CLEANING grain and timothy seed. W. L. Delaney, Kensington.

SEE Indian River play "Tempest and Sunshine" in Ashdown hall, Tuesday, April 27...

DARNLEY HALL, Monday, April 26th, 8.15 p.m. Kelvin Dramatic Players in two one-act plays...

NOTICE - All unpaid taxes of Clermont School District not paid on or before May 15th, 1954...

ACCEPTING orders for fertilizer, cash to be paid before fertilizer is unloaded from truck...

THE KENSINGTON United Church Y.P.U. will present their play "Cranberry Corners" in French River hall, Monday, May 3rd...

LEAVING ON COURSE - Leading Seaman Ellsworth Campbell of H.M.C.S. Micmac spent last week with his wife and son in Northam...

Mr. and Mrs. Gardner Marks, Summerside, visited Mr. and Mrs. Frank P. Fraser at Alberton on Sunday.

HOSPITAL - Mr. Howard Morrison, Montrose, was taken to the Western Hospital, Alberton, suffering an injured knee and bruised and lacerations about the face following an accident in which the car he was driving left the pavement at Huntley and crashed into the ditch...

Alberton And Vicinity

Mr. and Mrs. Henry Gallant, Fortune Cove, who has been a patient in the Western Hospital, is convalescing at the home of her daughter, Mrs. Michael Ahearn, Alberton.

ENGAGEMENT - Mr. and Mrs. Christopher O'Brien, West Bridgford, England, announce the engagement of their eldest daughter, Ann, to Flight Sergeant Donnie Bradshaw, of the R.C.A.F., presently in Langar, England, and son of the late Mr. Bradshaw, Mrs. Thomas Bradshaw, Searle, town, Prince Edward Island, Canada.

It has been announced that Trinity Y. P. U. of Summerside, under sponsorship of Alberton United Church Ladies' Aid, will present their two one-act plays in Alberton W. I. Hall this week. These comedies have been exceptionally well received in several centres where they have been played. Of local interest is the fact that two of the cast, Miss Shirley Wallis and Miss Doreen Bowness, are from the Alberton District, and that the director of one play, Miss Estelle Bowness, is a former resident of Montrose.

ESCAPES SERIOUS INJURIES - Mr. Delbert Rayner of New Annan escaped with a cut forehead and a sprained shoulder when he narrowly missed being seriously crushed when his car slipped off a jack at his home on Thursday while he was adjusting the brakes. After raising the car on the jack Mr. Rayner had crawled under the automobile and had begun work on adjusting the brakes when he noticed the jack beginning to slip, and he threw himself out from under the car just as it came crashing down off the jack. While escaping injuries that might have proved fatal, he nevertheless escaped by such a narrow margin that the cap he was wearing had a hole cut in it and he received a long glancing cut on his head and forehead, and a sprained shoulder.

The first week of Albertons' Dental Clinic has been completed with Grade I pupils from Alberton, Montrose, Elmsdale and Rosebank. Dr. Robert Romcke, assisted by Miss Eleanor Peters, has done fillings and extractions for seven or eight children each day and the work will continue until all the children of Grade I who make application for dental care have received it. Applications are being received each day by Miss Anita Laughlin, Public Health Nurse, and Mrs. Arthur Wilkie, secretary of Alberton Women's Institute. During the past few days pupils from Brookton, St. Lawrence, Alma and Plushville have been added to the list of those who are taking advantage of this opportunity.

Mr. and Mrs. Albert Waugh and sons Douglas and Kenneth, Wilks Valley, were Sunday guests of the latter's father, Mr. Gordon Millar.

Mr. and Mrs. Ernest Paynter and daughter Catharine, accompanied by Mrs. Herb Hardy, motored to Summerside on April 20.

Mr. and Mrs. Peter Millar and sons Ronald were visitors to Summerside during the week.

