

THE DAILY EXAMINER.

JUNE 15, 1892.

Garbling the Suppressed Report.

ONE of the first acts of Mr. Frederick Peters was to suppress the report of the independent commission which investigated the transactions of the Land Office in 1889 and 1890. Long before the Commissioners had completed their work Mr. Peters, as well as the organ of his party, demanded that their report should be published. Later, while the report was in the hands of the printer, Mr. Peters attended by-meetings during the Dominion election, and behind Mr. Ferguson's back incited charges which he was too cowardly to repeat when he met him face to face. Within a few days after Mr. Peters took charge of the Government, the printer handed in the report of the Commissioners in pamphlet form, with a further supply of the said report in sheets printed, gathered and folded, ready to be bound in the journals of the Council and Assembly, without any additional cost. One would have thought that this most important report would have been at the first opportunity presented to the Legislature and subsequently bound up with the journals of both Houses, especially as the cost for so doing had been already incurred. But Mr. Peters did not present the report to the Legislature, nor did he insert it in the journals of either House. A few of the pamphlets were privately distributed, but the bulk of them, as well as the sheets printed for the journals, may be found, if not already destroyed, in some old lumber room in the Provincial Building.

The suppression of this most important report may serve Mr. Peters' purpose in more ways than one. In the Journal of the Assembly it would remain in an abiding form for future reference. In the form of sheets and pamphlets it is even now only available to a few, and the chances are that it will soon be wholly lost. This is just what Mr. Peters wanted. It was not desirable, from his point of view, that very wide or abiding publicity should be given to the scathing denunciations of the policy of the Davies Government regarding the issue of precepts, nor yet to the complete vindication of Mr. Ferguson and the other officials of the Land Office, except Mr. Strong.

The suppression of the report by Mr. Peters will enable him and others equally unscrupulous to misrepresent and garble its contents with impunity. A good instance of this is already given by the Patriot. In the Daily Patriot of the 2nd instant an attempt is made to fasten blame on Mr. Ferguson in regard to the accumulation of arrears in the Land Office. For this purpose a garbled extract is given from the Commissioners' Report. Here are the questions of the Commissioners and the answers of Mr. Ferguson on the subject referred to as they appear in the report:—

Ques.—Did you submit the names of persons you proceeded against to the Government?
Ans.—I did not.

Ques.—In issuing precepts was any regard paid by you to the political views of the persons to be proceeded against?
Ans.—No: In issuing precepts no regard whatever was had to the political views of the persons to be proceeded against. I find upon examination that Mr. Aldous during his term of office generally issued a precept when default was made in any instalment, which was the proper course under the law.

Ques.—Then why did you not issue a precept against each person when default was made?
Ans.—Because in 1880 when I entered office, the number of defaulters had become so great that it was impossible to proceed against them all. The laxity of the previous ten years had induced parties to allow their accounts to fall into arrears. I proceeded in cases where it seemed to me the default was least excusable, and where it was of long standing or where it was necessary to rectify a title.

The Patriot quotes the words here given in italics and leaves out the context. It is not necessary to characterize the unfairness of this quotation, and yet the Patriot's censure of Mr. Ferguson for not issuing precepts against 'all defaulters in 1880 and subsequent years is based on this garbled extract from his evidence.

When Mr. Ferguson entered the Land Office in 1880, there were 2342 accounts in arrears. That legal proceedings should be taken against so great a number at once is too ridiculous to be considered for one moment. In the words of Messrs. Carvell and Arnaud (Report, page 28).—

"The natural effect of these Orders in Council (of the Dominion Government) was to lead to an immense accumulation of overdue accounts and to make the subsequent enforcement of the law difficult in the extreme."

They Have Arrived—The stock of crytographs which perfectly represent stained glass windows just opened at the Diamond Bookstore. Everyone can now beautify their residences or places of business at a very moderate expense. A large surface of blank cheerless glass up to 41 by 18 can be converted into a rich artistic and anti-que picture for a very trifling cost. Call and see specimens.

A large number of butter crocks, cream crocks and milk pans are now selling cheap at the Cheapest Crockery Store.—W P Colwell. June 14 & 15

Building Improvements.

SOME OF THE NEW BUILDINGS IN TOWN AND COUNTRY.

