Weak, Tired, Nervous

Women, who seem to be all worn out, will find in purified blood, made rich and healthy by Hood's Sarsaparilla, permanent relief and strength. The following is from a well known nurse:

"I have suffered for years with female complaints and kidney troubles and I have had a great deal of medical advice during that time, but have received little or no benefit. A friend advised me to take Hood's Sarsaparilla and I began to use it, together with Hood's Pills. I have realized more benefit from these medicines than from anything else I have ever taken. From my personal experience I believe Hood's Sarsaparilla to be a most complete blood purifier." Mrs. C. Crompton, 71 Cumberland St., Toronto, Ontario.

Hood's Sarsaparilla Is the Only True Blood Purifier

Prominently in the public eye today.

Hood's Pills easy to buy, easy to take, easy in effect. 25c.

GRATEFUL—COMFORTING.

EPPS'S COCOA

BREAKFAST—SUPPER.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well selected Cocoa, Mr. Epps has provided for our breakfast and supper a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame." *Civil Service Gazette*

A NATIONAL SONG.

(Air: 'Auld Lang Syne.)

(Respectfully dedicated to the Volunteers, Snowshoe Clubs, Schools and Young Men of Canada.)

I.

O Canada! O Canada!
Our Country and our Home.
Thee will we love, O Canada!
Wherever we may roam,
Chorus:
Wherever we may roam, may roam,
Wherever we may roam.
Thee will we love, O Canada,
Wherever we may roam.

II.

O Canada! O Canada!
Thy loyal sons are we,
Here will we dwell, O Canada!
And stand on guard for thee.
Chorus:
And stand on guard for thee, for thee,
And stand on guard for thee.
Here will we dwell, O Canada!
And stand on guard for thee.

III.

O Canada! O Canada!
Our country free and grand,
All hail to thee, O Canada!
Our Home, our Native Land.
Chorus:
Our Home, our Home, our native land!
Our Home, our Native Land.
All hail to thee, O Canada!
Our Home, our Native Land.

R. STANLEY WEIR.

KINGSTON NOTES.

Affairs in this section of the country have been very lively of late. The farmers are looking anxiously for winter, which is slowly but surely making its appearance. Kingston Corner is rapidly assuming the look of a village. This summer has added to it two nice dwelling houses and a new store, erected by Mr. Wellington Matthews. This store, filled as it is with very excellent goods, will, no doubt, under his management command in a short time an enviable position among country stores.

Mr. Robertson Barrett gives entire satisfaction in the blacksmith line. The clink of the anvil may be heard from early morn till late at night. Mr. Walter Warren is doing a rushing business in his grist and saw-mills.

Reuben MacFadyen, Esq., formerly a teacher of Kingston, has returned home Queen's University, Kingston, Ont., where he has been studying theology. It is understood that he intends to teach at Cornwall during the winter. Cornwall, indeed, deserves to be congratulated if it secures his services as a teacher, for his ability in that line is unquestioned.

Among the weddings which have taken place around here this fall, not the least important was that which took place at the residence of Mr. and Mrs. P. Green, on Wednesday 11th inst., when Mr. R. H. Willis was united in wedlock to Miss M. Etta Green. The ceremony was performed by the Rev. H. R. Baker, M. A., of Cornwall. Miss Minnie Willis acted as bridesmaid, while Mr. J. Green supported the groom. After the ceremony the guests were invited to a very sumptuous repast prepared in Mrs. Green's excellent style. After doing ample justice to the good things provided, the guests retired to the parlor where a very enjoyable evening was spent in games, music, etc. The bride was the recipient of many useful and costly presents.

Our school is favorably progressing under the instruction of Mr D. J. McNeill, whom we regret will be leaving us at Xmas. He is to be succeeded by Mr. John McDougall. COR.

THE JONAH OF THE FLEET.