Mrs. Annie Stenhouse is visiting with her brother and sister-in-law, Mr. and Mrs. Parmenus Brennan, Elmsdale.

Mr. and Mrs. Stanley Hutchinson, MacNells Mills, were April 18 guests of Mr. Willard Hutchinson and family and Mrs. Colin Ramsey and Mrs. Horace Lidstone, Tyne Valley, were April 18, guests of Mr. and Mrs. L. A. Burleigh.

Mrs. Jeanetta Ogden, Alberton, spent the Easter holidays with her parents, Mr. and Mrs. Harold Gillis and Miss Betty Rennie, Elmsdale joined her on Saturday evening to spend the week-end.

Mr. Albert Barlow Coleman was the guest of Mr. and Mrs. George Barlow on April 20.

Mrs. John Brown, Conway, visited with her daughter, Mrs. Theodore Gillis and granddaughter, Mrs. Raymond Gillis during the past week.

Mr. and Mrs. Anthony Williams, Summerside, visited with relatives in Ellerslie on April 18.

The many friends of Mrs. Harold Gillis will regret to learn she is confined to her home due to illness. All will join in wishing her a speedy recovery.

Mrs. Colin Ramsay, Mt. Pleasant, spent a few days visiting with Mrs. Ernest Paynter.

Rev. and Mrs. J. A. MacDonald were recent visitors to Halifax, N. S.

Mr. Bertram Phillips, Halifax, N.S. spent the Easter holidays with his wife and family here.

Mr. Albert Sharp, Montague, spent the week-end with his wife here.

Mr. and Mrs. E. R. MacNevin, Montague, are spending some time at their home here. Their many friends are glad to see them back in the community again.

Messrs Harry Gillis, Theodore Gillis, Melvin Hutchinson and daughter Susan and Mrs. Jeanetta Ogden, motored to Summerside on April 17, and visited with Mrs. Earl Simmons while there.

Object of the drive was to deprive the city's notorious gangs of supplies, and recruits drawn from the city's population and to cut down the terrorist hold on the city itself.

The Americans have begun a third screen, somewhere along the Alaska border. Some experts feel this will be of little use to the populated area, since enemy planes could swerve once they cross the McGill fence line and the defenders lose them until they show on screens lower down in the continent.

The Teepees entered the eastern Canada finals by disposing of Toronto Marlboros. The Frontenacs ousted Ottawa Eastview-St. Charles 26 shots fired at him. Jacques Marquette of Quebec had 20 saves.

The Teepees scored was distributed among six players. Henry Ciesla, Elmer Vaska, Hugh Barlow, Chester Warchol and Jack Armstrong scored for St. Catharines. Guy Rousseau netted the lone Quebec tally late in the first period.

Twenty-three penalties were called 14 of them against the Teepees, including a 10-minute misconduct to Teepees' star Brian Cullen. St.

The second game of the series will be played here Monday night, pending primarily on speedy inter-

Dr. Alfred Valdmanis, Latvian-born economist arrested by RCMP in New Brunswick on charges of extortion, is shown here with his wife and family on arrival in Canada in 1948. Dr. Valdmanis is accused of extorting "many hundreds of thousands of dollars" in his dealings with firms as head of Newfoundland's industrial development program. He resigned the post Feb. 10 (CP Photo) 1954.

Ellerslie And Bideford

Master Donald Sheen, Summerside, is spending the Easter holidays with his grandparents, Mr. and Mrs. L. A. Burleigh.

Miss Colleen O'Brien spent the past week-end visiting with relatives in Alberton.

Mr. and Mrs. Ernest Paynter and daughter Catharine, accompanied by Mrs. Herb Hardy, motored to Summerside on April 20.

Mrs. Annie Stenhouse is visiting with her brother and sister-in-law, Mr. and Mrs. Parmenus Brennan, Elmsdale.