The new building on St. James' Corner, now being put up by the Messrs. Stamer, will cover the whole lot. The size of the building will be 36 ft. 4 x 56 2, and it will be three stories high. The first story will be laid off into three stores fronting on the Square, each being about 18x34 feet in size. A stairway near the Merchants Bank of Halifax will lead to the second floor. The doorway into the corner store will be at the corner of the building in the centre of a square formed by cutting off or rounding a portion of the street corner of the building, and which will continue up to the roof. The basement will contain a barber shop 15x22, waterroom 22x23, furnace room and W. C. s, all well lighted and reached from the street by a stairway next to Prowse Bros. store. The second story will be laid off into four suites of offices, some of which will be the finest in the city, and judging from the number of applicants there will be little trouble experienced in securing tenants. The building will be built of selected brick with trimming of Nova Scotia freestone. The general style followed will be a modification of Romanesque architecture, the corner for a distance of 16 feet on each street being strongly emphasized the height being at this part nearly 50 feet. Portions of the stonework in the second story will be artistically carved, and the letters "Stamer's Block, 1892" will be cut in the heavy stone lintel course. The greater portion of the supports in the store fronts will be of iron which will give the stores a very clear and open appearance. The plate glass windows will be the largest in the city, some of the panes being nearly 10 feet wide. The building will be heated throughout with hot water. The Messrs. Stamer are to be congratulated on their enterprise and courage, and we hope they will see good returns for the large sum of money they are expending on the building. Chappell & Phillips are the architects in charge, and McDonald and Harper the contractors.

Mr. William C. Harris made the plans for the new Roman Catholic church at Kelly's Cross, which is now in process of erection. The building will be 115 feet long by 60 feet wide, and will have a seating capacity of about 500. Special attention has been given to the position and design of the windows in order that the interior of the church may have the beautiful effect which is to be obtained as a result of the light falling into the building from a considerable height. The acoustic properties of the building have also been well considered. In connection with the vestry of the church there will be parish rooms which will be fitted up for the use of the congregation as reading or lecture rooms, etc. The style of architecture will be the Gothic carried out in the clerestory form. The district of Kelly's Cross is one of the most beautiful in the Province and an especially fine site has been chosen for the church on one of the hills. Part of the basement has already been completed, and the grading on the hillside gives a very imposing appearance to the site.

The plans for the interior finishing and decorating of the church at Sturgeon were made by Mr. Harris a short time ago. The outside of this church was completed about two years ago, and the building has since been in an unperturbed condition. The building is of stone it was found quite comfortable even in that state. The workmen are now engaged on the interior of the church, and when everything is completed it will rank with the neatest and most comfortable in the Province.

Mr. Harris also made the plans for the interior finishing of the Hodgson Memorial Chapel of St. Peter's Church and the work was completed by Lowe Bros. a few days ago. A good deal of very effective carving has been introduced into the woodwork, and the finish generally is in beautifully colored hardwoods.

Mr. Robert Haslam, of Springfield, has just completed the work of erecting a new dwelling house on his property at that place, the plans for which were prepared by Mr. W. C. Harris. Messrs. Schurman, Clarke, Summerside, were the contractors. The building is located on a beautiful site in the centre of an undulating farm. The house is treated in a simple, economical and effective manner, with sloping roof, bay windows, verandah and balconies. At first it was Mr. Haslam's intention to have the house made of stone, as it was found that the cost of constructing a stone building would not be much greater than one of wood owing to the nearness of quarries, but owing to lack of time it was decided to have the work done in wood instead. It is a great pity that farmers generally do not pay more attention to the building of their houses, and have plans prepared by a competent architect. They would save money in the cost of construction and have much better arranged houses if they did so.

Mr. Philip Coyle, jr., is rushing work on his house on Kent Street, and expects to have it ready for occupation in a few weeks. The plastering is finished, the carpenters are putting the finishing touches on the inside and Mr. Bethune is at work with his brush on the outside. The house is three stories high and contains two tenements of eight rooms each. Each tenement has two register grates—one in the parlor and the other in the dining room—and there are also two pairs of stairs. The house is pleasantly situated and should rent well.

Some necessary repairs and alterations are now being made to the Market House. All the old chimneys (seven in all) are being taken down and four new ones will be built in more central places. This alteration will do away with the nuisance of smoking chimneys and save considerable of the taxpayers money in stovepipe. Some needed improvements are being made in Blake Bros. meat market. New doors will be put in place and the store will be painted. A similar meat market has been fitted up in the unused east end of the building. Parkman & Crabbe are the contractors for the whole of the work which is in charge of Chappell & Phillips.

Mr. C. B. Chappell has made the plans for a handsome and commodious dwelling house to be built at Cardigan Bridge for James R. McDonald, Esq., M. P. P. The house will contain 10 large rooms and will be fitted up in first-class style and provided with all modern improvements. Mr. Chappell has also made plans for a tarry frame church for the Baptist congregation at New Haven. The contract has been let to Mr. McNeill and work is now progressing.