Captain the Hon. Maurice Bourke, now appointed as Commodore of the North American squadron of the British fleet, is known as the Jonah of the English navy. He was in command of the ill-fated British iron-clad Victoria when she foundered off the Syrian coast a few years ago, carrying almost the entire crew of 600 men to the bottom of the sea. He was in command of Sultan, another iron-clad, when she sunk near Malta; he ran another ship which he commanded on a reef somewhere near the West Indies, and has at least three other similar disasters, though of minor importance, to his credit. Yet, notwithstanding these misfortunes, which would have long since driven any less influential man out of the service, he remained high in favor alike in society, and at court retains his post as equerry to the Queen's second son, the Duke of Saxe-Coburg, and within a few years will enjoy the distinction of being the youngest admiral, as he is at the present moment the youngest post-captain, of the British navy. He is heir to the earldom of Mayo, now held by his elder brother, a peer renowned for his divorce court episodes, and also for his eccentricities, which have necessitated on more than one occasion his being placed under restraint as a lunatic. Captain Bourkes' father, it may be remembered, was assassinated with a dagger thrust in the back while filling the office of Viceroy of India.

FARM NOTES.

The yearly growth of fifty apple trees upon an acre of ground is worth $50, at very low estimate. At bearing age a good tree will make a good dividend upon such a value. Considering the earning power of an acre, the orchard should be given credit for more worth than is usually the case.

It is a waste of food to fatten to a point where the animal makes but a small daily gain. In fattening animals for market it should be done quickly and the lot sent to market as soon as they cease to gain in proportion to the food consumed. Every day after that period increases the cost.

Make every animal on the farm pay for its board and lodging. If an animal cannot do so it should give up its room to one that can.

If the farmer had something to sell every month in the year, either of crops or stock, he would find it less difficult to manage on a limited capital. Cows and poultry bring in daily returns, and farmers who make a specialty of milk, butter and eggs are usually prosperous.

It has been demonstrated during the year that one bushel of wheat will make thirteen pounds of pork. Allowing five cents per pound for pork the wheat will return sixty-five cents per bushel. The item of manure must be considered also, as it should more than pay for the labor.

REAL MERIT is the characteristic of Hood's Sarsaparilla. It cures even after other preparations fail. Get Hood's and ONLY HOOD'S.

Mr. and Mrs. Julia Harmon, of Lansingburg, Mich., celebrated his silver anniversary of their wedding in a queer way last week. Sixteen years after their marriage they were divorced, and Tuesday week, the twenty-fifth anniversary, they were re-married.

SAVED HIS LIFE.

"I now weigh nearly 200 pounds," said a robust, fine looking man the other day; and yet this same man was given up to die of consumption less than two years ago. What cured him? Miller's Emulsion of Cod Liver Oil did. He took it when at a low ebb, when his weight was less than 100 pounds. It created new blood for him, and that combined with his will power, raised him up to a life of usefulness and happiness. If you are threatened with consumption or any lung trouble, try Miller's Emulsion of Cod Liver Oil.

The Orangemen of Peterboro have passed resolutions expressing confidence in Sir McKenzie Bowell and his policy.

Chase's Kidney-Liver Pills.

Chase's Pills have gained popularity because the are a *specific* for the uric acid condition, prevent Bright's disease, cure Rheumatism and all Catarrhal conditions of the Kidneys and Bladder. They do this because they possess remarkable alterative, tonic and diuretic properties, exerting a wonderfully soothing influence on irritated or inflamed mucos membranes of the kidneys or bladder. One pill a dose. 25 a box. The cheapest medicine in the world.

Governor Bradley, of Kentucky, is a candidate for the presidency and will be endorsed by Kentucky Republicans.

It Saved Our Child.

"My little daughter, three and a half years old, suffered three years with Eczema. Her little body was covered with the itching rash, and doctors did no good. Four boxes of Chase's Ointment have entirely cured and saved our child. Her skin is clear and not a sign of rash is to be seen." Andrew Aiton, Hartland, N. B. Mr. Aiton is one of thousands benefited by this unfailing cure for piles and skin diseoses

The Russian fleet in the Black Sea, owing to the peculation and inefficiency of the officers and crew, is reported to be in a thoroughly inefficient condition, and unfit to go into action.

DANGEROUS.

We often see this sign on roads or streets Any kidney ailment is dangerous. Because you never know where it will end.