Mr. and Mrs. Stanley Hutchinson, MacNells Mills, were April 18 guests of Mr. Willard Hutchinson and family and Mrs. Colin Ramsey and Mrs. Horace Lidstone, Tyne Valley, were April 18, guests of Mr. and Mrs. L. A. Burleigh.

Teepees Win Memorial Cup Opener From Frontenacs

QUEBEC, (CP) - The powerful St. Catharines Teepees easily defeated Quebec Frontenacs 5-1 Saturday night before 8,000 fans in the opener of the best-of-seven net, turning back all but one of the eastern Canada Memorial Cup hockey finals.

Three Varieties Of Heavy Long-Range Aircraft For Defence Of Canada-U.S.

By HAROLD MORRISON Canadian Press Staff Writer WASHINGTON, (CP) - Three varieties of heavy, long-range aircraft, capable of carrying the atom bomb, will be employed in Canada-U.S. continental defence.

U.S. authorities say these will include several wings each of the 10-engine B-36; the eight-engine all-jet B-47; and the latest, the eight-engine all-jet B-52, now under construction.

These wings will be located in the U.S. but their location is not important. Their ability to fly long distances, they will be able to deliver the atom bomb to the enemy from any part of the continent, either from Canada or the U.S.

Continental defence now is gaining more attention in this capital than at any time in history, a Canadian official said. Millions of dollars are being poured into construction of radar screens which eventually will encircle the continent to provide a warning of approaching enemy planes.

Squadrons of speedy jet interceptors are being located strategically in both countries. And the U.S. is rolling out tons of guided-missile artillery for defence of airfields and industrial centres.

As an added protection, flying radar stations, in the form of four-engine Constellation aircraft, and radar picket ships, converted from old American Liberty ships, will cover the continent's northeastern and northwestern coastal flanks.

The radar screen, parts of which already have been erected in Canada, is also being constructed along both U.S. coasts and on the U.S. southern flank facing Mexico. Experts on both sides agree the screen will be impregnable, but they hope it will provide efficient warning when it is finally constructed in depth.

"PINETREE" NEAR BORDER - First of the aircraft-detecting radar group is the Pinetree Chain, consisting of some three dozen stations stretched somewhere along the international border. They will come into full operation next July. Manned by Canadian and U.S. technicians and costing \$300,000,000, they will be able to plot the path of incoming enemy planes for long distances.

But the stations are relatively close to populated areas, the defenders want more warning time and thus they have started siting operations for construction of a second radar screen to be located about half-way up the Canadian provinces.

These will be the McGill Fence stations, which, though they will not have the tracking ability of Pinetree, will provide a signal whenever a plane crosses its electronic beam. The economic advantage of McGill is that it does not require the same manpower.

SCREEN IN ALASKA - The Americans have begun a third screen, somewhere along the Alaska border. Some experts feel this will be of little use to the populated area, since enemy planes could swerve once they cross the McGill fence line and the defenders lose them until they show on screens lower down in the continent.

The Americans say their third screen is just an experiment. If it doesn't work out, it appears likely that a third screen may be built in Canada, somewhere along the top boundaries of the provinces. But that is years away.

The U.S. defence department is considering establishing a single continental defence command which will control all the various U.S. agencies.

As in Canada, the U.S. is depending primarily on speedy inter-

Three Lancaster aircraft leave Summerside this morning on a specialist navigation training flight into the Arctic.

John Deere Show At Alberton

During their twelve day absence from Summerside they will make at least one flight over the North Pole, at which point they drop a sealed canister containing a copy of the Guardian, a copy of the operational orders and emergency food rations.

The Alberton Institute hall was filled to capacity Saturday night to see the John Deere show presented again this year by Erskine Clark. The program consisted of four colored films, "The Job Ahead", "The Safety Pin", "Oddities in Farming" and "What's New For 1954." The latter film gave a lineup of John Deere machinery available this year.

