with the Dominion of Canada Artillery Association. The shift in this competition consisted in mounting a 33-pr. gun, resting on two short skids on the ground, up the rear of a standing garrison carriage, and lowering it into the trunnion holes, replacing stores and making the gun ready for service. This the detachment succeeded in doing in one minute and twenty-five seconds, beating the best time made against them by half a minute. The prize won consisted of a Hand-book of Field Service, to the commander of the detachment, and \$20 for the detachment.

DODD & ROGERS, CH'OWN, P. E. ISLAND.

THREE SIZES: No. 1, 7-inch Holes; No. 2, 8-inch Holes; No. 3, 9-inch Holes.

To those who want a FIRST-CLASS PERFECT OPERATING COOK STOVE, we would invite special attention to our "PATENT VICTOR," and think on examination it will justify our claim as being the MOST COMPLETE and PERFECT Soft Coal Cook Stove ever made. We claim for it—

1st. It is simple; it has but one damper, used to apply the heat to the oven, which is so arranged that the most ignorant cook cannot mistake its use.

2nd. It is quick in its operation, the plates of the oven being Corrugated, and Deflecting Plates being placed under the oven in such a manner that the heat is thrown under the oven evenly, and the flues around the oven so large that a perfect bake is insured in the shortest possible time.

3rd. Its Perfect Arrangements for cleaning out the flues and under the oven, being provided with cleaning doors at the front and back of stove; also, holes in top of stove for cleaning flues, thereby giving perfect access to all its parts.

4th. It is provided with an Open Front, small doors for feeding coal, and large doors below, which when thrown open make it equal to an OPEN FRANKLIN, and a most cheerful stove to sit by.

5th. It is a Great Saver of Fuel, doing its work with one-half the fuel usually required by other stoves.

6th. It has given perfect satisfaction in every case, and we warrant it a perfect Baker.

Examine the "Victor" and you will buy no other. Many of these Stoves are in use for wood, and are giving every satisfaction.