Suppose you feel languid, suppose you have feverish symptoms, there must be pison in the blood for these are the certain signs.

To the fact that pisons get past the kidneys, may be traced every sickness to which you aae ligcle.

Treat the kidneys fourthwith and first of all.

It is the safe and propea thing every time;

Therefore do it promptly and well. We are trying to teach people to turn to Dodd's Kidney Pills as the simplest and greatest treatment of kidney diseases on earth.

Can't you see the point? Every serious disease results from the kidneys being out of order. Dodd's Kidney pills keep ons cu ing the disease.

A bicyclists' accident insurance company has just been organized in Westfield, Mass. It proposes to insure bicycle riders against all manner of accidents met with while riding their machines.

Bad Blood Between Them.

The ever slaving farmer's wife, her delicate sister in the city, suffer more than they care to tell. The dark rings round the eyes, headaches, dizziness, palpitation or rheumatic twinges, betoken a run-down system. The blood is poor, and is a bar to enjoyment of life. Scott's Sarsaparilla purifies the blood, strengthens and vitalizes the system, and speedily restores the bloom of health to the cheeks. It cures when all others fail.

Mrs. Mary Woolledge advertisers in the Versailles (Md.) Leader, that "for good and sufficient reasons I hereby give notice to the public that I will not be responsible for any debt contracted by my husband, Adam Woolledge.

Mr. C. Donnelly, wholesale liquor dealer, Alliston, Ont., was troubled for years with Itching Piles. He was persuaded by Jas. McGarvey, Alliston, livery man, to use Chase's Ointment, which he did, was cured, has had no return of them and highly recommends this Ointment as a sovereign cure for Piles.

What is said to be a movement for the establishment of an Irish-American army for the liberation of Ireland came to a head in New York last week when the tenth and last company was organized for the Irish regiment of New York city, designed to be the parent organization of others to be formed all over the United States.

35 cents cures Catarrhal Headache
" " Incipient Catarrh
" " Hay Fever
" " Catarrhal Eeafness
" " Cold in the head in 10 min.
" " Foul Breath caused by Catarrh.

25 cents recures Chase's Catarrh Cure with perfect blower enclosed in each box. Sold by all dealers.

W. H. Harvey, the apostle of free silver, who it better known as "Coin," has launched his new political party. According to the prospectus which Mr. Harvey gave out, it is to be an oath-bound secret organization with the title of "Patriots of America." Its especial mission is to advance the use of free silver, as well as to eliminate selfishness from politics.

Racked with Rheumatism

Unable to Walk, owing to excruciating pain. After ten years' terrible torture, Cured by Scott's Sarsaparilla.

A. H. Christiansen, writing from the Clifton House, Niagara Falls, says: "I owe you more than I can ever pay. For ten years I suffered the tortures of the damned with rheumatism. Father had it before me, and I believe it is an hereditary disease. My knee joints would get inflamed and if I was out in any "weather" I was sure to be laid up, which to a travelling man is a calamity. In a score of Canadian towns local doctors treated me, some giving relief, others none. I read that Sarsaparilla was a rheumatic cure, and I asked a druggist for "a bottle of the best Sarsaparilla on the market." He gave me Scott's, remarking that it was an improvement on all others, and that he could honestly recommend it. I have taken four bottles, and am as free from pain as a man can hope to be. I was out in a rainstorm two days ago and never felt a twinge. As I said before, to Scott's Sarsaparilla I owe more than I can ever repay."

The best remedy for rheumatism, sciatica, and neuralgic pains—all arising from the presence of poison in the blood—is Scott's Sarsaparilla, a modern concentrated medicine, prompt in its curative effects. Doses from one half to one teaspoonful. At $1 per bottle of your druggist.

Sold Wholesale and Retail by Geo E Hughes, Charlottetown.

HERE ARE SAMPLE HEALTH RULES.

Let Common Sense Prevail—Hygiene Run Mad and Its Results.

