There doesn't seem to be very much the matter with your child. He doesn't actually lose weight, but there is no gain. He belongs to that large class of children that don't seem to prosper. You look at him a little more thoughtfully than you do at the rest and say "He is not doing well." Failure to gain in weight in a child is a danger signal. Scott's Emulsion should be taken at once. It puts on fat where health demands it, strengthening the digestion.