The building on Lower Queen Street, formerly known as the Italian Warehouse, and occupied by P. Callaghan & Co., is an interesting alteration and repairs. The ground floors in both stores have been lowered one foot. New plate glass show windows have been put in and the north shop has been refitted with new counters and shelving. Mr. Callaghan is occupying the north shop at present while the other is under repair. Contractor, Robert Griffin; architects, Chappell & Phillips.

Plans for a residence for Mr. C. A. Hyndman were also made by Mr. Harris. The house is specially designed to be in harmony with the beautiful grounds surrounding it, having windows and verandahs opening out to the lawns about which are some of the finest old trees in the city. From the balcony, in the front portion of the building, a fine view is obtained across Victoria Park. Charles McGregor was the contractor.

Mr. W. C. Harris, jr., has had the cottage which for years stood on Pownall Street opposite the Kirk, removed to his property near Brighton, where he is adding to and improving it. When all the alterations and improvements contemplated are made it will be a neat and valuable addition to the group of houses already in the vicinity.

William Heard, Esq., has improved one of the stores in his row, occupied by G. F. Bros., by the addition of an extra new brick front with large plate glass windows. The work was done by the day. Mr. Pancher doing the brick work and Mr. W. W. Wright the wood work, from plans prepared by C. B. Chappell.

In addition to the buildings enumerated, Mr. Pancher is putting up a dwelling house on Blandborough Street, Mr. Conley a dwelling on Rayfield Street, Mr. Duffy, two dwellings on Rochford Street, and several other buildings are going up in other parts of the city and suburbs. Mr. R. K. Brace has also made some changes and improvements in his store on Trafalgar Street, one of which he has leased to A. & C. Quirk, who are doing a splendid business therein.

J. M. McLeod & Co. and E. K. Jost have had new plate glass windows put into their stores, which add greatly to the appearance of the buildings and afford these enterprising people a much better opportunity of displaying their goods than they had before. Besides the plans prepared by Mr. Harris, referred to above, it may not be out of place to remark here that he has made plans for buildings at Halifax, Amherst, Springfield and New Glasgow, N. S.

The Presbyterian Synod.

(Special correspondence of The Examiner.)

There was a large attendance of citizens as well as members of Assembly on Friday evening, when foreign missions were discussed. Mr. Hamilton Cassels, of Toronto, presented the very elaborate report of the committee upon Missions to the Indians of the Northwest, Formosa Mission, Huanan Mission and Central India Mission, while the report of the eastern section covered the missions to the coolies of Trinidad and the New Hebrides Mission.

An interesting address was given by Rev. Mr. Wilson, of the Central India Mission, who dwelt upon the state of work there, the difficulties in the way, and the apathy of the Hindus. He urged a more vigorous prosecution of work and asked the Church to dedicate her best ministers to this great undertaking.

He was followed by Rev. Mr. McDonald, of the Huanan Mission in China, who gave a graphic account of the late riots in that province and the insults and dangers to which our missionaries were exposed at the hands of Chinese mobs.

The meeting was brought to a close by a resolution expressing gratitude to God for past mercies and imploring a continuance of His blessing.

The receipts for foreign missions during the past year were \$115,000 and the expenditure considerably larger. The Church asks for a total of about \$130,000 for next year. It is worthy of note that the Women's Foreign Missionary Society, east and west raised over \$4000 last year for foreign mission work.

The Church has also started a mission to the Jews in Palestine and is following it up by mission work among the Jews in Montreal. Work is also opening up among the Indians of British Columbia and among the Chinese in that province.

The Presbyterian Church in Canada is rapidly coming to the front as a missionary Church. It is questionable to-day if any church of her resources except the Methodist is so fully engaged in foreign missionary work.

On Saturday the College reports came up, and a sharp brush occurred over the relationship of Queen's College to the Church. Principal Grant, of Queen's, delivered a most trenchant speech. The animus of some of the opponents of Queen's was not above suspicion, and Dr. Grant fairly flattered them out. I have seldom heard such a crushing speech, and the remark was freely made that Dr. Grant had been in politics he would be a tower of strength in debate. The discussion was adjourned till Tuesday, when there will be a spicy session.

Saturday afternoon was devoted to a reception at the Peter Redpath Museum of McGill College, where we enjoyed gazing at the fossil remains of our ancestors? As we gazed at the skeletons of the mastodons and other enormous fossils, we could not help wishing that they could have joined us in discussing the delicious cream, etc., so freely provided. What a sensation in a hot day to slip an ice down such a lengthy throat! Sir Wm. Dawson gave a few kindly words of welcome and the professors and others did their best to make all feel at home. 'Tis a lovely spot, and the munificence of McGill, Redpath, Molson, Smith and our own McDonald have made McGill worthy to be the university of our Dominion. Near McGill and affiliated with it are the handsome and well equipped Presbyterian, Methodist and Congregational colleges.

