SOLICITORS.

MACMASTER & MCGIBBON, Montreal.

The Directors, who are now the owners of the entire Capital stock, have decided, at the request of numerous friends of the Company throughout Canada, to enlarge the proprietorial interest, and to offer for sale, at par, ten thousand shares, of one hundred dollars each, fully paid and non-assessable.

Payments are to be made as follows:—Five per cent. on application; fifteen per cent. on allotment; twenty per cent. each in one, two, three and four months from the date of allotment. Applicants have the right to pay in full on allotment.

Applications for shares will be received until February 15th, 1893, at any of the offices of the Canadian Bank of Commerce, at the offices of the Union Bank of Halifax, and at the head office of the company, N. Y. Life Building, Montreal.

Forms of application for shares may be obtained at any of the above places, or they will be sent by mail on request.

Should an allotment of stock be made to any applicant for shares, the amount paid will be returned in full, and in the event of the Directors finding it impossible to allot the full number of shares applied for, the surplus of the deposit will be credited toward the amount payable on allotment.

The right is reserved of withdrawing the offer in whole or part at any time before allotment, and of allotting to any applicant any less number of shares than the number applied for.

As the dividends of the Company are payable quarterly, beginning with the first day of March next, allottees of stock will be entitled to receive a proportion of the quarterly dividend as declared, corresponding to the amount paid upon their subscription.

It is proposed to apply to the Stock Exchanges of Montreal and Toronto for official quotations of the shares of the Company.

The Consumers Cordage Company was organized in June, 1890, with a Capital of one million dollars, to operate several of the largest Cordage and Twine Factories in Canada. It, at first, operated these under lease, but its operations having been successful, the Capital was increased, and the leased properties were purchased.

The Company has no mortgage indebtedness; and, according to the law under which it was incorporated, none can be created without the consent of two-thirds of the shareholders, represented at a meeting called for the purpose.

The Company has placed in the hands of the Bankers:—

(a) Full statements of its affairs, certified by Messrs. Galt, Ward, & Co., Chartered Accountants.

(b) The following letter from Messrs. Abbott, Campbell & Meredith, Solicitors, Montreal, upon the legality of its incorporation, and the issue of its stock:—

MONTREAL, January 5, 1893.

Consumers Cordage Co., Ltd., Montreal:—

GENTLEMEN.—We have examined the books and documents connected with the organization of the Consumers Cordage Company, Limited, and are of opinion that it has been properly incorporated, and that the capital stock of \$1,000,000, as issued, is fully paid up and non-assessable, according to the provisions of the "Companies Act."

We are, yours truly,

(Signed) ABBOTT, CAMPBELL & MEREDITH.

(c) A report from Messrs. Macmaster and McGibbon, Solicitors of the Company, that the titles to its Mills have been fully examined, and that no encumbrances exist.

Applicants for shares may examine these documents, copies of which may be seen at the Company's office, and at the various offices of the Bankers mentioned above.

The Consumers Cordage Company is probably the second largest Manufacturer of Cordage and Twine in the world, and claims the following very material advantages over its competitors:—

1st. Ample capital to conduct its business wherever it enables it:—

(a) To buy its raw material in larger quantities, and at lower prices.

(b) To use only the latest and most improved machinery, thus keeping its mills in the highest state of efficiency.

2nd. Economy in selling and distributing its manufactured product.

3rd. The business covers so wide a territory (its manufactured goods go to almost every civilized country in the world) that it cannot be seriously injured by local troubles; and its manufacturing establishments are so scattered that the danger of severe loss by fire is very slight.

4th. Lower cost of production.

(a) By maintaining the sharpest competition between its several mills, it is enabled to introduce in all the best methods found in each.

(b) By spreading its commercial expenses over a larger output.

(c) By placing in one hand the purchasing of the Raw Materials and Manufacturing supplies for the several Mills, thus securing lowest prices.

(d) By manufacturing for themselves many of their supplies.

The Company has always found it in its interest to divide the economies effected in production and distribution with the consumer, and since its existence the Consumer has, upon the average, had a better article at a lower price than previously.

The Company does not claim to have any monopoly, or to earn monopoly profits; in fact, it has not done so. Since its organization it has been able, owing to the advantages above referred to, to return to its shareholders a dividend of not less than 10 per cent. per annum (as stated in its prospectus), and the Directors believe that these profits will be maintained in the future, as the cost of production and distribution shows each year a marked decrease.

