

PETERS ROAD Variety Concert, Murray River Hall, Friday, February 25th, 8 p. m.

LISTEN TO CFY this evening at 8:45 for a message from Walter R. Shaw.

CARD PARTY - A card party sponsored by the Montague C.W.L. was held in the Armouries on Monday night with a large attendance. The door prizes were won by Mrs. Dan Condon, the ladies prize by Mrs. D. J. MacKenzie, Charlottetown, and the men's prize by Levi Power. Lunch was served by the committee in charge.

King's County Finals Tonight

Montague Primroses go into the final game of the King's County Intermediate "B" playoffs tonight with a three-goal cushion over the Georgetown Eagles. The Primroses won the opening game of the two-game, total-goal series by blanking the Eagles 3-0 on Monday night at Georgetown. The two teams were also last year's King's County finalists and that series will be long remembered in the area for the fast, furious and at times, exceedingly rugged hockey it produced. Montague finally won out, but only after a close bitter struggle. The Primroses, all during this unfortunately short 1954-55 season, have been treating Montague fans to the best hockey they have seen in a good number of years. All of their games were of the wide-open, crowd pleasing variety. One game especially stands out, and that was the thrilling contest of last week when Montague battled S. D. U. to a 6-6 stalemate. That game, in the minds of many old time fans, was the greatest ever played in Montague, which, when the great Primroses teams of days gone by are taken into consideration, is saying a lot. So, the excitement of thrills seems to be in store for the large crowd that will likely be on hand for tonight's contest.

Minor Hockey At Georgetown

In the second game of a home and home, two-game series played at Georgetown last night, the Montague paperweights won by the score of 1 to 0 on a goal by D. McCarron. This gives Montague the series 4 to 1.

In the second game of the night, Montague was defeated by Georgetown. Pee Wees 8 to 0 as Pearson performed the hat trick. Montague won the this series 7 to 0 on the round.

In the third game Georgetown Bantams and Montague Bantams played to a 1-1 tie. Scoring for Georgetown was Terry Solomon and for Montague Henry Stewart. The first game of this two-game series was played Tuesday night at Montague with Montague winning by a 2 to 1 score but the game was protested on the question of the ineligibility of a player and the game was declared no contest.

The second and final game of this series will be played at Montague tonight.

Montague Draw

The following is today's draw for play at the Montague Curling Rink. 6:30 p. m. Winner of Sec. "A" vs. winner of Sec. "D". B. Smith vs. L. MacDonald. 8:00 p. m. G. G. Jardine vs. A. Fraser. V. MacDonald vs. A. MacGregor. 9:30 p. m. winner of Sec. "B" vs. winner of Sec. "C".

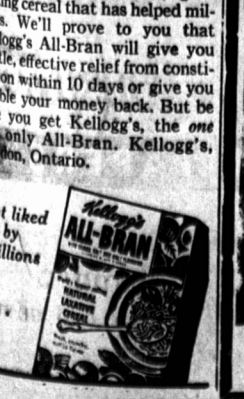

OFF SCHEDULE?

Here's news for people who suffer needlessly from constipation

You've probably tried lots of laxatives. But do you know about Kellogg's All-Bran? It's the original natural laxative cereal pioneered by W. K. Kellogg nearly 40 years ago. All-Bran is a delicious dish that promotes comfortable elimination.

Relief from Constipation The greatest advantage of All-Bran is that it corrects the cause of irregularity due to insufficient bulk. Chemical or drug-type laxatives, on the other hand, are intended only for overnight relief of temporary stoppage. All-Bran, made from the outer layers of the whole wheat kernel and supplies natural food bulk. Just eat daily a one ounce serving for breakfast and drink plenty of water. It will improve your "Intestinal Tone" so necessary to comfortable regularity.

Satisfaction Guaranteed or Double Your Money Back All-Bran is a wholesome, good tasting cereal that has helped millions. We'll prove to you that Kellogg's All-Bran will give you gentle, effective relief from constipation within 10 days or give you double your money back. But be sure you get Kellogg's, the one and only All-Bran. Kellogg's, London, Ontario.

Protection For Inshore Fishermen Urged In House

The importance of Federal legislation, establishing a three-to-five mile limit for the protection of inshore fishermen was stressed by Hon. J. B. St. John in making his speech on the Draft Address in the Legislature yesterday. Mr. St. John said "we can make rules and laws for our own draggers but we need Dominion legislation to cover draggers from other Provinces."

"Perhaps it is not realized how important the resources of the sea are," continued Mr. St. John who went on to say that without the products that are reaped from the sea there would not be enough protein content to satisfy the needs of the present world population.

He told the House that there was no need to fear a depletion in the fish population in the waters of the Gulf of St. Lawrence, the Grand Banks and adjacent areas. To strengthen this statement he pointed out that these waters have been heavily fished for the past 400 years and there is no apparent reduction in the number of fish caught.

IRISH MOSS

"It seems very strange to me that when we are looking for work for our citizens, our raw material is shipped away from the island and is then shipped back to us as a finished product," said Mr. St. John who told the House that a large volume of Irish moss is shipped out each year and if processed here could develop into a million dollar industry and create employment for a large number of people. He suggested that the Government look into this matter to see if some assistance could be given to the establishment of such a plant.