A recent writer on health, who seems to be somewhat pessimistic in his views, quotes another writer as saying:

"Let a man retire to a nearly deserted mountain region, where the air is pure and dry, and there are too many stones to set a plow. Let him be of fine physique, and cool, dispassionate mind stored with medical knowledge. Let him set up his water distillery and food laboratory, bounce the cook and hire a corps of servants, nourish his body with precisely the elements it needs, and no others, and exercise much. He cannot travel, for the microbe waits at evey turn to lay him low. He cannot visit his friends, for they may poison him with sausages and beer. He might live 150 or 200 years, scarcely more than that, because he is handicapped by a heritage of death."

On the above we have to remark that one man might do that and live to be 150, and a large number might die of disease induced by being compelled to think almost exclusively how to live. On the other hand, we have known a man who violated nearly every so-called law of health, including total abstinence from baths and washing, who lived to be nearly 100 years of age. What shall be said, then? Does location make no difference? It may make much. Does diet make none? Comparatively little if a man lives in the open air, works hard, goes to bed early and sleeps seven or eight hours; but if his other habits are unhygienic, it may make a great deal. Shall he drink nothing but distilled water and eat nothing but the original elements? We believe such a teaching to be science run mad. If he boils the water he can drink it with safety, and good spring water in the country, where the cattle and sheep and people generally are healthy, will do. Nature can be trusted to eliminating food, and a well-nourished man can resist most microbes if he lives in the open air. Even two hours a day of exercise, with nothing much to think of at the same time, makes all the difference.

Healthful locations can often be obtained 100 yards from the most malarious. A few precautions will keep malaria out of almost any house and almost any system. This "man-in-the-mountain" writer would find in the end (or if he did not, some of his family would) an unfavorable influence upon the nervous system. The high winds of the region might some day carry him off with pneumonia. With a proper recognition of the doctrine of divine providence we would undertake to keep well in the most exposed lake front of Chicago, provided we could arrange life with reference to keeping well a few broad principles.

This is an age in which altogether too much attention is paid by some to such matters and not enough to others. An acquaintance of ours spent a whole season in dodging cholera microbes, upon the theory that they could not be got into the system so as to do any damage except through the digestive organs, worried himself into a nervous fever and died. Another, pursuing the same course, caught the cholera, but did not know how. On the Hudson River lived a physician who believed he was to die from consumption, and he endeavored by living on the most carbonaceous food to escape it, but died, and a post-mortem examination showed that there had never been anything the matter with his lungs, and that his death was caused by confining himself exclusively to anti-consumptive, heat-producing food, and also by eating more than was necessary.

There is not a single theory now adopted or proposed by the medical profession, by empyrics, cranks, hypochondriacs, food analysts, or any other class that is not carried to a pernicious extreme by its propounders or their converts. And yet there is scarcely one such theory that does not embody an important truth. The difficulty with many is in violating the simplest things. Adults are killing themselves by doing habitually what they would punish their children for doing. Almost every table or house contains extempore lecturers on health to children, who are pursuing a course almost opposite to what they are recommending. They forbid tea and coffee to their children, but take it themselves in large quantities. They tell the children to eat slowly and take small mouthfuls, and then they eat as if they had four minutes at a railway restaurant. They descant on the evils of pastry and devour two pieces of pie, crust and all. They inculcate early to bed and early to rise and sit up until 11 o'clock or even 1. Then there are tobacco users who prohibit harmless indulgences to the members of their family.

The true system of diet—whatever it does—will avoid extremes and will not approve any system that undertakes to exclude from the diet of the well man anything upon which millions of the race live, a large proportion in excellent health, unless it be some article that can be demonstrated to be essentially poisonous or dangerously liable to produce a tendency to excess.

Any system of diet that instructs a person to eat entirely without regard to the pleasures of the appetite is contrary to Scripture, common sense, and hygiene.

New Zealand's Plan.

Sydney, New South Wales, has hit upon a practical method of dealing with its unemployed. It furnishes a railway pass and a miner's right of credit to each suitable applicant to enable him to proceed to one of the gold fields of the colony, where he may have a chance of earning a living by "fossicking" for the precious metal. The number of passes issued in 1894 was 9,572, and since the inauguration of the scheme the quantity of gold obtained in the colony has risen from 179,288 ounces in 1893, to 324,787 ounces in 1894.