The dividend for the year ending 31st October, 1892, was at the rate of 15 per cent. per annum. The past record of the Company and its present position justify the Directors in believing that quarterly dividends of one and three-quarters per cent. can be paid (and should be paid) for the present year as large as the outstanding provisions, the final quarter's dividend might be increased.

Any further information may be had at the head office of the Company at Montreal.

A Winter Sunset.

Blue peaks against an orange sky; A belt of evergreen; With naked poplars, tall and gray, Like rows of ghosts between.

Facing the west a ruined shed, In which two windows gleam; Prisms for the wandering rays Of the vermilion stream.

As eyes of flame in a dead face, They burn across the snow; A star steals out in its high place; The faint winds fainter blow.

—Sylvia, Easton, Me.

Known in Hamilton.

HAMILTON, Feb. 4. Mrs. Ellen Brown, of Toronto, who was so unaccountably cured of Bright's Disease by Dodd's Kidney Pills, is well-known in Hamilton, having been in the hospital here where the authorities, like those of the Toronto institutions pronounced her case incurable. People who knew her here are surprised to learn that she is cured, as they thought she was in the Home for Incurables in Toronto, and never expected to see her outside that place.

Sir Walter Scott's Good Dogs.

Sir Walter Scott once told a visitor that two hounds which were lying before the fire understood every word he said. The friend seeming incredulous, the novelist, to prove his statement, picked up a book and began to read aloud, "I have two larks, good for nothing dogs, who lie by the fire and sleep and let the cattle run my garden." The dogs raised their heads, listened and then ran from the room, but finding the garden empty soon returned to the hearth rug. Sir Walter again read the story, with like result, but once more the dogs came back disappointed. Instead of rushing from the room when their master commenced reading the third time, both hounds came and looked up into his face, whined and wagged their tails, as if to say, "You have made game of us twice, but you can't do it again."—Our Animal Friends.

EASILY taken in. Being sugar-coated, Everybody's Pills are tasteless and easy to take.

USE SKODA'S DISCOVERY, the great blood and nerve remedy.

Husband—"I wish you would try to clean those white neckties of mine." Wife—"All right, I'll try some chalk and water on them."

Husband—"Do you want me to get the chalk down town?" Wife—"Oh, no; I'll put out an extra milk-ticket in the morning."

USE SKODA'S DISCOVERY, the great blood and nerve remedy.

"Does Shakespeare take well in the West?" asked Wetherup.

"Does he?" returned the tragedian. "Well I guess! We had to kill Caesar three times in Bloody Gulch one night."

HAWKER'S LIVER PILLS, contain no mercury, are purely vegetable and safe and effective. Do not pipe, small, easy to take. Sold everywhere.

HAVE YOU indigestion? Try one of Everybody's Pills about an hour before dinner each day.

A little group was discussing Biela's comet in a country store.

"I tell ye," said Farmer Hardshell, "that was a great fall of stars the time that comet came along. I see more than a thousand drop with my own eyes."

"I didn't see 'em," responded Joshua Bright; "but I looked 'bout the next night, and I noticed the stars was thinned out considerably."

MR. JAMES SHAND, the well-known auctioneer, says: "Had considerable expectation and disagreeable cough. Physicians recommended Putner's Emulsion. Took six bottles—cough vanished. Am convinced your preparation brought about my speedy convalescence."

Gratifying to All. The high position attained and the universal acceptance and approval of the pleasant liquid fruit remedy, Syrup of Figs, as the most excellent laxative known, illustrate the value of the qualities on which its success is based and are abundantly gratifying to the California Fig Syrup Company.

The Telephone Company

P. E. ISLAND.

PARTIES using the Telephones would find talking much more satisfactory if they would observe the following rules:—

1st. Speak with the mouth about four inches from the transmitter.

2nd. Speak in a moderate tone of voice, not too loud, and distinctly.

3rd. Place the telephone so as to cover the ear, just as if you wished to shut out all other sounds. Do not press too hard on the ear.

It is possible to talk and be heard when standing back two or three feet from the transmitter, if you shout loud enough, but it is not a pleasant mode of conversation, is entirely unnecessary, and is a serious waste of wind and lungs, besides being very annoying to all within range of your voice.