The various Presbyterian churches through the city were supplied by members of the assembly. It was the writer's peculiarly good fortune to hear two of the younger men of Western Canada—Rev. Mr. Gaudier, of Brantford, near Toronto, in the morning, in one of the ablest sermons he has listened to for years; as an elder not given to emotion said, "Under such preaching a man must either step up and work for all he is worth or step down and out," in the evening, Rev. Mr. Johnson who succeeded Rev. Dr. McTavish we'll know in Charlottetown, in the congregation of Lindsay. Mr. Johnson gave a most earnest and stirring evangelistic address on Matt. 11, 28. If these be at all fair specimens of the younger men in the western church, she will assuredly lengthen her cords and strengthen her stakes.

In the afternoon there was a mass meeting of Sabbath Schools in Erskine church, which was quite too small for the meeting, and later in the day the Assembly met in Crescent St. church and gathered around the Lord's table

in a most solemn and impressive communion service.

Clerical Association of P. E. Island.

This Association met in Port Hill, on Tuesday night, the 13th inst. A grand service was held in the beautiful church, of which the Rev. H. Harper is rector. A large congregation gathered, and attentively listened to the addresses of the visiting clergy. The singing, without organ accompaniment, was very good. It was well sustained by the male voices present.

In the several addresses, reference was made to the new church, and the parish was congratulated on the beauty of their new House of God.

The visiting clergy were hospitably entertained by the excellent people of the parish. Early on Wednesday a goodly number gathered in the church for Holy Communion. The Rev. W. Hamlyn of St. Paul's, Charlottetown, officiated. The business meeting was held after this service.

Arrangements for next meeting were left by unanimous wish to the Secretary, Rev. C. F. Lowe, of Summerside.

Despite the unfavorable weather, the meeting—which was of interest and pleasure to all—was one of the best ever held. The next meeting takes place in St. Eleanor's early in September.

The Citizens' Band.

The Citizens Band deserves great praise for their energy in preparing to make their part in the program of the coming Firemen's Tournament a success, for we will know that good music is a great addition to a gathering of this kind.

From what we can learn we think our band will be in good trim on this occasion. They have just received two new instruments, which will add much to the completeness of their already fine set; and these, together with some of the latest band music selected by Mr. W. L. Knight, in several of the leading music houses of the United States, will make their music even more pleasing than on former occasions.

We hope some arrangements will be made with the band in order to have them favor us with occasional concerts during the season; and now that they are at their own expense working the band up into good style, some encouragement should be given them without delay in order to keep them in this condition.

While speaking of the Band we must again bring up the subject of band concerts in the Gardens, which we should certainly have. Being the Citizens' Band they deserve to be encouraged and supported by the city. In nearly all cities and towns of any size they have their band, getting a yearly grant from the Council, thus enabling them constantly to have new music, etc., to add to interest of their playing. Charlottetown should afford this little luxury for the pleasure of its people.

Supreme Court—Prince County.

The Supreme Court met at Summerside yesterday, Mr. Justice Hensley presiding. The following gentlemen make up the Grand Jury: Joseph Read (foreman), John Christopher, John P. Linklater, Wm. Callaghan, Wm. McCabe, C. A. Pickering, Patrick T. Fauning, Edward Darrell, Thos. Hayward, Wm. Carruthers, Thos. Townsend, Thos. Lynch, Horatio McWilliams, Christopher Smith, Rowan Hughes, Alex. Miller, James Ramsay.

Six or seven absent debtor suits were disposed of, and the trial of the case of Shaw vs. McGowan was begun, and is now proceeding.

Several appeal cases remain to be tried. The Queen at the prosecution of George Gilvin vs. Chas. Cannon, and the Queen vs. McLeod, indictments for assault, make up the criminal docket. In both cases the plea is "not guilty."

The following persons have been appointed commissioners for taking affidavits in the Supreme Court:—Abraham Williams, Lot 12; Thos. B. Wordman, Alberton; Jas. A. McInnis, Souris West.

BIRTH.

At 45 Grafton St., Charlottetown, on the 15th inst., the wife of I. C. Nelson, of Boston, of a son.

PRIZE BOOKS!

Biggest, Best and Cheapest Stock on P. E. Island at the DIAMOND BOOKSTORE School Books Lowest Prices in the City. AT THE DIAMOND BOOKSTORE New Stock of SPLENDID PAPER-IES, 50 cents each.
