

THE DAILY EXAMINER.

AUGUST 12, 1895.

CITY LIGHTING BY THE CITY.

Not much interest has been shown in this proposal. The City Council ought, therefore, to be the more careful to guard against hasty action.

It is needless to say that the objections raised against the proposal have not been met. The Patriot, it is true, points to the success of the city water works.

Incidentally, however, the question of religion or no religion in the public schools is being discussed. That this is so significant, no question is fraught with greater importance to this Canada of ours.

Let not England think she can meet the peril by an education exclusively secular; reading, writing and arithmetic are not everything.