Mr. St. John expressed pleasure that the unemployment insurance benefits had been extended. "It is hoped that in the near future these benefits will be further extended to include the fishermen of this Province," added Mr. St. John. "I know there are many obstacles to be overcome in this regard but the fisherman's job is seasonal and he is entitled to this assistance as much as a person in any other occupation."

ROADS AND BRIDGES

The Hon. Member from Souris made a strong appeal for a causeway at Black Pond Bridge. He told the House that the existing bridge was wide enough for one way traffic only and the approaches to it were in very bad shape - at some times afloat. "This bridge is very dangerous and a near fatal accident occurred there just last year. Since

Legion Ladies Auxiliary Meets At Montague

Mrs. Neil Hooley presided at the regular monthly meeting of the Ladies Auxiliary of the Canadian Legion, Montague branch, Monday evening, Feb. 21, at the home of Mrs. Archie Hillecy. There were 13 members present. The minutes of the last meeting were adopted as read, and a number of bills were read and the treasurer was instructed to pay all accounts. Correspondence included two letters of appreciation from service personnel for Christmas gifts, and a letter from W. R. Shaw, provincial chairman of the Red Cross campaign. The campaign in Montague will be conducted by the Auxiliary and solicitors to canvass the various sections of the town were appointed from the chair.

Mrs. Hooley reported for the visiting committee. Two members had been in the hospital during the month and each had received a treat from the Auxiliary. The financial report was read by the treasurer, Mrs. Gerald McCarron. Mrs. McCarron also reported for the series of card parties held during the month, and also on the financial success of the chicken dinner held on Feb. 15. The secretary was asked to write letters of appreciation to the merchants and others who helped to make the recent supper such a success.

The sum of five dollars was voted towards the Red Cross campaign. The matter of giving the Women's Institute permission to use the Auxiliary dishes and silverware at their March supper was discussed and it was unanimously decided to grant this request. Plans were made for a St. Patrick's Day party in March. Mrs. Hooley and Mrs. Hillecy were appointed on the program committee and Miss Sue Hemphill and Mrs. Bryon Stewart were appointed on the reception committee.

At the close of the meeting a

Mr. Douglas

"The ordinary farmer is getting the squeeze while the larger one is getting the advantage," said Mr. Douglas who pointed out that the large egg producer was in a position to do his own grading and put his eggs on the market direct, while the small operator has to incur the grading expense and thus receive from 6-10 cents a dozen less for his eggs. He felt that the farmers should co-operate in this respect. He made reference to the egg circle which existed on the island a number of years ago. "If we had such a system now, we would be getting 32c for ungraded eggs instead of 30c," he said.

Mr. Bell: "Do you think the spread of 2c to 4c is too great?" Mr. Douglas: "I think everyone agrees that it is too much and if the farmers organized to run their own business they might get better prices. He felt that in some cases there was too much organization. "The potato industry is over-organized in this Province," he said. Some encouragement should be given to the different provinces to get together and work out some scheme that would be mutually advantageous to all concerned."

FARM LABOR

"It is hard to get farm help," continued Mr. Douglas, "the move seems to be towards towns where a higher rate of wages is paid." He felt that farm laborers should be covered by unemployment insurance. "It is not fair that they

program of contests was presented by Mrs. Hooley and the winners were Mrs. Stewart and Jessie Shaw. A delicious lunch was served by the hostesses, assisted by Miss Florrie Beaton.

should work all summer and not be entitled to a benefit. When there is no work for them." R. R. Bell: "They are leaving the farms?" Mr. Douglas: "They are going to the City where they can get higher pay." He stated that a good deal of trouble with the farmers today was because of the Farmer's Creditors' Arrangement Act, under which they lost their credit.

Mr. Bell: "The Liberals kept the Act in force and a lot of them made thousands of dollars on it." Mr. Douglas: "There was no need why creditors should be paid 30c on the dollar. I don't think that that was good leadership for our farmers."

CATTLE

Mr. Douglas felt that Canada Packer's move in bringing cattle into the Province was a good one since it gave farmers a chance

RELIEVE

Constipation Indigestion In your livestock with LAX-A-TEX (Nixon)

Lax-A-TEX contains an entirely new principle for the treatment of constipation and indigestion in livestock which give positive relief without interfering with normal digestion or rumination. Keep a bottle handy for emergencies. We guarantee all Nixon products.

to see what could be done with these steers. He was informed, he said, that the steers could be brought here at a cost of 17c per lb. and if the farmer was guaranteed 20c it might be good business." Speaking of hogs, Mr. Douglas had high praise for the Federal Department and Mr. Harold Clay in their breeding policy through advanced registry. "There is such a demand for Island breeding stock that they can't meet the demand," he said.

The value of organization was pointed out by Mr. Douglas who explained the success being met by the Island Strawberry Growers. "It is a good example for other industries to follow in getting rid of their surpluses," he added. R. R. Bell: "What about a killing

plant?" Mr. Douglas: "It is just like a lot of other things, people are afraid to put money into it. The Government offered to put money into this plant but those who have the money were afraid to take the risk."