The purpose of the flight is to provide Arctic navigation training for the specialist navigation course at Summerside, and also to carry out work assigned by the Defence Research Board at Ottawa, part of which will be the testing of two new navigation instruments which were designed by the R. C. A. F.

Door prizes were won by the following: Ladies' first prize of an electric iron, Mrs. John A. Chaisson, Tignish; Ladies' second prize, a two-pound box chocolates, Mrs. Annie DesRoches, Tignish; Mens' first prize, a John Deere tire pump won by Ervin Arsenault, Tignish, and Mens' second prize, a grease gun, Howard O'Holloran, Elmsdale.

The three large 4-engine Lancasters-Polaris, Orion, and Northlander Cross-will have Squadron Leader J. A. White as flight commander, and will be piloted by Flying Officers Ralph Emery, Harold Wannamaker, and Bob Harvey.

The weather in the Arctic is generally clear, but blowing snow and high winds sometimes present flying problems, and on a similar trip made last year winds as high as 100 miles per hour were encountered.

At this particular time of the year the Arctic enjoys approximately 20 hours of daylight, while the hours from about 11 p.m. until 2 a.m. present a twilight effect.

Burglars Enter Alberton Store

The three aircraft are expected back at Summerside on May 6th.

Myrick's Store, Alberton, was broken into sometime Friday night and a quality of cigarettes, silver and possibly other goods stolen. Entry was made by breaking a basement window and forcing two heavily barred doors leading to the main store. R.C.M.P. and town policeman Hogan are investigating the break.

Allies Might Be Able To Exploit Red Conflicts

By TOM WHITNEY Associated Press Staff Writer

On the surface, the relations between the Soviet Union and Red China are cordial. Under the surface there's probably a lot of suspicion and distrust on both sides.

Car Crashes Into Alberton Store

Late Friday night an automobile driven by a resident of Greenwood failed to make the turn at Myrick's Store, Alberton, and crashed through the front of the Burke Building on the corner of Church and Main Streets knocking out a large window and making an opening in the front of the store about twelve feet square. Damage both to the car and the building is extensive. No one was injured.

The Kremlin's favorite sport is "exploiting the conflicts" between the Western allies. Clever diplomacy at Geneva and after might help the Western allies make a start on exploiting some of the conflicts in the Communist camp.

Russia and China, is not territorial. It is the question of control of the world Communist movement.

North Korea was a Soviet puppet set up at the time the Korean War started. Now the Chinese army occupies the country. The Pyongyang government apparently still takes its orders from Moscow rather than Peking.

The Russians trust only those Communist regimes which they themselves control absolutely - where they can make or break the governments at will.

When North Korean leaders went abroad last fall for assistance in reconstruction, they made their first pilgrimage to Moscow. Cozy after going to Moscow did they make a similar trip to Peking. It seems possible there is a secret struggle going on between Moscow and Peking for control in North Korea.

It would be too much to expect that the Chinese and Russian Communists will fall out openly in the near future.

The big issue, of course, between

China is a bigger strategic threat to the Soviet Union than ever Germany was.

ODDS AND ENDS AT BARGAINS THIS WEEK ONLY

We have odds and ends, remnants of the farm machinery business in stock which will be sold below cost. It is simply a matter of getting rid of these parts and you farmers might as well cash in.

Parts included are standard malleable and steel chain, poles of many machines, cogs, sprockets, and the odd car part, one 4-wheel mechanical jack and power lift for a "60" or "70" Cockshutt tractor. Also stock of parts for Watson sprayers, Hardie sprayers, Aspinwall planters, Boggs graders, Ransome diggers, and other odd lines.

What is left of these parts will be sold for junk next week, as our warehouse is now rented.

Only standard parts of the Hardie sprayer will be retained by us.

JAMES A. McNEILL & SONS Summerside

Special orders taken for any part you want for your machines which have no dealer.

Get your bargains this week by contacting John McNeill at the McNeill Building, or the Journal Office.
